DIFFERENT SOLUTIONS FOR DIFFERENT APPLICATIONS

From single homes to large buildings ■ ■ ■

Single homes

Small buildings

Multi-residential

■ ■ ■ Different types of construction mean different types of offers

PLUG-IN KITS for standard level single home

Essential solution that provides **BASIC FUNCTIONS**, normally for simple systems:

- ONE OR TWO FAMILY HOMES
- FIT-AND-FORGET SOLUTIONS
- BASIC FUNCTIONS
- PLUG-IN POWER SUPPLY (DIRECT MAINS CONNECTION)

PROFESSIONAL KITS for high level single home

Initial basic solution that **CAN DEVELOP** into a **MORE COMPLEX** and **CUSTOMISED** systems:

- ONE OR TWO-FAMILY HOMES
- READY MADE SOLUTIONS
- FULLY EXPANDABLE
- ENHANCED FUNCTIONS

2 WIRE SYSTEM for small buildings

The best technology when **TIME SAVING** and **EASE of INSTALLATION** are required:

- SMALL BUILDINGS/HOMES
- EASY AND QUICK TO INSTALL
- MAXIMUM VERSATILITY
- PERFECT FOR REFURBISHMENTS

D45 SYSTEM for large buildings

System developed mainly to increase competitiveness in large projects, buildings and complexes.

- LARGER BUILDINGS AND COMPLEXES
- HIGH PERFORMANCES
- LONG DISTANCES AND HIGH NUMBER OF APARTMENTS
- INTEGRATED SECURITY FUNCTIONS

- Easy installation
- Expandability with additional internal units, entrance panel and CCTV camera (Coaxial)
- 2 Wires and 4 Wires available solutions
- Door lock release key and intercom functions
- Connected Wi-Fi solutions

ESSENTIAL KIT

“cost-effective” solutions

Hands-free and handset audio and video kit comprising:

- a wall-mounted metal entrance panel with LEDs for the illumination of the field of view
- a video colour display internal unit with plug-in power supply

MAIN FEATURES:

- 4 Wires (video system)
- Installation flexibility (plug-in power supply)
- Expandability with additional internal units, entrance panel or CCTV camera (Coaxial)

EASY KIT CONNECTED

“very simple” solutions

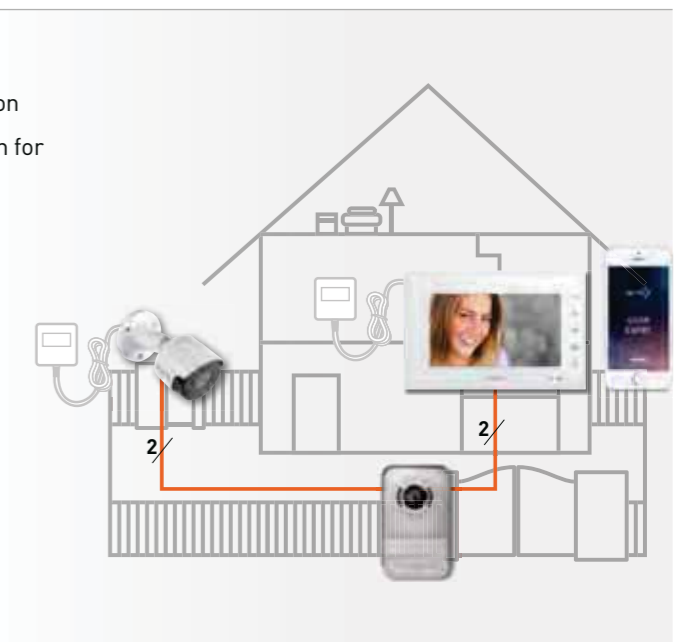

Hands-free video kit comprising:

- a wall-mounted metal entrance panel (rainshield included) equipped with a colour camera and a LED lamp for the illumination of the field of view.
- a video colour display internal unit (plug-in power supply included).

MAIN FEATURES:

- Easy, simple and quick installation
- SMART Wi-Fi connected solution for your security
- 2 non-polarised wires for an error-proof connection
- Practical and functional: hands-free solutions enabling dialogue while moving freely
- High-resistant 'and' waterproof metal entrance panels
- One family installation. Easy switch to two families by adding the additional internal unit
- Expandability with additional internal units, entrance panel and CCTV camera (Coaxial).

EASY KIT Connected 2 WIRES

THE ADVANTAGES OF A CONNECTED SYSTEM

EASY KIT CONNECTED

SMART SOLUTION
FOR YOUR SECURITY

Compatible with
Netatmo

Video internal unit compatible
with NETATMO Smart Indoor and
Smart Outdoor cameras.

Answer and open the door
from your sofa or when you are away from home

Open the gate
without using the keys when you get home

Don't miss a delivery
take calls and open the gate,
wherever you are

Video surveillance
see what is happening outside the home

EASY KIT Connected 2 WIRES

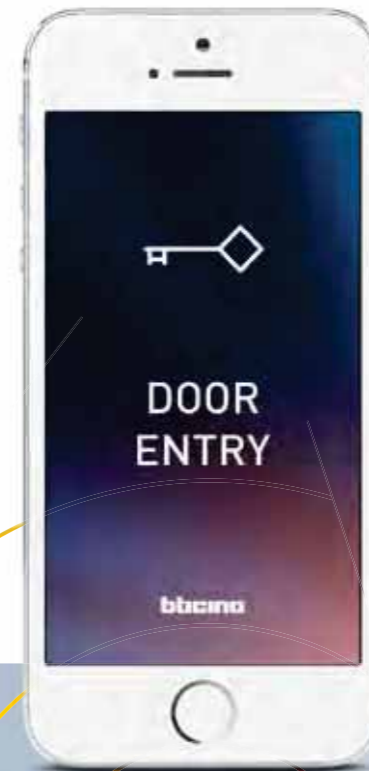

ONE APP FOR ALL
YOUR CUSTOMER NEEDS

With **a single APP** you can answer calls wherever you are and view the images of all the cameras connected to the system, even those of Netatmo

331860

7" white finish connected video kit

Pack	Item	Description
		Complete video kit ONE Family two wires colour WI-Fi connected video kits with wall mounted entrance panel. Metal finish entrance panel with rainshield, colour wide angle camera and LED for the night illumination of the field of view. Entrance panel can be easily adapted for two family houses. An external CCTV colour camera (Coaxial) can be directly connected to the entrance panel. Wi-Fi connected handsfree 7" screen internal unit with PLUG-IN power supply included. The system can be expanded up to 3 traditional handsfree internal units. Thanks to the Wi-Fi connection, you can associate the video internal unit to the Door Entry Easy Kit App (available for Android and iOS). You can manage by the App the main video internal unit functions (receiving calls, opening the door lock, view the cameras). The system is fully interoperable with Netatmo cameras for greater security outside and inside the house.

364614

Pack Item **CLASSE 100X16E - LINEA 3000 CONNECTED VIDEO KIT**

One-family handsfree kit with: CLASSE 100X16E Wi-Fi connected video indoor unit, handsfree function, inductive loop, 5" LCD display; LINEA 3000 pushbutton panel with zamak front cover, wide angle colour camera, proximity reader and with a set of coloured key cards and two clear discs for door lock release. Can be configured for one-family and two-family installations. It can manage a maximum of 20 key cards (125 KHz) for the electric door lock release (including the one for the system management). Nameplate lit by white LED. Can be wall or flush installed with specific accessories: (350020) flush mounted box and (343061) flush mounted accessory - to be purchased separately. Can be fitted with rainshield (343051)- to be purchased separately. The pushbutton panel has a protection index IP54-protection index against mechanical impact IK10. The video indoor unit has inductive loop function (to enable use by people wearing hearing aids fitted with T selector). It has 2 physical keys for the control of the main functions – answer and end a call – and has 3 touch keys for the control of the main functions – door lock release, staircase light control and entrance panel activation/scrolling – there are further 4 configurable touch keys that perform different functions – e.g. intercom, additional door lock activation, generic activations. It has a side lever to adjust: Colour, brightness and display contrast, audio volume, call tone volume and Wi-Fi configuration. There are call exclusion notification LEDs and Wi-Fi. Also, thanks to the Wi-Fi connection, you can associate the video indoor unit to the Door Entry App (available for Android and iOS). Manage the main video indoor unit functions (receiving calls, opening the door lock, activating the entrance panel/scrolling, firmware updating and additional activations) from the App. The installation can be made to the wall using the bracket supplied or by using table support accessories (2 x 344692) – to be purchased separately. The device also has Professional Studio (Office) function and must be configured.

