LIVING now

Forever an icon,
today smart as well.

Living Now is the new Living generation. A timeless icon which combines the linearity of a unique design with the simplicity of smart technology. All this without changing wiring procedures because Living Now is installed in the traditional way, guaranteeing a perfect installation.

- **Innovative design:** revisited relationship between cover plate and functions.
- **Smart:** the first intrinsically connected wiring devices range!
- The best technical solutions for a **perfect installation.**

App
Home + Control

FULL TOUCH CONTROLS
The light can be switched on or off by pressing any point the keys surface. After being pressed, the keys return to their original position, perfectly aligned.

MORE SPACE FOR FUNCTIONS
Unique shape with increased space for functions

Living Now has won the Good Design Award for product design in consumer electronics.

Living Now, has won this prestigious international award confirming BTicino's ability to combine technology and design

NEW DIGITAL CONTROLS WITH LIVING NOW FINISH

Living Now series digital controls are now part of the MyHOME automation range. A mix of incomparable innovation and simplicity, ready to be discovered, heard and touched.

DEVICE FINISHES

WHITE

BLACK

2 COLOUR OPTIONS

Each device features an aesthetic component, its covers which are available in two colours: white and black, each featuring a pleasant satin finish.

COVER PLATES

The Living Now cover plate range includes 12 finishes, made from a range of designer materials including techno polymer metal and wood.

MYHOME DIGITAL CONTROLS

MyHOME digital controls do not require the use of cover plates and are available in white and black.

COVER PLATE FINISHES

ICE cover plate
Material: techno polymer
Code: ...DW

The zamak and wood finishes are obtained using sustainable production procedures. Each coverplate is unique and features distinguishable features making them one-of-a-kind.

GOLD cover plate
Material: zamak
Code: ...ZW

MOON COVER PLATE
Material: zamak
Code: ...NW

SKY cover plate
Material: techno polymer
Code: ...DA

PIXEL cover plate
Material: techno polymer
- pixel effect
Code: ...MW

OAK cover plate
Material: wood
Code: ...LM

COVER PLATE FINISHES

STEEL cover plate
Material: zamak
Code: ...ZG

The zamak and wood finishes are obtained using sustainable production procedures. Each coverplate is unique and features distinguishable features making them one-of-a-kind.

BLACK cover plate

THE RIGHT SOLUTION FOR ALL NEEDS

SMART ELECTRICAL SYSTEM

Living Now ^{WITH} Netatmo

App HOME + CONTROL

INSTALLATION WITH TRADITIONAL WIRING

Install a traditional electrical system and enjoy SMART functions by connecting it to a home Wi-Fi network. Use the HOME + CONTROL App on a smart device to control lights, small appliances and shutters and more.

FUNCTIONS

- Lights
- Shutters
- Sockets
- Temperature control
- Scenario control
- Consumption display
- Load shedding control
- Planning programmed

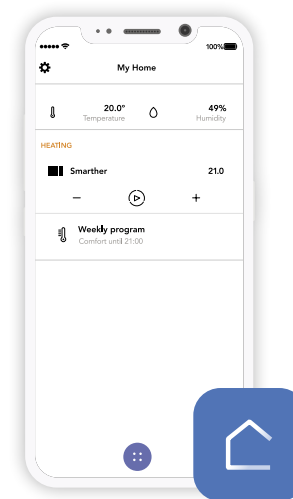

CHOOSE HOW TO CONTROL IT

LIVING
now

HOME AUTOMATION SYSTEM

Living Now MyHOME

App HOME + CONTROL

INSTALLATION WITH BUS

Create a BUS integrated system manageable from the Home+Control App, using voice or the Touch Screen controls.

FUNCTIONS

- Lights
- Shutters
- Sockets
- Temperature control
- Scenario control
- Consumption display
- Load shedding control
- Burglar alarm
- Video door entry system
- Integration with other brand.

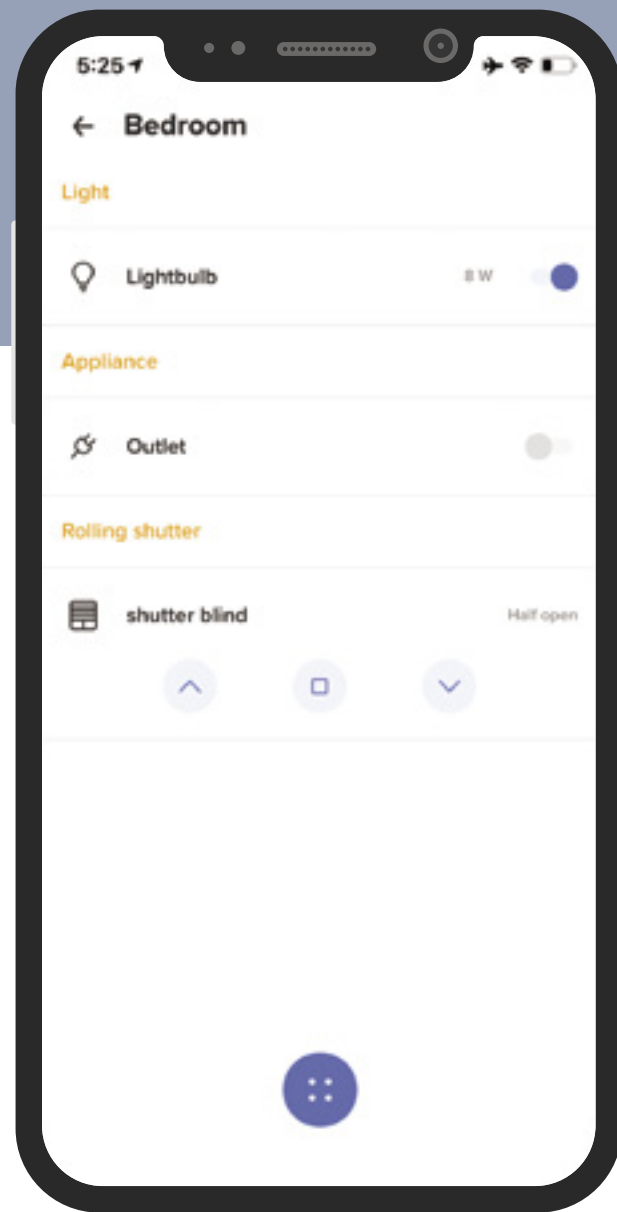

CHOOSE HOW TO CONTROL IT

SMART ELECTRICAL SYSTEM

Check in on your home just like you would for your emails or bank account. Enjoy the convenience of complete home control right at your finger tips.

