Introducing Excel Life Smart - a collection of smart wiring devices second to none. Combining local design and engineering with world-class smart home technology by Netatmo, this collection of switches and powerpoints blends seamlessly with existing Excel Life installations with the added convenience of full home control using a wall switch, smart phone or voice via a digital assistant.

Enjoy convenience, security and greater energy efficiency without the need to replace existing lighting or appliances.

Smarter than your average switch!

# FAST & SAFE POWERPOINTS TO INSTALL

# METICULOUSLY ENGINEERED POWERPOINTS

We've taken the time to look at single and double powerpoints to make them fast and safe to install. Featuring funnel shaped terminals and super-hard deep screw heads, these powerpoints will withstand the force of any drill.

# INNOVATIONS ACROSS THE SINGLE AND DOUBLE POWERPOINTS

# **Guided Cable Terminals**

Raised Insulation Barriers

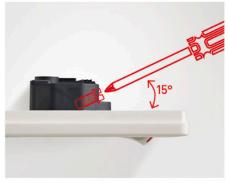

Carburised Steel Screws

# Captive Screws

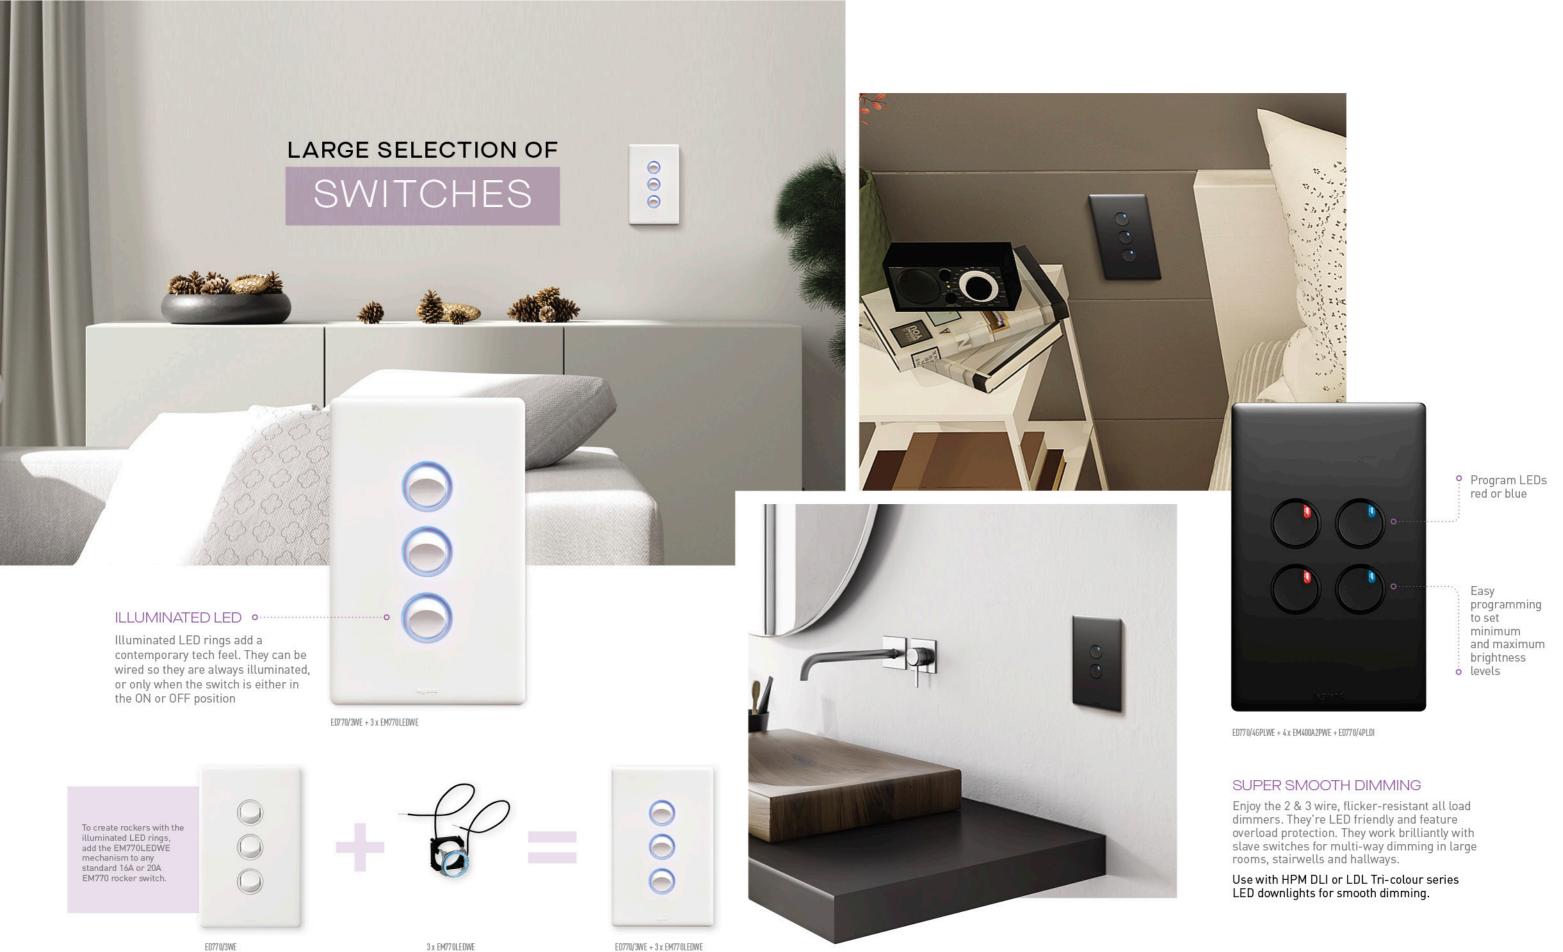

Ergonomically Angled Screws

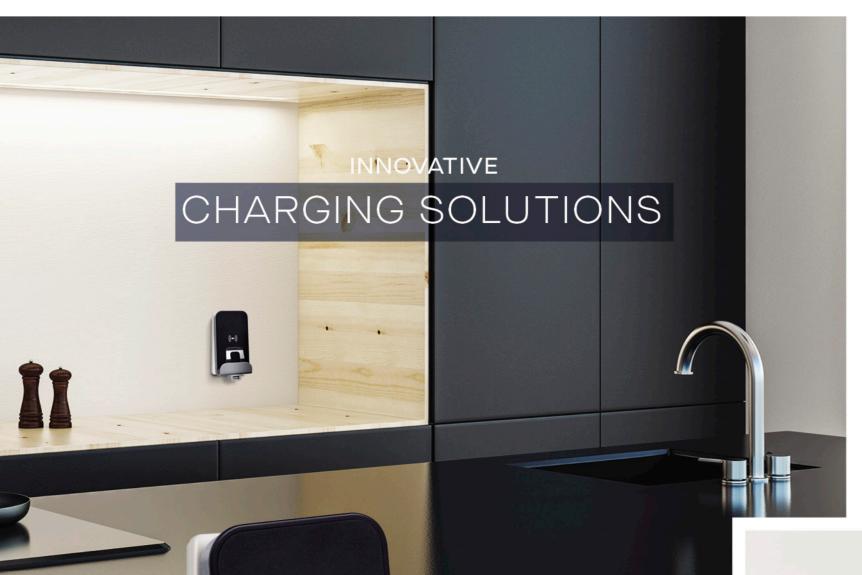

EXCEL LIFE 11

# **FASTEST USB POWERPOINTS**

In this modern world, speed counts. Our USB powerpoints super charge at  $2 \times 2.4A$ , the fastest on the market! They have been designed to charge devices at their maximum speed including the latest products.