Complete one family kit
(Easy switch to two families system by purchasing an additional internal unit - refer to 2 Wires system internal units range).

DOOR ENTRY CLASSE 100X is the App which lets you use your smartphone, manage the video internal unit calls locally and remotely or with a simple touch open the gate, activate the cameras and switch the garden timed lights on. Configuring the App needs just a few steps, thanks to the BTicino Cloud, the remote connection is completely automated and managed with the maximum level of security.

OLD BELL SYSTEM

NEW AUDIO SYSTEM

2 wires system

2 wires system

The easiest system offer

The **2 WIRES SYSTEM** is the best technology for those cases when **TIME SAVING** and **EASE of INSTALLATION** are crucial. Thanks to the non polarised 2

wires system it is in fact possible to install, with the same ease, all kinds of systems, from those for single villas to those for apartment complexes.

This technology is particularly suitable, for example, for:

SMALL AND MEDIUM SIZE SYSTEMS

SINGLE HOME

APARTMENTS

RENOVATIONS

The possibility of using existing cables makes it the ideal solution when refurbishing systems.

Remove the old entrance panel being replaced.

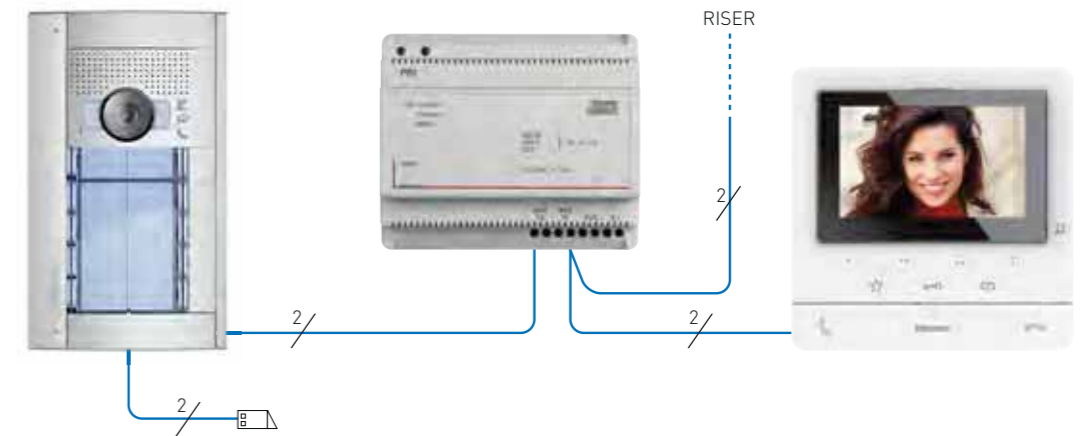

Use the two cables already present to connect the new entrance panel.

In addition to the extreme simplicity, the system offers

VERY GOOD PERFORMANCE

SYSTEM MAIN FEATURES	
3900	Apartments
3900	Apartment video entrance panels
39	Risers with independent sound mode
5	Handsets per apartment
600 m	Distance between entrance panel and furthest internal unit

2 non-polarised wires for all the system

THE 2 WIRES SYSTEM

OFFERS A WIDE RANGE OF ENTRANCE PANELS AND INTERNAL UNITS, TO MEET ALL THE CUSTOMER NEEDS.

THE SYSTEM COMPOSITION

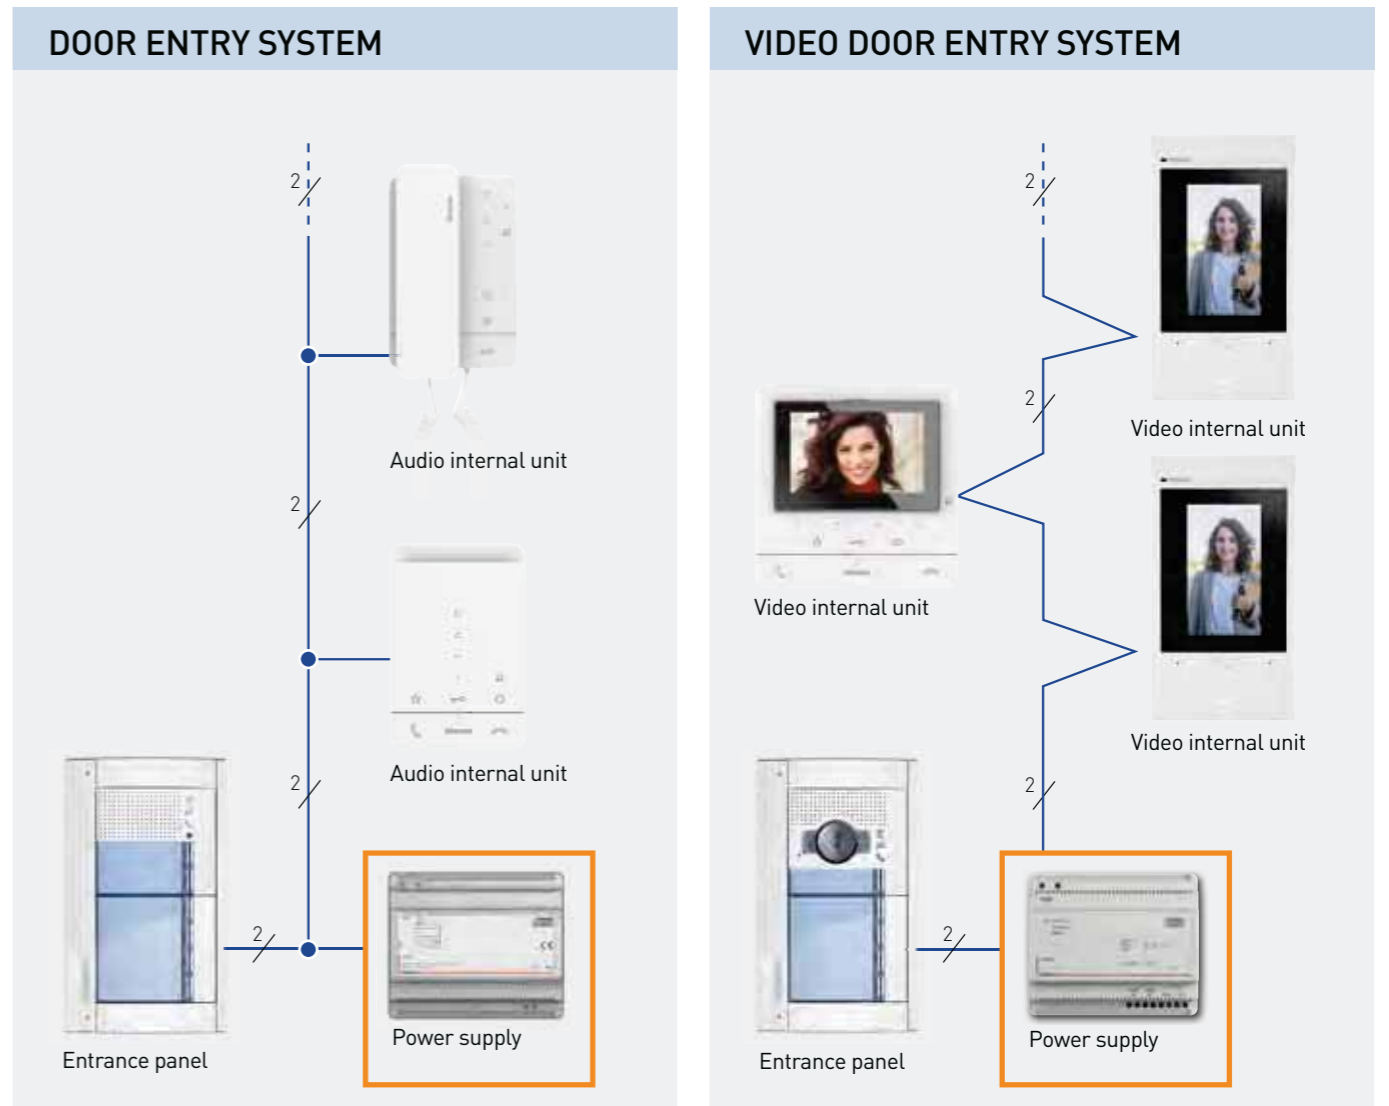

A few accessory devices are needed to make the 2-WIRE systems, as well as the entrance panels and the internal units and/or video internal units.

■ Thanks to the additional door lock, lift integration can be achieved.