App
HOME + CONTROL

GENERAL CONTROL

With one single click, a general control will allow you to switch off lights and lower all the shutters when you leave home, or activate your favourite scenario.

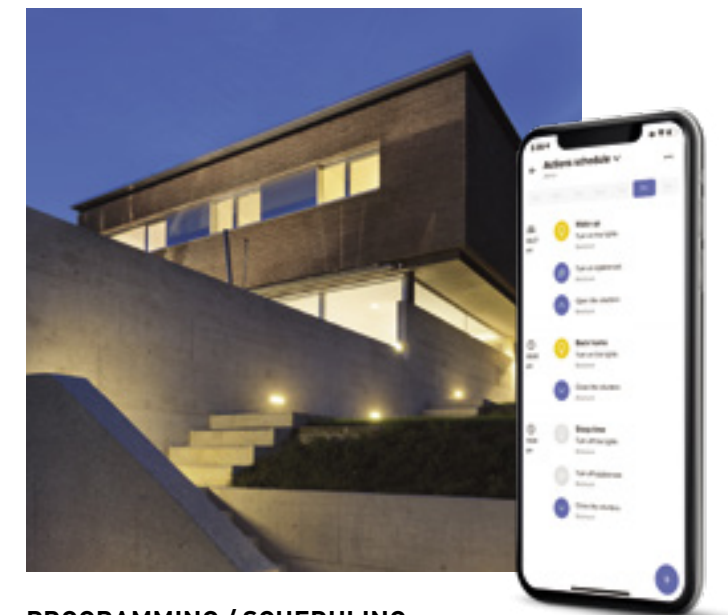

CONTROL WITH SMARTPHONE

From your smartphone, you will be able to view and check the status of lights, shutters and connected power sockets from anywhere.

VOICE COMMAND

Control your system using your voice via your preferred digital assistant.

PROGRAMMING / SCHEDULING

Program the activation of lights, shutters and loads connected to sockets based on your needs. Appliances:

- automatically switch on the garden lights at sunset and switch them off at sunrise;
- switch on a selection of lights and activate shutters to give the impression you are home while away on holidays.

Smart electrical system

TEMPERATURE MANAGEMENT

Remotely check and manage the temperature inside your home using your smartphone via the connected thermostat Smarter with Netatmo.

LOAD SHEDDING TO AVOID BLACKOUTS

In overload conditions, the system automatically disconnects the least important load to avoid tripping circuit breakers (blackout).

ENERGY CONSUMPTION CONTROL

Use your smartphone to check electricity consumption of your appliances (daily, monthly and yearly).

LIGHTING AT THE DESIRED LEVEL

Adjust the light level for optimum personal comfort. You can do that from the connected Dimmer, the associated wireless controls and Smartphone, using the Home+Control App.

WIRELESS CONTROL

Add wireless controls (lights, shutters and sockets), or reposition them at any time depending on your needs.

ALARM NOTIFICATIONS

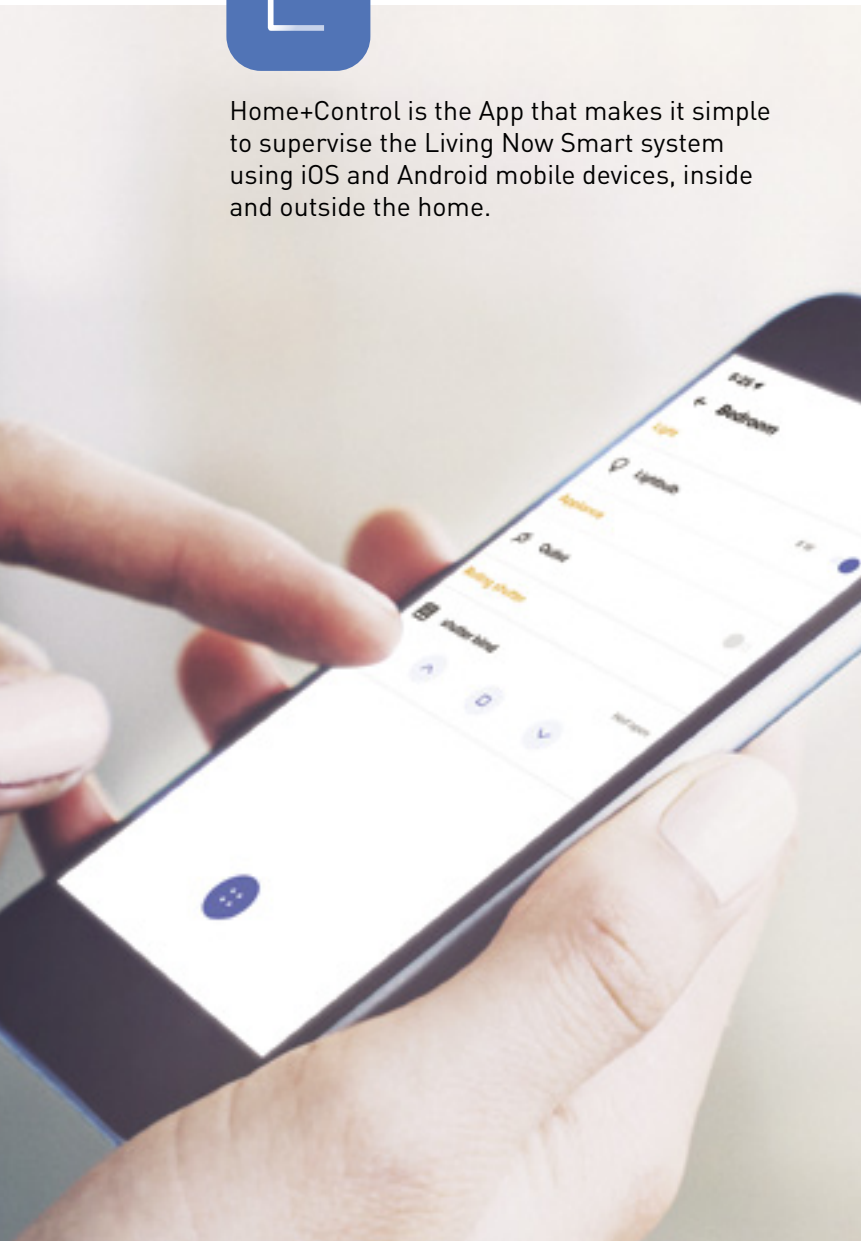

Receive warning notifications on your smartphone.