ED777USB2ACWE

# FUTURE-PROOF YOUR CHARGING

Our Hybrid Type A+C charger allows the use of Type-A USB charging which is currently the standard. It also includes a Type-C port for newer electronics such as Apple & Samsung devices

ED770/3GPLWE + 3 x EMUSB2PSAWE

# MAKE A MEGA USB CHARGING STATION

Add to kitchen pantries, nooks and studies for a tidier charging solution

FD777USB2IWE

# **EASY RETROFIT**

This double powerpoint with Integrated USB makes wall boxes and masonry applications a breeze. Available in dual Type A or Type A+C

EDWCWEMS

# CHARGE WITHOUT CORDS

Convenient charging without the hassle of cords. Simply place your device\* on the cradle to charge the battery

\*Qi compatible devices only.
For full list of compatible devices visit
www.wirelesspowerconsortium.com

# MOVING TOWARD USB-C

USB Type-C has been adopted by all the major tech companies. Boasting faster charging and ease of use, USB-C is compatible with all the latest devices including iPad Pro, iPad 8G, iPhone 12 and MacBook Pro.

Excel Life with Netatmo Gateway and starter kit

MUST BE ORDERED FOR ANY CONNECTED INSTALLATION

Connected products

412181

EWN770/1WE

EWN770/2MB EWN770/3MW

Used to control your home remotely (lighting and electrical appliances) using a smartphone via the Home + Control App and/or voice control (via a voice assistant). Must be ordered for any connected installation. The individual connected products can be added to the gateway or starter kit. 2.4GHz Wi-Fi connection required.

Used to complete your connected installation, requires prior installation of a gateway or starter kit.

|      |         | • •   |
|------|---------|---|
| Pack | Cat No. | Wireless switch module ON/OFF   |
| 1    | 067694  | Allows to transform a mechanical 2-way switch into a wireless on/off switch.  Small size for easy integration into the wall box To be paired with one connected switch, micro-module, socket outlet Supplied with CR2032 3V long-life battery for powersupply |
|      |         | Smart micromodule   |
| 1    | 574243  | Used to provide connected lighting 300W, with neutral Can be controlled by home + control app, smart auxiliary switch, momentary switches or wireless switches To be installed close to the lighting load Zigbee 2.4GHz to 2.4835GHz                          |
|      |         |   |

| Pack | Cat No. | Motion sensor  |  |  |  |
|------|---------|--|--|--|--|
| 1    | 574252  | Allows to control up to 20 wired switches, micromodules and socket outlets Easy pairing by tapping the wired products Supplied with 2 x AA battery For indoor and outdoor use Recommended distance between 2 sensors: 6 m Recommended installation height: 2.5 m Time delay adjustable from 1 to 30 min Range: 8 m Detection angle: 140° Sensor range adjustable from 2 m to 8 m Light level threshold adjustable from 1 to 1000 lux |  |  |  |
|      |         | Energy module for <b>□</b> rail mounting   |  |  |  |
| 1    | 412015  | Measures the instantaneous and cumulative global electrical consumption of a single phase installation (63A maxi) Sends a notification in case of reaching a configurable limit in the Home + Control App. Delivered with 1 coil 1 module  |  |  |  |

### Connected curtain/roller blind micromodule

For local and remote control of a 230 V \square roller blind (raise/lower/stop functions and level management) Compatible with roller blinds with mechanical or electronic stop, not compatible with radio-controlled roller blinds. Can be paired with one or more roller blind wireless switches. To be installed in the ceiling box or roller blind box to connect a new or existing roller blind.

# POWERPLAN & EXCEL LIFE

**POWERPLAN** has been designed to simplify electrical consultations by creating visual floor plans which can be edited in seconds. Created with the builder in mind, it allows consultants to quickly and easily develop an electrical plan prior and during the customer's appointment, allowing for up-sell opportunities.

- Design electrical plans quickly and easily
- Import and print high quality floor plans
- Directly comment on floor plans
- Manage pricing files
- Add and filter your product database through product categories
- Generate accurate quote in seconds
- User friendly visual tool
- Reliable and secure web application

Red catalogue number: new product

The Excel Life Medical range features antimicrobial technology to help reduce the spread of bacteria in hospitals and other health care environments, leading to enhanced patient care. From colour-coded powerpoints, to power indicators and heavy-duty panels, Excel Life Medical gives you the power to fit-off every detail required for hospitals, laboratories, surgeries, clinics and more.

Touch Switch A simple wave will activate or deactivate See page 45

EC787CABE

# THE ANTIMICROBIAL ADVANTAGE

The antimicrobial advantage in the Excel Life Medical range stems from the material construction based on silver ions - widely recognised as having antimicrobial properties that contribute to the reduction of undesired microorganisms.

