FEATURE

ADVANTAGE/BENEFIT

■ Surface mounting plug bases.	Ideal for installation in roof spaces, under floors etc. Easy mounting on timber beams etc.
■ Special 4 pin design provides a power outlet for a regular three pin plug for standard lighting, or the special Cat 34 four pin plug for special lighting.	Versatile.
■ 10 amp.	Suits most lighting requirements, and other 10A appliances such as exhaust fans and FanLights.
■ Looping terminal on Cat 33 and 34.	Suits certain requirements.
■ Models also available without looping terminal: Cat 33NLT and 34NLT.	Suits certain requirements.
■ Snap-on base plates available. Cat 33B plate suits Cat 33 and 33NLT. Cat 34B plate suits Cat 34 and 34NLT. Takes 'Deuscher Christmas Tree' plugs and wire ties.	Enables the plug base to be quickly and easily mounted as a ceiling outlet. It's a simple procedure. Just drill plug holes in the ceiling, push the 'Christmas Tree' plugs into the Cat 33B or 34B base, place wire ties into position (if required), and push home to secure.