HOME + CONTROL

One single App, many connected advantages

Home+Control is the App that makes it simple to supervise the Living Now Smart system using iOS and Android mobile devices, inside and outside the home.

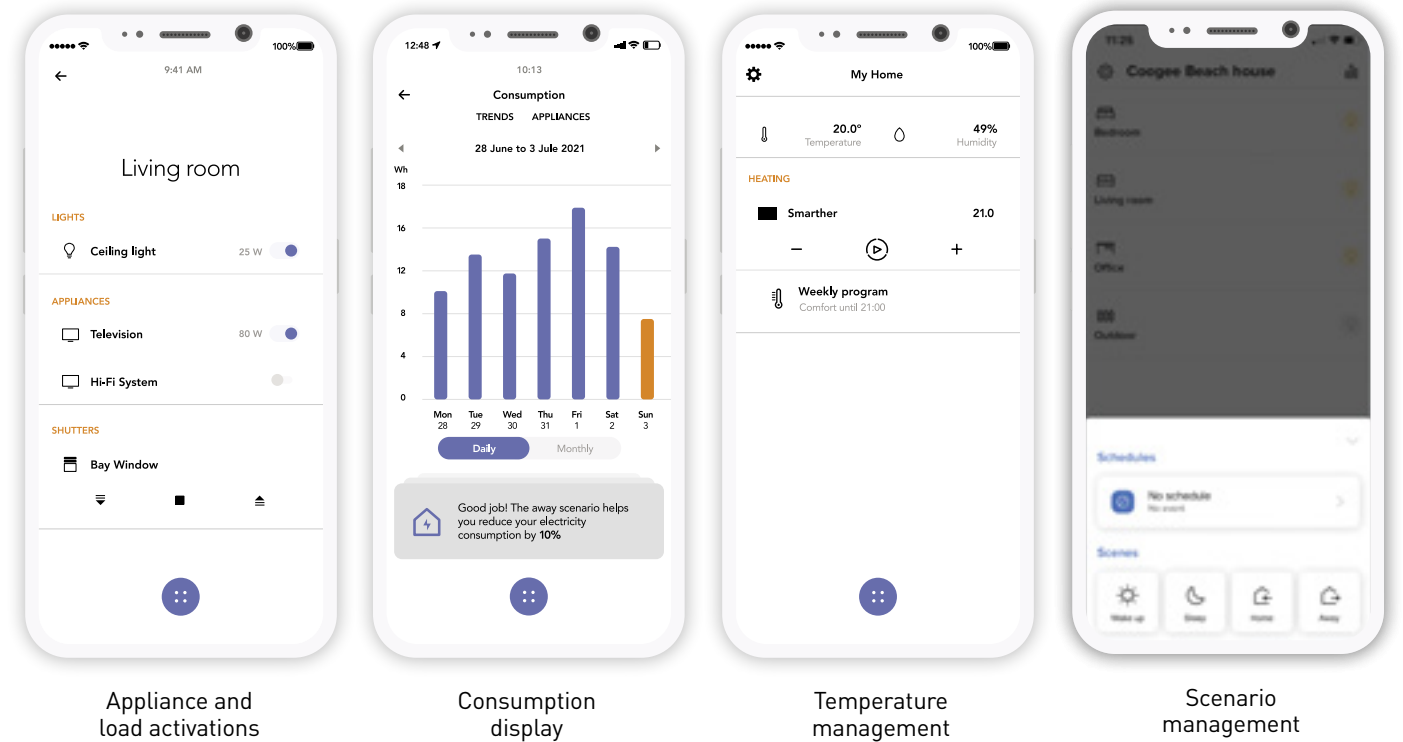

WHAT YOUR CUSTOMER CAN DO:

1. Activate and customise **8 scenarios** (4 preconfigured scenarios, coming in, going out, day, night and 4 scenarios customisable by the user);
2. **Display and check the status of lights, shutters, loads connected to sockets and the room temperature;**
3. **Use the Smarter timer thermostat** simply and intuitively;
4. **Check the total home consumptions.**
5. **Receive notifications** on the load and system status;
6. **Define the load priority** for black-out prevention.

HOME + CONTROL CONFIGURATION IS EASY, BOTH FOR YOU AND YOUR CUSTOMER.

Simply download the App from the Apple or Google store, and follow the guided instructions.

Appliance and load activations

Consumption display

Temperature management

Scenario management

YOUR CUSTOMERS CAN ALSO MANAGE THEIR HOME WITH THEIR VOICE

With Living Now with Netatmo, your customer will be able to control the system using Apple, Google and Amazon voice assistants. An extremely useful feature, also great for those with mobility problems.

"OK Google, set Kitchen light to 100%"

"SIRI, switch the bedroom light on",
 "OK Google, switch all the home lights off",
 "ALEXA, set temperature to 20 degrees".