■ In apartment-block systems the switchboard can be used for the management and centralised supervision of the apartment-block services.

■ With systems like Classe 300EOS / Classe 100X16E connected internal units, you can manage your door entry system calls and functions with your smartphone thanks to the dedicated DOOR ENTRY Apps.

Electronic modules

Pack	Item	Electronic modules
1	351000	Basic speaker module for the creation of 2 WIRE audio systems. Fitted with loudspeaker and microphone volume adjustment. It manages up to 100 pushbutton calls using additional double row pushbuttons. It can be used for opening an electrical door lock directly connected to the S+ and S- clamps (18 V 4 A impulsive - 250 mA holding current 30 Ohm max) and the connection to a local door lock release pushbutton on the PL clamps. To be completed with surround plate. The device must be physically configured.
1	351100	Speaker module for the creation of 2 WIRE audio & video systems. Fitted with loudspeaker and microphone volume adjustment. It can manage up to 100 pushbutton calls when using additional double row pushbutton modules. It can be used for opening an electrical door lock directly connected to the S+ and S- clamps (18 V 4 A impulsive - 250 mA holding current 30 Ohm max) and the connection to a local door lock release pushbutton on the PL clamps. Preset for additional power supply. Fitted with front LEDs for the notification of the operating status: door lock release, communication active, call put through, and system busy. Integrated optic sensor for the switching on of the night backlighting. To be completed with surround plate. The device can be configured either physically or using the PC and the TiSferaDesign software.
1	351200	Audio video module for the installation of 2 WIRE colour video systems. With Colour camera with 1/3" sensor and white LEDs for the lighting of the shooting field. Mist prevention heating resistance. Loudspeaker and Microphone volume adjustments. It can manage up to 98 pushbutton calls using the additional double row pushbutton modules. Horizontal and vertical camera position adjustment, +/- 10° in both directions. It offers the possibility of opening an electrical door lock directly connected to clamps S+ and S- (18 V 4 A impulsive - 250 mA holding current 30 Ohm max) and of connecting a local door lock release pushbutton on clamps PL. Preset for additional power supply. Fitted with front LEDs for the notification of the operating status: door lock release, communication active, call put through, and system busy. Integrated optic sensor for the switching on of the night backlighting. To be completed with surround plate. The device must be configured physically or using a PC and the TiSferaDesign software.

1	352000	Additional 4-pushbutton modules arranged on single column. To be used with speaker modules 351000 - 351100 and audio/video modules 351200 - 351300. Connection using the appropriate multicable supplied. Backlighting of nameplates controlled by the speaker module or the audio/video module connected. To be completed with surround plate
1	352100	Additional 8-pushbutton modules arranged on double column. To be used with speaker modules 351000 - 351100 and audio/video modules 351200 - 351300. Connection using the appropriate multicable supplied. Backlighting of nameplates controlled by the speaker module or the audio/video module connected. To be completed with surround plate
1	352200	Nameplate module normally used for displaying the house number or other notifications (e.g. Legend for calls using digital pushbutton panels, opening/closing times, etc.). Connection using the appropriate multicable supplied. Night backlighting controlled by the speaker module or the audio/video module connected. To be completed with surround plate

Pack	Item	Electronic modules
1	352400	Night & Day and wide angle camera module for the installation of colour video systems. Fitted with 1/3" sensor with N&D function and automatic removal of the IR filter. IR LED for the lighting of the field of view. Mist prevention heating resistance. Automatic brightness adjustment. Connection to the speaker module (351100) using the multicable supplied. To be completed with surround plate
1	352500	Graphic display module to be used with speaker module 351100 or with audio/video modules 351200 - 351300 (connection using the multicable supplied). It can operate in two modes: call from address book, or digital call. The call from the address book gives the possibility of sending the call by scrolling on the display the names associated to the residents. It is possible to store up to 4000 residents names. Using the keypad module item 353000 it is also possible to directly call the apartment by entering the number corresponding to the resident. The digital call is also performed using the keypad module item 353000 by entering the numerical code. It is recommended that one or more nameplate modules, item 352200, are installed at the side of the pushbutton panel to display the correspondence between the numerical codes and the names of the users. It is possible to program the names in the address book in two different ways: manual inclusion using the pushbuttons of the display module or inclusion using a PC with the TiSferaDesign software installed, by downloading the file to the display module (RECOMMENDED). System power supply cuts do NOT cause the loss of memory data. To be completed with surround plate
1	352700	Inductive loop and control speech synthesis module to be used with the 351100 speaker module or with audio/video modules 351200 - 351300. Enable use by people wearing hearing aids (fitted with T selector) or blind people thanks to the connection status voice message synthesis (call active, call ended, no answer, busy, door open). It is connected to the speaker module using the appropriate multicable supplied. To be completed with surround plate. The device can be configured either physically or using the PC and the TiSferaDesign software

Pack	Item	Electronic modules
1	353000	Keypad module for door lock release, or for the digital call of the apartment (to be used with the display module). It is fitted with relay with contacts (C - NC - NO) and clamps (CP- P1 - P2) for the connection of a local door lock release pushbutton. The numerical code for the opening of the door lock can be programmed using the keypad itself, or using a PC after downloading the module programming file. It also has a programming reset pushbutton and LEDs for the visual notification of the access status. Night backlighting with LEDs. To be completed with surround plate. It is connected to the other modules using the appropriate multicable supplied. The device may also be used as a stand alone unit with independent power supply and operation per la sola apertura serratura. Configuration performed using physical configurators, or a PC with the TiSferaDesign software installed
1	353200	RFID badge reader module for the release of the door lock by swiping the badge. It manages up to 20000 badges. It's fitted with relay contacts (C - NO - NC) and clamps (CP - P1 - P2) for the connection of a local door release pushbutton. The badge for the release of the door lock can be programmed from the module itself, or using a PC after downloading the module programming file. It also has a programming reset pushbutton and LEDs for the visual notification of the access status. Night backlighting a LEDs. To be completed with surround plate. It is connected to the other modules using the appropriate multicable supplied. The device may also be used as a stand alone unit with independent power supply and operation. Configuration performed using physical configurators, or a PC with the TiSferaDesign software installed
1	346993	Expander pushbutton module that gives the possibility of connecting call pushbuttons to the SFERA speaker modules (items 351000; 351100; 351200; 351300). Each module can manage up to 8 call pushbuttons. It is possible to connect several expander pushbutton modules (max 96 call pushbuttons for each Entrance Panel)
Transponder keys and programmer		
10	348200	Black transponder key
10	348201	Red transponder key
10	348202	Green transponder key
10	348203	Blue transponder key
10	348204	Orange transponder key
10	348205	Grey transponder key
10	348206	Yellow transponder key
1	348402	Table-top transponder key programmer

2 WIRES SYSTEM

LINEA 3000 entrance panel

ONE entrance panel for every NEED

LINEA 3000 can be configured both for 1 and 2 family house

HIGH installation flexibility

ONE FAMILY HOUSE

- Write the name on the one family nameplate label (supplied with the product).
- Set the internal micro-switch on position 1.

TWO FAMILY HOUSE

- Replace the nameplate label with the two family one (supplied with the product).
- Write the names on the two family nameplate label
- Set the internal micro-switch on position 2.

LINEA 3000 is sold for wall mounting installation but with the dedicated **ACCESSORIES** (to be purchased separately), you can use the entrance panel for **FLUSH MOUNTING INSTALLATION**.

Also available in black version.

Ideal for renovations. Reuse the existing flush mounted box. Same 2 Modules Tersystem and SFERA flush mounting box.

LINEA 3000 can be wall mounted with the dedicated **(343051) RAINSHIELD ACCESSORY** (to be purchased separately).

Also available in black version.

LINEA 3000 inside of the new professional kits

For **ONE FAMILY** house installation, buy complete kit with all you need within.

For **TWO FAMILY** house installation, buy the kit + an additional 2 wires internal unit. [refer to 2 wires system internal units range].

Wide angle camera

Horizontal and vertical wide viewing field. Easy to use for children and differently-abled People.

Door lock release

Door lock release with coloured badges or clear discs. Additional safe and comfort for all the residents.