The Excel Life Medical range has been tested by an independent TGA accredited laboratory to JIS Z 2801:2010 and proven to be an effective antibacterial agent.

The results demonstrated a kill rate against Escherichia coli and Staphylococcus aureus between 99.72% and 99.9999%. Look for products with the antimicrobial symbol.

### Using X Rating

Excel Life series switches marked with an 'X' are suitable for fluorescent installations up to the switch rating.

Minimum load = 0W for all load types

# LED Indicator

- The colour of the LED indicator can be either red or blue. In addition, when the switch is off the LED indicator can either glow faintly or be off completely. The four possible modes are as follows:
- To change between modes, press and hold the push-button for at least 10 seconds. This will select the next mode in the sequence above.

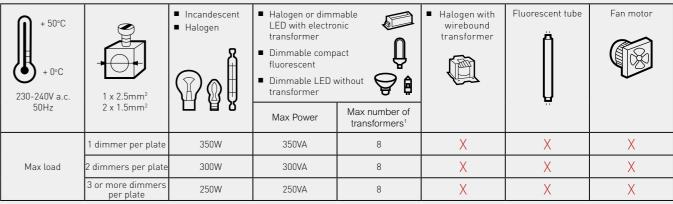

| MODE | STATUS OF LED INDICATOR |            |  |  |  |  |
|------|-------------------------|------------|--|--|--|--|
|      | SWITCH ON               | SWITCH OFF |  |  |  |  |
| 1    | Bright Red              | Faint Red  |  |  |  |  |
| 2    | Bright Blue             | Faint Blue |  |  |  |  |
| 3    | Bright Red              | Off        |  |  |  |  |
| 4    | Bright Blue             | Off        |  |  |  |  |

# Electronic push-button dimmers and time-delay switches

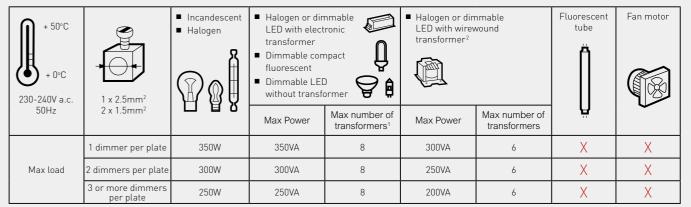

### Electronic push-button dimmer EM400A2P Technical characteristics

Minimum load = 5W for all load types. Not compatible will all dimmable LEDs. Should be bench tested prior to installation

- 1. In the case of dimmable compact florescent or dimmable LED without transformer, this is the maximum number of lamps.
- 2. Where both max power and max number of transformers/lamps are specified, both conditions must be satisfied.
- 3. When used in ambient temperatures greater than 25°C, the dimmer must be de-rated by 10% for every increase of 5°C.

### Electronic push-button dimmer EM400A3P Technical characteristics

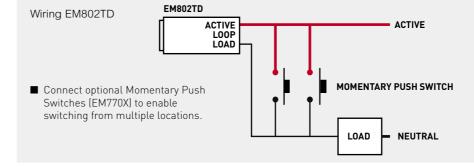

Minimum load = 5W for all load types. Not compatible will all dimmable LEDs. Should be bench tested prior to installation

### Electronic push-button time delay EM802TD/EM803TD Technical characteristics

| + 50°C<br>+ 0°C<br>230-240V a.c.<br>50Hz<br>1 x 2.5<br>2 x 1.5 |       | Halogen | Fluorescent<br>tube | Wirewound transformer | Electronic transformer | Compact fluorescent | LED   | Fan motor |
|--|-------|---------|---------------------|-----------------------|------------------------|---------------------|-------|-----------|
| Max load (802TD)   | 400W  | 400W    | 400VA*              | Χ                     | 400VA                  | 400VA               | 400VA | Χ         |
| Max load (803TD)   | 1200W | 1200W   | 500VA               | 500VA                 | 500VA                  | 500VA               | 500VA | 500VA     |

Minimum load = 10VA for all load types. \* Electronic ballast only

An unlimited number of EM770XWE can be connected to an EM802TD. However, the total length of the load wire used to interconnect all of the EM770XWE should not exceed 50 metres.