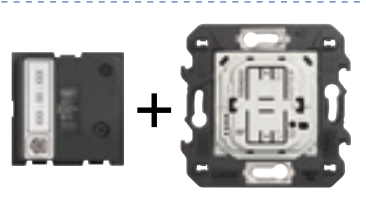

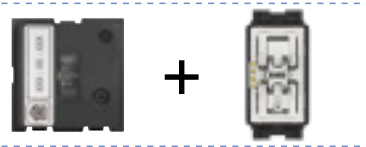

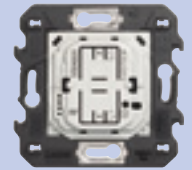

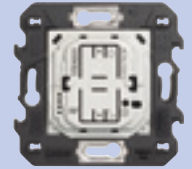

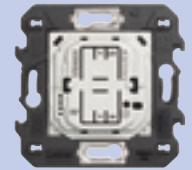

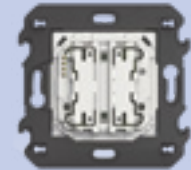

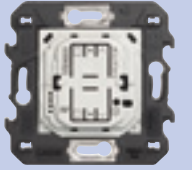

The Gateway connects the system to the Internet via the Home Wi-Fi network.

Note: HomePod, Google Home and Amazon Echo are available from Apple store, Google Store, Amazon, or from authorised retailers.

Note: HomeKit is a registered trade mark which is the property of Apple Inc. Google Home is a registered trade mark which is the property of Google LLC, Amazon Alexa is a registered trade mark which is the property of Amazon.com, Inc.

Smart electrical system: a simple, rational range of connected devices, both wired and wireless.

See catalogue for detailed descriptions, availability and full range of products.

INSTALLED JUST LIKE A TRADITIONAL ELECTRICAL SYSTEM

1. DEVICES ARE INSTALLED AND WIRED LIKE TRADITIONAL DEVICES

In lieu of a traditional device, install the connected device of the corresponding type: one for each control point. Remember that the device must always be powered; therefore, ensure that the phase and neutral cables are present. Once installed, the connected control is operational straight away; you will therefore be able to switch the connected light on without the need to do anything further.

EXAMPLE OF A MULTI-WAY SWITCHING LIGHT POINT

2. DEVICES CAN BE ASSOCIATED TO EACH OTHER BY SIMPLY PRESSING A PUSHBUTTON

A. Power the electrical system

B. Simultaneously press both buttons (Home icons) on the wireless master switch for 5 seconds

C. Devices are associated automatically. You can use the scenario control to activate the going out feature

3. DOWNLOAD THE HOME+CONTROL APP AND FOLLOW THE SETUP ASSISTANT

App Home + Control

+ THE SYSTEM MAY BE EXPANDED WITH WIRELESS SWITCHES ASSOCIATED TO THE DEVICES BEING CONTROLLED

A. Simultaneously press both buttons (Home icons) on the wireless master switch for 5 seconds

B. Place the devices to be associated in contact

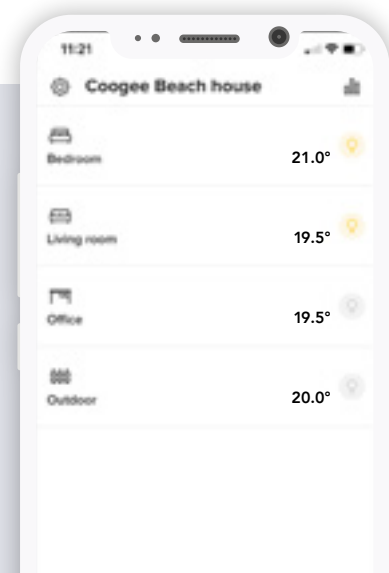

C. Install the wireless switch anywhere, based on the needs of your customer

The **new** connected thermostat Smarter

WITH
Netatmo

WITH THE APP IT'S ALL EASIER

- Remotely manage the thermostat simply and intuitively
- Create and modify weekly programs
- Manage the thermostat from several smartphones and different users
- Control several thermostats in the same home or different homes
- Manage the thermostat updates
- Combine the voice command with your favorite voice assistant (Amazon Alexa, Apple Home Kit or Google Home)

What can you do with the BTicino connected thermostat?

SETTING THE PROGRAMS

Using the Home + Control App, it is possible to set preset programs based on habits

AWAY

If you need to be away from home for a few days you can, via the APP, act remotely to adjust the thermostat (e.g. in antifrost mode) independent of the automatic programming.

BOOST

The Boost function can be used to activate the heating or cooling system for a limited time (30, 60 or 90 minutes), irrespective of the set program and the ambient temperature.

MONITORING CONSUMPTIONS

Using the Home + Control App, it is possible to easily manage and monitor consumptions.

MAXIMUM COMFORT IN EVERY ZONE

Using the same App, it is possible to manage several thermostats in the same home or in different homes.

The connected thermostat is simple and intuitive

Display the temperature and set it as desired

Display the set room temperature and humidity

Activate the Boost function

MyHOME INSTALL A BUS AUTOMATION SYSTEM

Classe300EOS with Netatmo

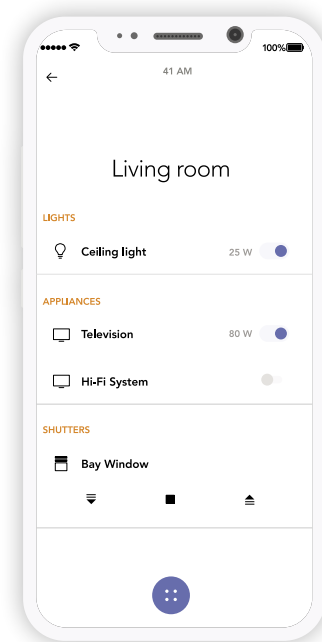

Third-party products and devices

Indoor and outdoor Netatmo cameras

The range of home automation devices is completed by two innovative Living Now digital controls offering innovative control of your system:

- voice control with built-in Amazon Alexa voice assistant
- Light and Full digital controls.

App Home+Control

EVERYTHING UNDER CONTROL

Thanks to MyHOME, end users can manage their homes in full freedom: using Living Now manual controls, Touch Screen devices and Smartphones with the Home+Control App.