2 WIRES SYSTEM
ENTRANCE PANEL
LINEA 3000

Pack	Item	LINEA 3000 Video entrance panel with door lock release proximity reader
1	343091	Wall mounted 2-Wires video pushbutton panel with Zamak front cover, wide angle colour camera and proximity reader. Fitted with white LED for the lighting of the shooting field in low light conditions. Can be set up for one or two family installation. It provides the possibility of opening an electrical door lock connected directly to clamps S+ and S- (18 V 4 A impulsive, 250 mA holding current, 30 ohm max). Can manage a maximum of 20 badges (125 KHz) for electrical door opening (master system badge included). White LED backlight name plate. Protection degree IP54 – protection against mechanical impact IK10. Supplied 1 set of door opening badges made up of: 6 coloured badges and 2 clear discs.
1	343093	Same as 343091 but in black finish

Pack	Item	LINEA 3000 Spare part front covers
1	343082	Spare part front cover for video entrance panels 343081 and 343091.
1	343072	Spare part front cover for audio entrance panel 343071.
1	348260	Door lock release badge and clear disc Set made up of 6 coloured badges which can be programmed to open the door
1	348261	Set made up of 2 programmable clear discs which can be programmed to open the door

Pack	Item	LINEA 3000 Rainshield accessory
1	343051	Rainshield accessory for Linea 3000 (343071 – 343081 – 343091) entrance panels.
1	343053	Rainshield accessory for Linea 3000 (343093) entrance panel.

Pack	Item	LINEA 3000 Flush mounting accessory + plastic box
1	343061	Flush mounting frame accessory for Linea 3000 (343071 – 343081 – 343091) entrance panels.
1	343063	Flush mounting frame accessory for Linea 3000 (343093) entrance panel.
1	350020	Plastic box suitable for the flush mounting installation of Linea 3000 entrance panels (343071 - 343081 - 343091 - 343093) together with the specific frame accessory 343061 - 343063.

1	343081	LINEA 3000 Video entrance panel Wall mounted 2-Wires video pushbutton panel with Zamak front cover and wide angle colour camera. Fitted with white LED for the lighting of the shooting field in low light conditions. Can be set up for one or two family installation. It provides the possibility of opening an electrical door lock connected directly to clamps S+ and S- (18 V 4 A impulsive, 250 mA holding current, 30 ohm max). White LED backlight name plate. Protection degree IP54 – protection against mechanical impact IK10.
1	343071	LINEA 3000 Audio entrance panel Wall mounted 2-Wires pushbutton panel with Zamak front cover. Can be set up for one or two family installation. It provides the possibility of opening an electrical door lock connected directly to clamps S+ and S- (18 V 4 A impulsive, 250 mA holding current, 30 ohm max). White LED backlight name plate. Protection degree IP54 – protection against mechanical impact IK10.

LINEA 100

343101 343102 343100

Pack	Item	Pushbuttons audio entrance panel
1	343101	2 WIRE audio pushbutton panel with 4 call pushbuttons for wall mounted installation. It's fitted with rainshield and internal contact (C - NO - NC) for the connection of an electrical door lock or external actuator (for the power supply to the electrical door lock allow for the installation of auxiliary transformer item 336482). Connections (PL) for a local door lock release pushbutton
1	343102	2 WIRE audio pushbutton panel with 8 call pushbuttons for wall mounted installation. It's fitted with rainshield and internal contact (C - NO - NC) for the connection of an electrical door lock or external actuator (for the power supply to the electrical door lock allow for the installation of auxiliary transformer item 336482). Connections (PL) for a local door lock release pushbutton

Pack	Item	Digital call audio entrance panel
1	343100	2 WIRE AUDIO digital call pushbutton panel for wall mounted installation. The device consists of a pushbutton panel with 16 keys and a digital display showing the operating status. Using previously saved numerical (SCS addresses) or alphanumeric (logical addresses) codes, it is possible to call the internal units, and for the residents to release the door lock using a dedicated numerical code. The pushbutton panel manages up to 4000 internal unit addresses (from 0 to 3999), as well as the direct call to the 2 WIRE switchboard. It's fitted with rainshield and internal contact (C - NO - NC) for the connection of an electrical door lock or external actuator (for the power supply to the electrical door lock allow for the installation of auxiliary transformer item 336482). Connections (PL) for a local door lock release pushbutton

The shape of a welcome:
a "welcoming effect"
for residents and guests.

Wide angle camera

Horizontal and vertical wide viewing field. Easy to
use for children and differently-abled People.

VIDEO DOOR ENTRY SYSTEM

Advanced interface.

Intuitive use
For simple smartphone-like
gestures (swipe function)

Quick tips
To guide you and suggest
in a dynamic way

ALEXA BUILT-IN

The first video internal unit with built-in Alexa

Enjoy the full Alexa experience interacting with all its functions, such as:
 Custom routines - Play Music - Smart Home
 To set the clock alarms - Memos and **video door entry functions.**

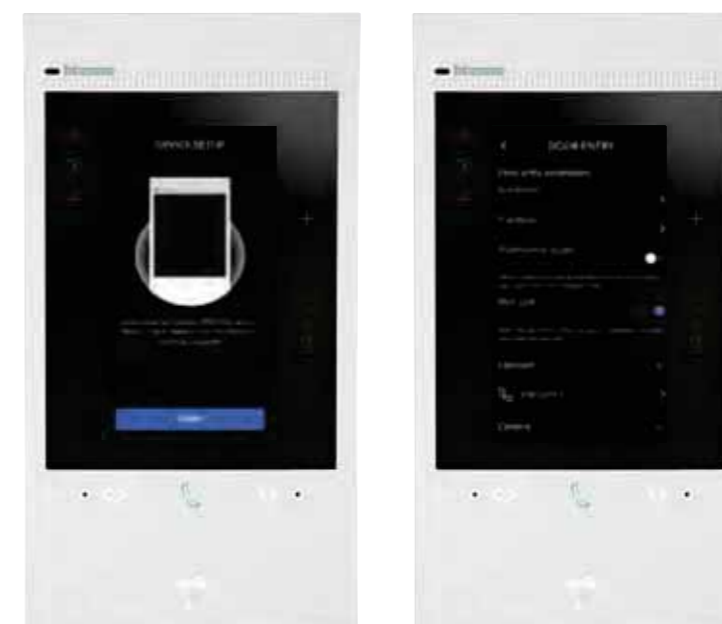

Easy installation based on 2 wire system

Forget complex installations and configurations of Ethernet networks, and continue to enjoy the **simplicity of 2 wires solutions.** Everything stays the same thanks to the Wi-Fi technology integrated in the video internal unit.

Simple and intuitive configuration

The configuration requires no IT skills. You must only configure the classic 2 WIRES system parameters (entrance panel and internal unit SCS addresses, etc.). Your customer manages all the configurations of the Wi-Fi network and the App independently and intuitively. If necessary one can follow the information on the video door entry display and inside the Home + Security App menu.

Installation, connection of the two BUS wires, configuration of the main system parameters: job done!

SAFETY

Security enhancement with integration of Netatmo devices

Video door entry system and security. Together.

Video door entry system

Main entrance
Incoming entrance call.

Security

Secondary entrance and interiors
Smart Outdoor Camera with Siren and movement detection. Smart Indoor Camera with face recognition.

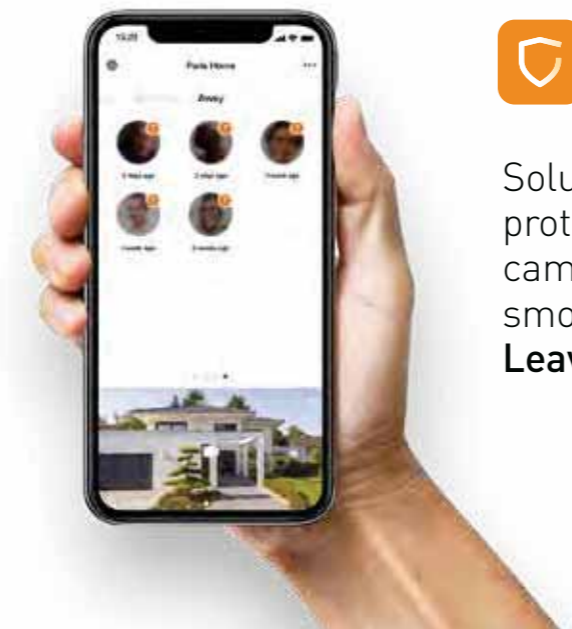

A single App with an intuitive home page. It allows you to answer video door entry calls, activate the door lock and view images from Netatmo smart outdoor and indoor cameras.

Professional opportunity: offer your services as an installer of simple smart security systems.

Business opportunities: access to a catalogue of smart and easy-to-install security devices.

 **Home + Security**
The best App for a safe home.

Solutions for a smart and complete protection of your home: security cameras, alarms, opening sensors, smoke detector...
Leave your home without worries.