For other technical details please refer to the installation

Load compatibility disclaimer: Although significant efforts have been made to ensure Dimmers are compatible with a large variety of drivers (CFL, LEDs), it is not possible to guarantee 100%

Minimum load = 10VA for all load types

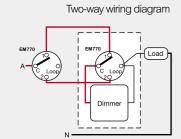

NOTE 1: Not compatible with all dimmable LEDs. Should be bench tested prior to installation.

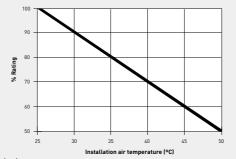

NOTE 2: Compact Fluorescent Lamps (CFLs) and LCDs, also known as Energy Saving Lamps, can only be dimmed if they are specifically marked as "dimmable". Dimmable CFLs may have different characteristics from brand to brand, and so each brand may require a specific type of dimmer to operate correctly. Using the incorrect dimmer may cause the CFL to flicker. Please read the documentation that comes with each CFL carefully to ensure that the CFL and dimmer are compatible. For more information, please contact HPM Legrand. In some cases, the dimmable CFL may turn off or flicker when dimmed to a very low brightness. This can be overcome by ensuring that the dimmer brightness is not set too low. See "Setting minimum brightness" for instructions on how to achieve this.

# Wiring for rotary dimmers

### One-way wiring diagram

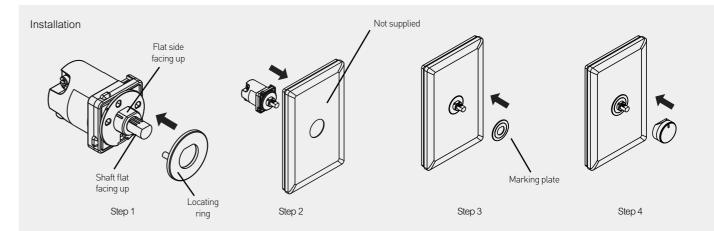

When used in ambient temperatures greater than 25°C, the dimmer must be de-rated according to the following chart.

# Rotary switch - EMRSWE/UG/BL

- ++ = In this mode the LED indicator will be ON whenever there is power available to the product.
- \*\* = In this mode the LED indicator will only be ON whenever the associated switch/socket is OFF.

  The current required to light the indicator when the switch is ON will be bled through the load.

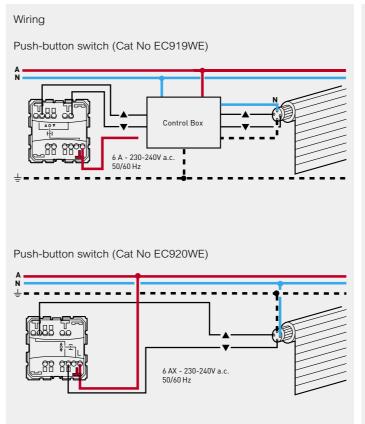

'~' = Power available (Amber)

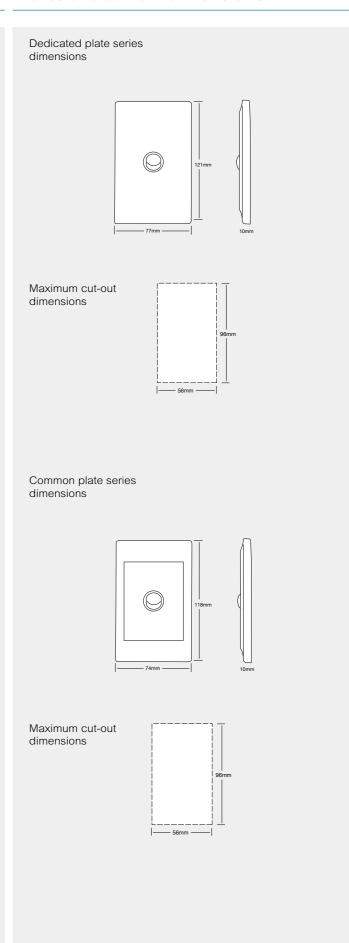

O ' = Power supplied (Red)