MyHOME system can be managed by voice through the Voice Control Alexa built-in and also with the Amazon and Google vocal assistants

VOICE CONTROLS

Control the MyHOME functions with your voice

With BTicino devices

CLASSE 300EOS WITH NETATMO: THE FIRST VIDEO INTERNAL UNIT WITH BUILT-IN ALEXA

Enjoy the full Alexa experience interacting with all its functions, such as: Custom routines - Play Music - Smart Home - To set the clock alarms - Memos and video door entry functions. Also compatible with HOMEKIT.

VOICE CONTROL WITH BUILT-IN AMAZON ALEXA VOICE ASSISTANT

Innovative device without cover plate with built-in Amazon Alexa voice assistant for flush mounted installation. Ideal for installing in each room of the home a voice control for the management of MyHOME.

Or with Google and Amazon voice assistants

Thanks to the integration of MyHOME with the Google Home and Amazon Alexa voice assistants you can now control the lights and controlled sockets and, using the scenarios, the shutters, burglar alarm, ideal temperature and the music played by the system using your voice as well.

An important functionality which improves the comfort and usability MyHOME, especially by old people or long-stay patients who cannot interact with the manual controls.

As well as asking for information on the news, weather, times etc. you will be able to interact with the MyHOME system by using voice controls of the following type:

- "Ok Google, switch off all the lights"
- "Alexa, raise the living room shutters"
- "Alexa, welcome me home".

YOU ASK, ALEXA ANSWERS.
Use your voice to activate home automation functions in your home: lights, shutters, scenarios, favourite music, or ask for any other information.

Note: with the "Welcome me home" scenario, it is possible to activate lights and shutters and disable the burglar alarm.

Note: with the "Relax" scenario, it is possible to activate lights and shutters, set a comfort temperature and listen to the preferred music through the NUVO multi-room system.

A NEW WAY TO TOUCH HOME AUTOMATION

LIGHT CONTROLS AND FULL CONTROLS: A MULTISENSORIAL EXPERIENCE

- New touch controls without cover plate
- Customised icons and LEDs using the app Digital Controls
- Light and Full controls expandable to new functions

App Digital Controls

CREATE CUSTOMISABLE FUNCTIONS

The function associated to the control device and the corresponding icon can be changed at any moment, using the app Digital Controls.

FUNCTION MODIFICATION

From dimmer control

To shutter control

FUNCTION EXTENSION

From the control of one light

To the control of two lights

LIGHT CONTROL
To manage the lighting
(1 or 2 lights, group and general)

CHOOSE BETWEEN FULL AND LIGHT CONTROLS

Digital controls for every need.
Two versions, endless customisation to be adapted to any lifestyle.

FULL CONTROL
From 1 to 3 lights, dimmer, roller shutters, nuvo audio, load controls and scenarios.

EXTEND THE CONTROL

Expand the system by adding new control devices with a new frame. Without wiring.

MOVE THE POSITION

With a simple operation, its possible to change the position of a control device while maintaining its function without wiring.

FROM THE LIVING ROOM

TO THE BEDROOM

INSTALLATION OF DIGITAL CONTROLS

FUNCTIONAL ELEMENTS

INSTALLATION

With reference to the illustration, digital devices are installed using traditional mounting accessory and support, using an appropriate "frame" with 27 V d.c. control device power supply contacts.

The Module for connection to the BUS system is installed on the support frame Cat no. K4703AU which has been designed to fit 10mm thick minimum plasterboard walls.

This support frame is compatible with most of stud brackets, render brackets or wall boxes used on Australian and New Zealand markets. If a C-clip is required, only use Cat no. CC503.

* Stud bracket "opening window" should be minimum 74x55mm. To allow perfect fitting of K4703AU grids, installer will have to trim plasterboard around mounting holes

AESTHETIC ELEMENTS

INSTALLATION OF VOICE CONTROL

This operation is completed in a similar way as the installation of digital controls, but it requires the removal of the two vertical finishing elements from the frame.

INSTALLATION PRINCIPLES

FUNCTIONAL ELEMENTS

STANDARD INSTALLATION

In both cases of **traditional** and **connected devices**, installation is business as usual, with the following characteristics:

- Traditional wiring.
- 3 Module support frame (Cat no K4703AU), Single and Double powerpoints have been designed to fit 10mm thick minimum plasterboard walls: They are compatible with most of stud brackets, render brackets or wall boxes used on Australian and New Zealand markets. If a C-clip is required, only use Cat no. CC503.
- 4 and 6 Module support frames: use dedicated wall mounting boxes, refer to p.58.

* Stud bracket "opening window" should be minimum 74x55mm. To allow perfect fitting of K4703AU grids, installer will have to trim plasterboard around mounting holes

AESTHETIC ELEMENTS

SITE ACTIVITY SEQUENCE

- Install the system, fully working, but without aesthetic elements (cover plates and key covers)
- Protect the light point using the protective shell (supplied with the support)
- After completing all the works (including the painting of the walls), install the cover plates and the key covers

MORE ADVANTAGES

- When repainting the walls in the future, the customer will be able to easily remove the light point aesthetic components, cover plates and key covers, and just as easily replace them on completion of the works
- After a few years the customer decides to change light points?
It is possible to simply change the key covers, without touching the mechanisms

SOLUTIONS FOR AN ALWAYS PERFECT INSTALLATION

FULL TOUCH CONTROL: ERGONOMICS

The entire surface is functional. It can be activated from the top, bottom or centre, ensuring exceptional ergonomics.

FULL TOUCH CONTROL: ELECTRO MECHANICS

1) tested with over 80,000 activations with the load connected; double than the standard requirements. This equals over 40 years of "normal" use.
2) 10AX 250 V, tested up to 700 A peak; also perfect for the new LED light bulbs, which generate significant peak current when switched on.

SELF CENTERING SYSTEM

This patented cover self-centering system ensures that the control covers are always aligned with the other components of the light point, even after extended use.

FLOATING FRAME

It's the flexible floating frame at the back of the cover plate that ensures that the light point perfectly adheres to any wall.

The floating frame gives the possibility of:

- 1) hiding wall defects;
- 2) hiding any irregularity in flush mounted boxes positioning;
- 3) hiding the external collars of plasterboard boxes.

STRONGER SUPPORT

Reinforced frame, thanks to the new geometry and high performance materials.