WITH **Netatmo**

Netatmo solutions natively integrated in the Home + Security App

✓	History of the events

2 WIRES SYSTEM
INTERNAL UNITS
Classe300EOS

344842

344844

346020

Pack	Item	CLASSE 300EOS CONNECTED VIDEO INTERNAL UNIT
1	344842	2 wires/Wi-Fi handsfree connected video internal unit with built-in Amazon Alexa voice assistant, 5" vertical touch screen LCD display and video door entry answering machine. It has a physical key for door lock release and capacitive keys for the control of the main video door entry functions: handsfree communication, entrance panel activation /camera scrolling and Favourite key (can be configured to activate the quick actions most frequently used – e.g. additional door locks, staircase light control, intercom). There are notification LEDs for: Wi-Fi network connection status, info / notifications and call exclusion. It is possible to easily interact with the built-in Alexa voice assistant, either using the dedicated capacitive keys or with your voice, and activate several functions, such as the video door entry functions, Smart Home, scenarios, reminders etc. Using the touch display, it is possible to access the notification list, as well as your favourite door entry, security and Smart Home controls (if any). Possibility of voice communication with the switchboard - if present in the system - after a specific call. The device must be configured by physically connecting the configurators, or using the menu, which will give better possibilities of customisation of associated functions and texts. Thanks to the Wi-Fi connection, you can associate the video internal unit to the Home + Security App (available for Android and iOS). The App allows to use the main video internal unit functions (receiving calls, door lock release, display of the event timeline and activation of the entrance panel/camera cycling). Through the Home + Security App, it is also possible to manage the products of the Netatmo security range (outdoor and indoor cameras, door and window sensors, indoor siren and smoke detector). This allows you to quickly and easily create a Smart security system. The device also allows to create and manage Smart Home functions, using the wired SCS BUS solution or the Zigbee solution, without the need for adding dedicated gateways. Wall mounted installation using the supplied bracket Possibility of Wi-Fi connection or using RJ45 ethernet cable with the dedicated accessory 344844.

Pack	Item	ETHERNET ACCESSORY
1	344844	Accessory cable for the wired connection of the Classe 300EOS video internal unit using an RJ45 Ethernet cable. To be purchased separately.

Pack	Item	2 DIN ADDITIONAL POWER SUPPLY
1	346020	Additional 2 DIN power supply to be used to supply the connected CLASSE 300EOS video internal unit (344842) locally, when required.

DIMENSIONAL DATA

Classe 300EOS with Netatmo

Legal notes

To use the video door entry call repeat service on a smartphone, the customer must acquire the technical equipment which allows access to the Internet, on the basis of an agreement made by the customer himself with an ISP (Internet Service Provider). BTicino plays no part in this. The customer must install the Home + Security App on his smartphone so that he can use some services which BTicino supplies as extras to the normal basic functions of the Classe 300EOS video internal unit. The services offered by means of the App require being able to interact with Classe 300EOS remotely and through the Internet.

In these cases, the integration and good working between the video internal unit and App may depend on:

- a) quality of the Wi-Fi signal;
- b) type of access contract to the home internet;
- c) type of data contract on the smartphone

When one of these 3 elements does not conform with the specifications required for product operation, BTicino accepts no responsibility for any faults. The product supports a VoIP streaming system. You must therefore check with your smartphone contract – data network – that it does not block it. We should also like to inform you that the service provided by BTicino – remote use via App – involves the use of data. The cost linked to data usage depends on the type of contract which the customer has with his ISP (Internet Service Provider) and is solely the customer's responsibility.

2 WIRES SYSTEM
INTERNAL UNITS
CLASSE 100

Classe 100X16E

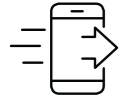

Eliot is the BTicino program dedicated to connected objects (Internet of things) which identifies all those products or systems which, because they can connect to the Cloud, give added value in terms of functionality, information, interactions with the environment and use.

Compatible with
Video internal unit compatible
with NETATMO Smart Indoor
and Smart Outdoor cameras.

Now the standard is connected

BTicino renews the range of Classe 100 indoor units by introducing Wi-Fi connectivity in the standard video door entry system offer. The result is a range of video and audio indoor units with a modern and elegant design, capable of meeting all installation needs.

-  Built-in connectivity for constant connection with the home.
-  Up to 22 apartments without dedicated power supply.
-  Immediate association with the Door Entry CLASSE 100X App.
-  Ideal for the refurbishment of old door entry systems.
-  No extra work for the installer; easier to use for the end user.

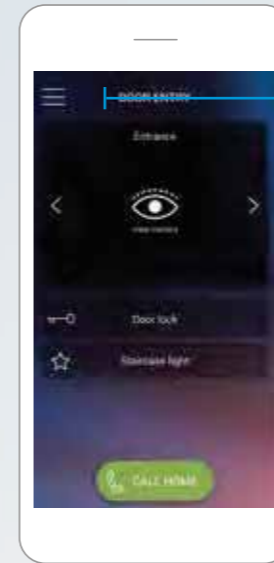

After being connected to Classe 100X, the smartphone becomes an "additional virtual video indoor unit" that can be used to answer calls, activate the opening of the door locks and activate the system cameras.

Door Entry App Classe 100X

Conceived for easy daily use

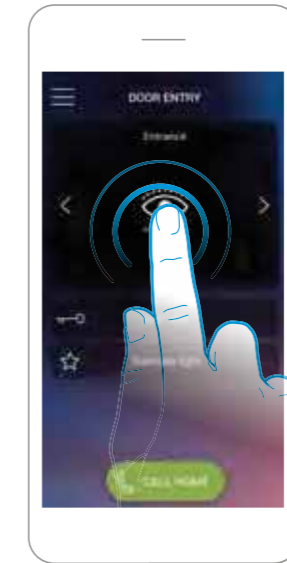

HOME PAGE
SCREEN

- App settings
- Camera display
- Door lock management
- Call home directly

CAMERA ACTIVATION
SCREEN

Select the camera and press to activate it

A simple touch for the end user

DOOR ENTRY is the App which allows, using the smartphone, to manage the video indoor unit calls locally and remotely or with a simple touch.

- open the gate,
- activate cameras,
- switch on the timed lights in the garden.

Answering the indoor unit is as easy as answering a normal telephone call

Call in progress

To open the door slide the key to the right - you will avoid opening the door accidentally

BTICINO
Classe 100X **WiFi**

Video internal unit compatible with NETATMO Smart Indoor and Smart Outdoor cameras.

Open at integration with connected devices to extend your user experience

NETATMO
Smart Indoor Camera

By installing or updating the **DOOR ENTRY CLASSE 100X** App on your smartphone, you can connect and view the images of Netatmo Smart cameras on your video internal unit, both in new and existing systems. **No additional wiring / accessory is required:** the association is done directly from the App in a few simple guided steps.

CONNECTED AND INTEROPERABLE

From now on the integration with the **NETATMO** Smart Indoor and Smart Outdoor Cameras simplifies and strengthens the control of your home. It displays video from your BTicino and NETATMO cameras in an integrated way, answers the courier who rings your internal unit and checks that he delivers the package you are waiting for. All this is now possible from a single application: **DOOR ENTRY CLASSE 100X..**

BTICINO
Door Entry App

Pack	Item	CLASSE 100X16E connected video indoor unit
1	344682	2 WIRES/Wi-Fi handsfree connected video indoor unit with inductive loop and 5" colour LCD display. It has 2 physical keys for the control of the main video door entry functions – answer and end a call – it has 3 touch keys for the control of the main functions – door lock release, staircase light control and entrance panel activation/scrolling – there are further 4 configurable touch keys that perform different functions – e.g. intercom, additional door lock activation, generic activations. The device has a side lever to adjust: colour, brightness and display contrast, audio volume, call tone volume and Wi-Fi configuration. There are call exclusion notification LEDs and Wi-Fi. Also, thanks to the Wi-Fi connection, you can associate the video indoor unit to the Door Entry App (available for Android and iOS). You can manage the main video indoor unit functions (receiving calls, opening the door lock, activating the entrance panel/scrolling, firmware updating and additional activations) from the App. The installation can be made to the wall using the bracket (supplied) or using table support accessories (2 x 344692) – to be purchased separately. The device also has Professional Studio (Office) function and must be configured.