BETTER PROTECTION

The support has a protective shell, which can be used to protect supports and mechanisms from possible damage during decorating activities, for example when painting the walls.

EXAMPLES OF LED CONNECTION ON A SWITCH

Control backlighting led connection

Note for the connection of 230 V.a.c. LEDs for the backlighting of control devices: when LEDs are fitted to help locate the control itself, it must be taken into account that energy saving and fluorescent lamps do not allow in series connection of the LED on the load. It is therefore necessary to also take a neutral conductor near the control, so that the LED may be connected directly between phase and neutral, and will always be on.

Living Now

MyHOME

Classe 300EOS with Netatmo

Cat. no.
○ 344842

i2 wires/Wi-Fi handsfree connected video internal unit with built-in Amazon Alexa voice assistant, 5" vertical touch screen LCD display and video door entry answering machine. It has a physical key for door lock release and capacitive keys for the control of the main video door entry functions: handsfree communication, entrance panel activation / camera scrolling and Favourite key (can be configured to activate the quick actions most frequently used – e.g. additional door locks, staircase light control, intercom). There are notification LEDs for: Wi-Fi network connection status, info / notifications and call exclusion. It is possible to easily interact with the built-in Alexa voice assistant, either using the dedicated capacitive keys or with your voice, and activate several functions, such as the video door entry functions, Smart Home, scenarios, reminders etc. Using the touch display, it is possible to access the notification list, as well as your favourite door entry, security and Smart Home controls (if any). The device must be configured by physically connecting the configurators or using the menu, which will give better possibilities of customisation of associated functions and texts. Thanks to the Wi-Fi connection, you can associate the video internal unit to the Home + Security App (available for Android and iOS). The App allows to use the main video internal unit functions (receiving calls, door lock release, display of the event timeline and activation of the entrance panel/camera cycling). Through the Home + Security App, it is also possible to manage the products of the Netatmo security range (outdoor and indoor cameras, door and window sensors, indoor siren and smoke detector). This allows you to quickly and easily create a Smart security system. The device also allows to create and manage Smart Home functions using the wired SCS BUS solution, without the need for adding dedicated webserver. Wall mounted installation using the supplied bracket Possibility of Wi-Fi connection or using RJ45 ethernet

Ethernet Accessory
○ 344844
Accessory cable for wired connection of Classe 300EOS with Netatmo video internal unit via RJ45 Ethernet cable. To be purchased separately.

Power supply for Classe300EOS with Netatmo
○ 346020
Additional power supply to be used to supply entrance panels and internal units locally. 2 DIN modular enclosure. Power supply 230 Vac at 50-60 Hz. The output provides 27 Vdc continuous low voltage, with maximum current of 600 mA and it is protected on the PRI side (with fuse) against overload and short circuit. It is a SELV double insulation safety device.

Control server using the app
○ MYHOMESERVER1
Server to associate devices during the system starting-up and for the local and remote management of the functions by the user with the specific Home+Control application for Android and iOS smartphones or tablets.

HOMETOUCH - Touch screen 7"

Cat. no.
○ 067259

HOMETOUCH - Touch Screen 7" for the management of all MyHOME functions, that can be integrated with the video door entry system and with indoor and outdoor Netatmo cameras, to be used as connected internal unit. To use the home automation functions, configuration is not necessary. It is possible to display the MyHOME system status and control the integrated functions (lights, automation, scenarios, burglar alarm, temperature management, Nuvo music system, ...). Thanks to the "DOOR ENTRY for HOMETOUCH" application, available both for Android and iOS operating systems, it is also possible to manage the video door entry functions of a BTicino 2 wires system using the 7" capacitive display or the Smartphone.
Flush mounted installation with box for masonry walls (item 003487) or wall mounted installation with the supplied metal bracket.
Same as above but in White finish

○ 003488

Box for flush mounted installation
○ 003487
Box for flush mounted installation of the HOMETOUCH Touch screen item 067259 or 003488. Width 197 mm, height 148 mm and depth 52 mm.

○ 3487AP
Support for flush mounted installation on plasterboard walls of the HOMETOUCH Touch screen 067259 or 003488.

SCS/DALI interface
○ F429
DALI dimmer, 8 independent outputs with maximum load 16 ballast at 230 Vac, pushbutton for load direct control - 6 DIN modules

Driver manager
○ F459
Integration platform with other brand systems - 6 DIN modules

Contact your Legrand Australian representative to check the feasibility of specific integrations and to request the licence needed to use the Driver manager.

App DOOR ENTRY for HOMETOUCH
This allows the user to manage the video internal unit calls locally and remotely using the smartphone or with a simple touch open the gate, activate the cameras and the video door entry answering machine.

App HOME + CONTROL for management of connected devices

Note: For the details of the products managed by MyHome_Up and the compatible products, see the corresponding guide.

Voice control
□ KW8013
■ KG8013
Amazon Alexa digital control device with voice assistant, including two touch controls for lighting management.
27 Vd.c. power supply from BUS through connection module item KW8001 or additional power supply unit - 3 modules

Light control
□ KW8010
■ KG8010
Touch control for the management of ON/OFF light functions. One single control can manage from 1 to 2 functions between single lights, light groups or general lights.
- 1 module

Full control
□ KW8011
■ KG8011
Touch control for the management from 1 to 3 functions between: lights on/off, load control, dimmer, shutters up/down with or without preset and scenarios. It can also be used as group or general control. It has on-board proximity sensor that allows the display of function icons/symbols when approaching the control - 1 module

Connection modules
○ K8001
Device for the power supply of controls and actuators through BUS frame item KW/ KG8103, KW/KG8103P1, KW/KG8104, KW/KG8104P1

Blanking module
□ KW8100
■ KG8100
Cover for blanking module art. K4950 - 1 module

Frames for 3 and 4 module grids
□ KW8103
■ KG8103
BUS frame with intermediate control separators (removable). For the installation of up to 3 digital controls or covers, (item KW/KG8100) in 3-module box with support K4703AU

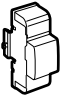

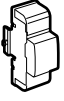

□ KW8103P1
■ KG8103P1
BUS frame with intermediate control separators (removable). For the installation of up to 4 digital controls or covers, (item KW/KG8100) in 3-module box with support K4703AU

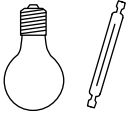

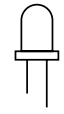

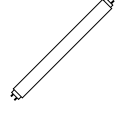

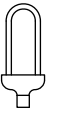

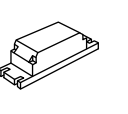

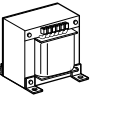

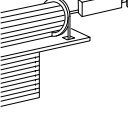

□ KW8104
■ KG8104
BUS frame with intermediate control separators (removable). For the installation of up to 4 digital controls or covers, (item KW/KG8100) in 4-module box with support K4704

□ KW8104P1
■ KG8104P1
BUS frame with intermediate control separators (removable). For the installation of up to 5 digital controls or covers, (item KW/KG8100) in 4-module box with support K4704

| | Energy saving incandescence and halogen lamps | LED lamps | Linear fluorescent lamps ¹⁾ | Compact fluorescent lamps | Electronic transformers ³⁾ | Ferromagnetic transformers ^{2) 3)} | Reducer motors for shutters ⁴⁾ |
| F411U2 | 10 A 1380 W | 250 W Max 4 lamps | 4 A 230 W | 250 W Max 4 lamps | 4 A 230 W | 4 A $\cos\phi$ 0,5 460 VA | 2 A 460 W |
| F411/4 | 2 A 460 W | 70 W Max 2 lamps | 0.3 A 70 W | 70 W Max 2 lamps | 0.3 A 70 W | 2 A $\cos\phi$ 0,5 460 VA | 2 A 460 W |

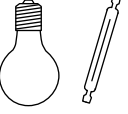

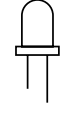

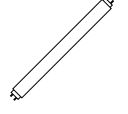

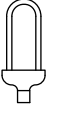

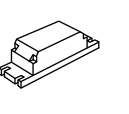

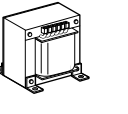

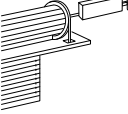

- Notes:**
- 1) Power factor corrected fluorescent lamps, discharge lamps.
 - 2) Account must be taken of the transformer yield to calculate the effective power of the load connected to the actuator. For example if a dimmer is connected to a 100 VA ferromagnetic transformer with yield 0.8, the effective power of the load will be 125 VA.
 - 3) The transformer must be loaded at its rated power and however never less than 90% of this power. It is preferable to use a single transformer rather than several transformers in parallel. For example it is better to use a single 250 VA transformer with 5 50W spotlights connected rather than use 5 50 VA transformers in parallel each with a 50 W spotlight.
 - 4) The  symbol on the actuators refers to the shutter reducer motors.

□ White colour cover ■ Black colour cover ○ Neutral item (without cover)

F413N F429 F418U2

| Cat. no. | Dimmers for centralisations | Multi-load dimmers for centralisations | | |
|----------|---|---|----------|--|
| ○ F413N |  <p>1-output dimmer to supply fluorescent lamps or LED sources with input 1-10 V for single loads up to 2.5 A at 230 Va.c. – type of screw connection - power supply 27 Vd.c. – absorption 30 mA – max 10 ballast that can be connected (clamps 1-2) - with pushbutton for load direct control - version for fastening on DIN rail - 2 modules</p> | <td>○ F418U2</td> <td>  <p>Two-channel dimmer for the management of dimmer LEDs, dimmer compact fluorescent lamps (CFL), energy saving halogen lamps and electronic transformers at 110-230V. Possibility of parallelisation of the two channels to increase the maximum power which can be managed. power supply 27 Vd.c., absorption 18 mA - version for fastening on DIN rail - 4 modules</p> </td> | ○ F418U2 |  <p>Two-channel dimmer for the management of dimmer LEDs, dimmer compact fluorescent lamps (CFL), energy saving halogen lamps and electronic transformers at 110-230V. Possibility of parallelisation of the two channels to increase the maximum power which can be managed. power supply 27 Vd.c., absorption 18 mA - version for fastening on DIN rail - 4 modules</p> |
| ○ F429 |  <p>DALI dimmer with 8 independent outputs for the connection of up to 16 DALI reactors for each output – 230 V a.c. power supply 50/60 Hz; 110 - 240 Vd.c. – absorption 5 mA - with pushbutton for load direct control - version for fastening on DIN rail - 6 modules</p> | | | |

| LOAD COMPATIBILITY (230 V~ 50/60 HZ) | | | | | | | |

- Notes:**
- 1) Power factor corrected fluorescent lamps, discharge lamps. 2) Account must be taken of the transformer yield to calculate the effective power of the load connected to the actuator. For example if a dimmer is connected to a 100 VA ferromagnetic transformer with yield 0.8, the effective power of the load will be 125 VA.
 - 3) The transformer must be loaded at its rated power and however never less than 90% of this power. It is preferable to use a single transformer rather than several transformers in parallel. For example it is better to use a single 250 VA transformer with 5 50W spotlights connected rather than use 5 50 VA transformers in parallel each with a 50 W spotlight.
 - 4) The  symbol on the actuators refers to the shutter reducer motors.
 - 5) Only compatible with lamps with 1/10 V ballast.