Pack	Item	CLASSE 100V16E video indoor unit
1	344672	2 WIRES handsfree video indoor unit, with inductive loop and 5" colour LCD display. It has 2 physical keys for the control of the main video door entry functions – answer and end a call – it has 3 touch keys for the control of the main functions – door lock release, staircase light control and entrance panel activation/scrolling – there are further 4 configurable touch keys that perform different functions – e.g. intercom, additional door lock activation, generic activations. The video indoor unit has a side lever to adjust: colour, brightness and display contrast, audio and call tone volume. There is a call exclusion notification LED. The installation can be made to the wall using the bracket (supplied) or using table support accessories (2 x 344692) – to be purchased separately. The device also has Professional Studio (Office) function and must be configured.
1	344652	CLASSE 100V16B video indoor unit 2 WIRES handsfree video indoor unit with 5" colour LCD display. The device has 2 physical keys for the control of the main video door entry functions – answer and end a call – and 3 touch keys that allow the door lock release, the entrance panel activation/scrolling and the customisation of a most frequently used quick action – e.g. staircase light control, intercom, additional door lock activation, generic activations. The device has a side lever to adjust: colour, brightness and display contrast, audio and call tone volume. There is a call exclusion notification LED. The installation can be made to the wall using the bracket (supplied) or using table support accessories (2 x 344692) – to be purchased separately. The device must be configured.

Pack	Item	CLASSE 100A16E HANDSFREE audio indoor unit
1	344282	2 WIRES handsfree audio indoor unit for wall mounted or table installation. It has 2 physical keys for the control of the main functions – answer and end a call – and has 3 touch keys for the control of the main functions – door lock release, staircase light control and entrance panel activation/scrolling – there are further 4 configurable touch keys that perform different functions – e.g. intercom, additional door lock activation, generic activations. The device has a side lever to adjust the audio volume and call tone and a call exclusion notification LED. The installation can be made to the wall using the bracket (supplied) or using table support accessory (1 x 344692) – to be purchased separately. The device also has Professional Studio (Office) function and must be configured.
1	344292	CLASSE 100A16M audio indoor unit with handset 2 WIRES audio indoor unit with handset for wall mounted or table installation. It has 3 touch keys for the control of the main functions – door lock release, staircase light control and entrance panel activation/scrolling – there are further 4 configurable touch keys that perform different functions – e.g. intercom, additional door lock activation, generic activations. Ringtone volume adjustment (with call exclusion) using the appropriate selector. The installation can be made to the wall using the bracket (supplied) or using table support accessory (1 x 344692) – to be purchased separately. The device also has Professional Studio (Office) function and must be configured.

Pack	Item	Accessories - table support - cable - sockets
1	344692	Table support accessory for CLASSE 100 audio and video indoor units.
1	346020	2 DIN additional power supply Additional 2 DIN power supply to be used for the local power supply to connected CLASSE 100x16E (344682) video indoor units in multi-family systems in complexes with more than 22 apartments.

2 WIRES SYSTEM
INTERNAL UNITS
CLASSE 100

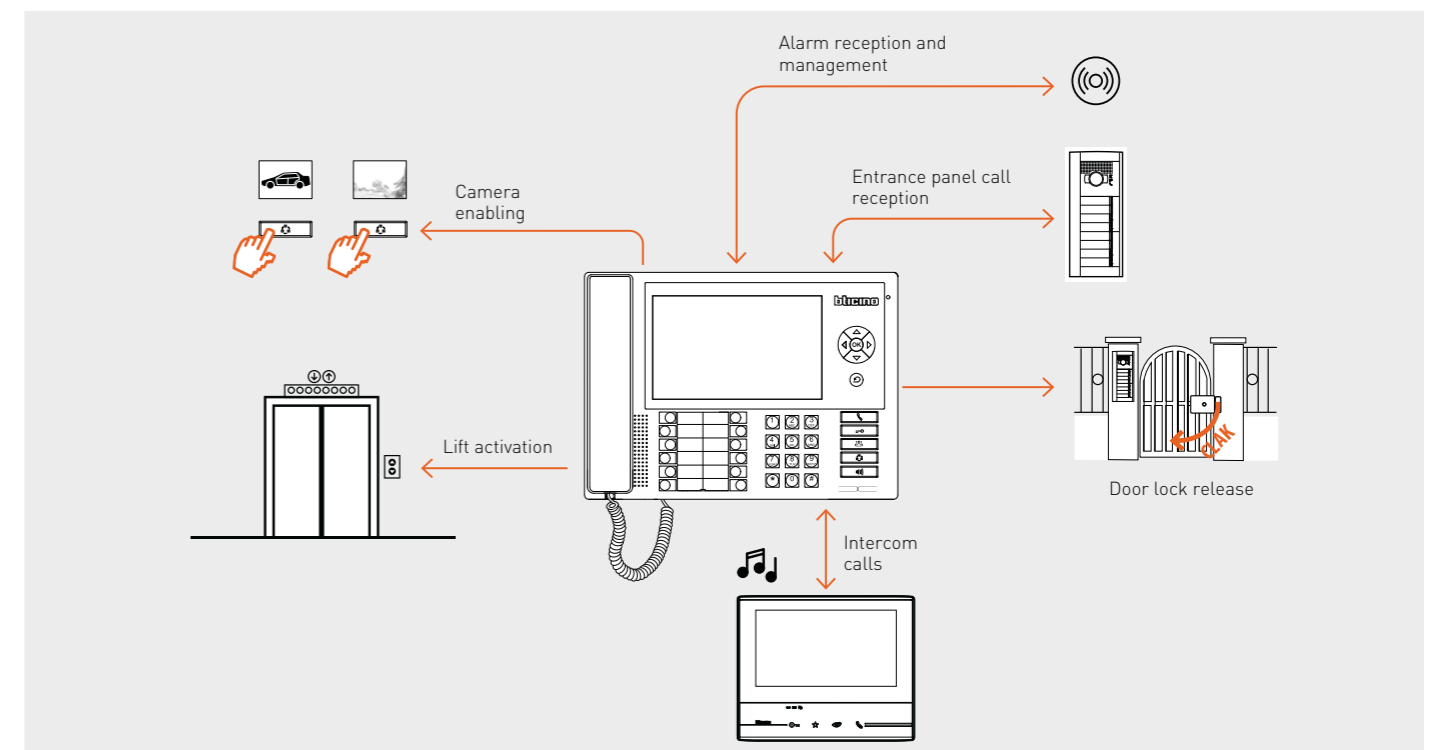

Pack	Item	SPRINT L2 audio handsets
1	344242	2 WIRE audio handset (without the possibility of fitting with accessories) for audio systems and mixed audio /video systems. Wall mounted installation without the need of accessories. With door lock release key and auxiliary functions key (that can be configured). Ringtone volume adjustable on 3 levels. White
1	344232	As item 344242 but with call to the floor function

Porter switchboards

Pack	Item	Switchboard and accessories
1	346310	Switchboard for 2 WIRE audio and video systems. Allows access to various services (video door entry functions, door lock/ staircase light management and apartment alarm monitoring) directly from the keypad or via the intuitive icon menu. The switchboard is supplied with an integrated table supporting frame and also features a 7" colour LCD display, receiver and speaker phone, dedicated keys for the main functions and keys which can be configured. The programming can be carried out directly from the device or via PC with TISwitchBoardDevice software (supplied). The device can manage the phonics of the riser EP (i.e. wired downstream of interface 346851); it cannot however manage the apartment EP (i.e. wired downstream of interface 346850). The use of an additional power supply is recommended. It is possible to connect up to a max. of 16 switchboards (configured from 0 to 15). WARNING: the switchboard cannot be used in systems with 2 WIRE-IP interface 346890. The new HIERARCHICAL mode is available only with the entrance panels of the following series: Sfera New, Linea 100, Minisfera, Linea 300.