□ White colour cover ■ Black colour cover ○ Neutral item (without cover)

KW4691 KG4691

Devices to be completed with appropriate cover as indicated below

| Cat. no. | Thermostat |
|---|--|
| <input type="checkbox"/> KW4691 <input checked="" type="checkbox"/> KG4691 | Probe with backlit display that controls the temperature of an individual zone. It features an input for the connection of a contact line (e.g. window contact). It can be used for the management of different types of systems, and the adjustment of the fan speed when fan coils are used. Possibility of automatic operation (summer/winter), with compatible systems - 2 modules White Black |

F430/2 F430R8 F430V10

| Cat. no. | Actuators |
|-------------|--|
| ○ F430/2 | Actuator with 2 independent relays – for single and double loads: 6 A resistive, 2A motor driven valves and pumps - configuration based logic relay interlock - 2 DIN modules |
| ○ F430/4 | Actuator with 4 independent relays - for single, double or mixed loads: 4 A resistive, 1 A motor driven valves, pumps and fan coils - configuration based logic relay interlock - 2 DIN modules |
| ○ F430R8 | Actuator with 8 independent relays for the control of on-off valves, motorised valves (open-close and three points), pumps and fan coils with 2 and 4 tubes - 4A resistive, 1A motor valves, pumps and fan-coils- SCS-bus connection - 4 DIN modules |
| ○ F430R3V10 | Actuator with 3 independent relays and 2 x 0-10 Volts outputs for the control of fan coils with 2 and 4 tubes with proportional 0-10 Volt valves - 4A resistive, 1A fan coil - SCS-BUS connection - 4 DIN modules |
| ○ F430V10 | Actuator with 2 x 0-10 Volt outputs for the control of 0-10 proportional valves - SCS-BUS connection - 2 DIN modules |

F520 3523 F521 F522 F523 3508BUS E49 3515

| Cat. no. | Consumption display |
|----------|---|
| ○ F520 | Meter for the measurement of electricity on a maximum of 3 lines, by connecting 3 toroids to the appropriate inputs. Version for fastening on DIN rail - 1 module. The device is fitted with 1 toroid. |
| ○ 3523 | Additional electricity meter toroid, item F520 and for actuator with sensor, item F522 for the measurement of the earth leakage current. Cable length 400 mm. |
| Cat. no. | Load control management |
| ○ F521 | Central unit for the management and control of the actuators of the load control system, to prevent the risk of detachment of the limiter of the electricity supplier. The central unit manages up to 63 loads, a contract power between 1.5 and 18 kW, and tolerance up to +/- 20%. It integrates an electricity meter for the controlled line. Version for fastening on DIN rail - 1 module. The device is fitted with 1 toroid. |
| ○ F522 | Actuator with integrated current sensor for the measurement of the controlled load consumptions. 1 relay - 10 A for incandescence lamps and 4 A for fluorescent lamps or ferromagnetic transformers, and 500 W for compact fluorescent and LED lamps - Bistable relay with zero crossing for the Automation and/or Load control management functions. Version for fastening on DIN rail - 1 module. Earth leakage control by connecting the additional toroid, item 3523. |
| ○ F523 | 1 relay actuator - for incandescence lamps and 4 A for fluorescent lamps or ferromagnetic transformers, and 500 W for compact fluorescent and LED lamps - bistable relay with zero crossing for the Automation and/or Load control management functions. Version for fastening on DIN rail - 1 module. |

| Cat. no. | Accessories |
|-----------|--|
| ○ 3508BUS | removable clamp for BUS connection - width 3.81 mm |
| ○ 3508U3 | removable clamp 3 poles |

| Cat. no. | Power supplies |
|-------------|---|
| ○ E49 | Compact power supply - input 230 Va.c. - output 27 Vd.c. Maximum current delivered 600 mA - 2 DIN modules. |
| Cat. no. | Connection cables |
| ○ L4669 | Sheathed pair made up of 2 flexible wires with unshielded plaited sheath - insulation 300/500 V - complies with standards CEI 46-5 and CEI 20-20 - coil length 100 metres |
| ○ L4669/500 | as above - in 500 m coils |

Notes:

- The cover plate/cover combinations shown in these pages are purely indicative. Each cover plate can in fact be combined with covers of any colours, as required by the customer (white and black).
- The zamak and wood finishes are obtained using non-mass production procedures. The differences among the various cover plates are therefore a distinguishing valuable element.

Living Now
how to install the covers

LIGHT POINT INSTALLATION

REMOVING KEY COVERS

Key covers are those that move in relation to the light point, to allow the activation of a control (traditional, connected)

REMOVING FIXED COVERS

Fixed covers those are attached to the cover plates, such as for example blanking modules and all non-control devices (e.g. sockets, RJ connectors, TV sockets, USB chargers, etc.)

| 240 V ~ 50/60 Hz | Max. | 400 W | 400 W | 400 VA | 200 VA | 400 VA | 200 VA | 75 W or max. 10 lamps | 75 W or max. 10 lamps |
| | Min. | 3 W | 3 W | 3 VA | 3 VA | 3 VA | 3 VA | 3 W | 3 W |

ELECTRONIC ROOM THERMOSTAT ITEM KW4441-KG4441

1. Backlit display
2. Temperature display
3. Lighting sensor
4. ON / OFF key sets the system (OFF) in anti-frost (7 °C) or heat-protection (35 °C) mode
5. Temperature setting indicator: appears when the temperature is being set
6. ON heating indicator
7. ON cooling indicator
8. Keys for temperature setting
9. OFF thermostat indicator
10. Connection clamps

Wiring diagrams

- System only for heating with clean contact (e.g. boiler activation) or heating and cooling with floor system

- Heating and cooling with different systems

- System only for heating with load to be controlled to the mains voltage (e.g. 230Vac solenoid valve)

Technical features

| | |
|------------------------|-------------------------------|
| Power supply | 110 - 240 V ~, 50/60 Hz |
| Absorption | 2 W max |
| Maximum cable section | 1 x 1.5mm ² |
| Operating temperatures | 5 - 40 °C |
| Setpoint temperature | 5 - 40 °C; increase of 0.5 °C |
| Type of operation | 1BU |
| Pollution index | 2 |
| Rated pulse voltage | 4 kV |
| Contact output | 5(2) A |

Technical features for all devices

Technology: ZigBee certified product, Zigbee 3.0 public profile
 Performance: 200 m range in a free point-to-point field
 Band frequency: from 2.4 to 2.4835 GHz

CONNECTED TWO-WAY SWITCH ITEM K4003C

- 1 - Control pushbutton
- 2 - Setting pushbutton
- 3 - Notification LED
 - red steady: device not in Zigbee network
 - green steady: device in Zigbee network
- 4 - Connection clamps