Pack	Item	Power supplies
1	346050	Power supply for 2 WIRES system in 6 DIN modular enclosure. Power supply 110 – 240 Vac @ 50 – 60 Hz. The output provides two power supplies in very low safety voltage (one on the 3 TK BUS, IU BUS and SCS clamps, one on the 1 - 2 clamp) to be used alternately and NOT at the same time. To be used in audio, video or mixed audio video systems. The video adapter is integrated in the device (item 346830 must not be used). It is therefore possible to avoid the use of the A/V node (F441) or the Multi-channel Matrix (F441M), if three junctions (MAX 2 IU + 1 TK risers or 1 IU + MAX 2 TK risers) are not exceeded in total from the clamps. It can also be used as additional power supply (1 - 2 output) for the local power supply of the preset internal units or entrance panels (in this case it is not possible to use other outputs). The device is electronically protected against overload and short circuit. It is a SELV double insulation safety device. The installation must be made in compliance with current regulations. The device must not be configured. WARNING: the (IU BUS), (TK BUS) and (SCS) outputs can be used at the same time respecting the total maximum absorption of 1.2 A. WARNING: Disconnect the power supply for 5 minutes after overload or short circuit.
1	346040	Power supply for 2 WIRES audio systems in 6 DIN modular enclosure. Power supply 110 – 240 Vac @ 50-60 Hz. The output provides 26 Vdc low rated voltage, and a maximum rated current of 600 mA and it is protected on the PRI side (with fuse) against overload and short circuit. It is a SELV double insulation safety device.
1	346030	Mini power supply with integrated video adapter to make small 2-WIRES video systems (Intercom). 2 DIN modular enclosure. Power supply 230 Vac @ 50-60 Hz. The output provides 27 Vdc continuous low voltage, with maximum current of 600 mA and it is protected on the PRI side (with fuse) against overload and short circuit. It is a SELV double insulation safety device.
1	346020	Additional power supply to be used to supply the set up entrance panels and internal units locally. 2 DIN modular enclosure. Power supply 230 Vac @ 50-60 Hz. The output provides 27 Vdc continuous low voltage, with maximum current of 600 mA and it is protected on the PRI side (with fuse) against overload and short circuit. It is a SELV double insulation safety device.

Pack	Item	Video mixers
1	F441	Audio video node in 6-DIN modular enclosure set up with 4 input terminals and 4 output terminals. Can connect up to 4 source devices (entrance panels or cameras) in input and up to 4 2-WIRES video risers in output. The device must be used with the system power supply 346000. It must be used as an alternative to the audio video adapter 346830
System interfaces		
1	346850	Apartment interface in 4 DIN modular enclosure. Can interface a dedicated apartment video door system with local CCTV, sound system and control of the Home automation applications to a 2-WIRES riser. The device must be configured using physical configurators
1	346851	System expansion interface in 4 DIN modular enclosure. Can double the length of the entrance panel-internal unit line, create risers with independent sound and expand the performance of the apartment system. The device must be configured using physical configurators

Pack	Item	Interfaces with other BTicino systems
1	346150	8/2-WIRES interface in 6 DIN modular enclosure. Can make mixed video door entry systems (8-WIRES digital backbone/2-WIRES risers). The device must be configured using physical configurators
1	349410	Analogue/2 WIRES interface in 4 DIN modular enclosure. Can interface a dedicated apartment 2-WIRE video door entry system with cameras and control of the MyHOME applications to an analogue riser, digital 8-WIRES, audio TERSYSTEM and VIDEOPORTER 2000.
DIN actuators		
1	346210	Relay actuator in 2 DIN modular enclosure. Can switch on lights, open gates, repeat the call on bells (MOD=SLA) or control other devices from the video internal units. The device must be configured using physical configurators
1	346230	Door lock relay actuator in 2 DIN modular enclosure. Can supply power and activate an electrical door lock. The device must be configured using physical configurators
1	346260	Timed door lock relay actuator in 4 DIN modular enclosure. Can switch on lights, open gates or manage electro-magnetic door locks, timed door opening and door lock status (with NC contact). The device must be configured using physical configurators

Pack	Item	Devices in basic enclosure
1	346841	Floor shunt with 4 outputs Can make 2-WIRES video door entry systems with star wiring distribution. The device automatically adapts the video signal. Its small size means it can also be placed inside the flush-mounted box
1	347400	Interface for the conversion of the coaxial signal into a 2 WIRES BUS signal. It can be used to connect to the BUS of the 2 WIRES video door entry system a camera with coaxial video output powered at 12 Vdc, with maximum absorption 150 mA and 1 Vpp video output (75 Ω). The device must be configured using physical configurators
Wiring accessories		
1	346870	2 WIRES video amplifier. In video systems wired using non-twisted wires, where the distance between the entrance panels and the internal unit exceeds 50 metres, it enables increasing such distance to up to 100 metres
1	346250	Relay module for gate opening to be used with LINEA 2000, LINEA 3000, MINISFERA and SFERA pushbutton panels. Can open door locks (NOT managed by BUS) by means of the entrance panel
5	3499	Line terminator. To be used to terminate the riser or apartment line, when the last installed device is not fitted with line closing micro switch
1	354000	Flat cable for the connection of several SFERA NEW and SFERA ROBUR pushbutton modules. Length 470 mm

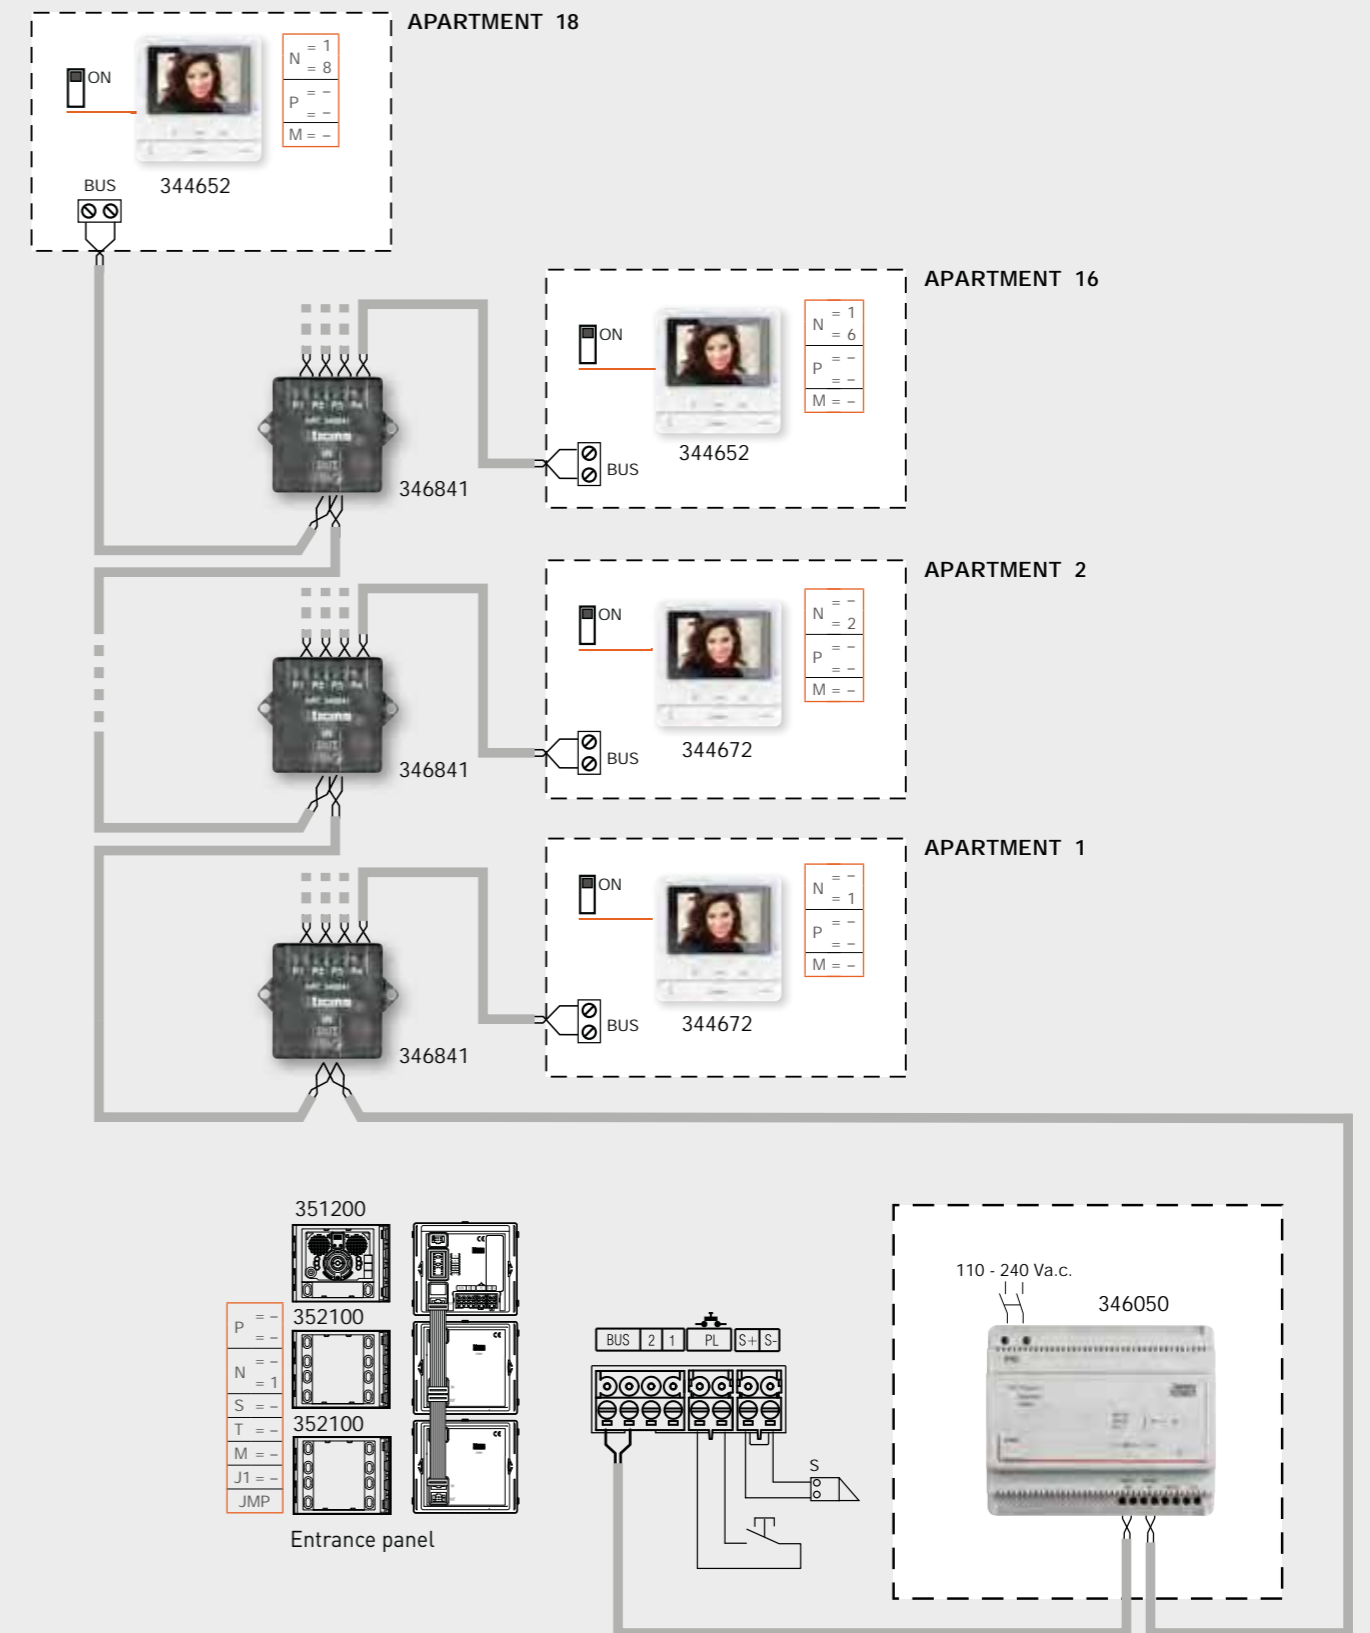

Pack	Item	Universal speaker unit and expansion module
1	346991	The universal speaker unit can be used to install the 2 WIRES audio system in new or refurbished systems, where pushbutton panels of other manufacturers are present or required (mail boxes, patterned brass, compact sheet metal units, etc.), preset for a traditional speaker module (e.g. 2659N). The universal speaker unit has, as base, contacts for the connection of 8 call keys; to make systems with more keys (up to 56 using the 346000 power supply and up to 24 with the 346010 power supply one or more key expansion modules must be used (1 every 8 pushbuttons).
1	346992	Expansion module for connecting more than 8 call keys to item 346991 - max. 6 modules (56 calls max.) with power supply 346000. Max. 2 modules (24 calls max.) with power supply 346010
Cable for systems		
1	336904	Specific cable for 2 WIRES video door entry applications with 2 twisted conductors. It can be installed in underground piping, in accordance with standards (CEI 20-13 and CEI 20-14). It ensures the best performance in video systems (higher distance between EP and Handset when compared with other cables). 200 m coil
Configurators (package of 10 pieces)		
10	3501/0	Configurator 0

322010
322011 322030 322031 322020

Pack Item Digital call colour entrance panels

Pack	Item	Description
1	322010	Zamak digital call entrance panel with keyboard, LCD display and colour camera. Equipped with door lock release and burglar alarm notification. Configuration screen menu and software upgrade without the need to dismantle the device. Flush-mounting installation (flush-mounting box sold with the street panel)
1	322011	Without addresses list
1	322011	With addresses list

1 322012 Nameplate module

1	322012	Zamak nameplate module to install at the side of the digital call entrance panel Item 322011 to insert the list of residents or customised messages. Easy insertion / replacement of nameplates. Flush-mounting installation (flush-mounting box supplied)
---	--------	--

Pushbutton call colour street panels

Pack	Item	Description
1	322030	Zamak pushbutton entrance panel with pushbuttons colour camera. Flush-mounting installation (flush-mounting box supplied)
1	322030	With 10 call pushbuttons
1	322031	With 20 call pushbuttons
		NOTE: Wall flush-mounted box available on demand, please contact us

Pack Item Single call small video entrance panel

1	322020	Aluminium alloy single call small entrance panel to be installed in one-family systems or as private entrance panel in multifamily systems. Touch-sensitive pushbutton for calling indoor handsets and direct conversation. Double verified intercom calls. Surface-mounting

323009

323023

346858

Pack	Item	System accessories
1	323002	Floor shunt This is used to convert video signals on the BUS to transfer mode and then distribute them to the connected internal units. To be installed between floors. Each floor shunt can be connected to 4 internal units. DIN rail installation
4	323003	Riser shunt Used to connect the riser BUS and system BUS in order to obtain BUS separation. Transfer signals and switch between video and audio channels. Video transfer distance can be increased by setting the gain adjustment dip switch. DIN rail installation
6	323004	Entrance panel video mixer Device can mix signals coming from 5 entrance panels. Video transfer distance can be adjusted by setting the gain adjustment dip switch. DIN rail installation
1	323005	Power supply System power supply unit able to supply power on the data communication cable and simultaneously provide impedance matching for the audio channel. Protected against short circuits: in case of DC output short circuit, the device will switch to protected mode. Once the problem has been resolved, it will return to normal status automatically. Can also be set up to operate as an auxiliary power supply. Wall-mounting
6	323007	2-way video splitter Device splits the BUS signal into two channels where the video signal can only be transferred from input to output. Provides compensation to the two channels separately and adapts the video signal output from the street panel for different distances via settings. Mainly used in riser systems to divide the riser. BUS into several channels to adapt the cabling. DIN rail installation

Pack	Item	System accessories (continued)
6	323008	Basic apartment interface Device must be used in apartments with 2 or 3 internal units. Interface must be installed between the floor shunt (Item 323002) and the internal units. DIN rail installation
4	323009	Apartment interface Device used to expand the number of internal units and add a small street panel. Each device can connect 5 internal units and 1 street panel, providing the intercom function and call or monitor function of the street panel. DIN rail installation
2	323011	D45/IP interface IP interface which can be connected to the D45 SYSTEM and BTicino 2-wire/IP System in order to create mixed installations. DIN rail installation

Pack	Item	System accessories (continued)
	323015	Door lock accessory Operates electric door locks, particularly the commonly used 12 V cathode locks. When the opening current of an anode lock is over 1 A, this device is also required to operate anode locks. It is generally connected to the street panel to obtain the door lock release control signal. Possible to open door locks by means of external manual switches. Selection of the type of electric door lock release via the jumper configuration line. DIN rail installation

Pack	Item	System accessories (continued)
4	323017	Lift control interface For integrating the D45 system with the elevator system. Possibility to manage the elevator directly from the internal unit
4	323019	System expansion interface Extends the riser system when the number of internal units installed on the riser exceeds the limit of 400. The interface can increase this limit to 800 handsets. This device is also used to adjust the video gains and improve video transmission quality. DIN rail installation
1	323020	Configuration tool Configuration kit consisting of: - SF2 configuration software - Tool interface - Serial extension cable - Flat cable
4	323023	Small entrance panel video mixer Interface for the installation of several small entrance panels for each internal unit or for each apartment. Permits to install 4 small entrance panels. By using more than one accessory in series, it's possible to install more than 4 entrance panels
1	346858	D45 to BTicino 2-wire interface Switch-over interface to install the BTicino 2-wire door entry system inside the apartment. DIN rail installation
