A WORLD OF NEW POSSIBILITIES

2021 EDITION

THE GLOBAL SPECIALIST
IN ELECTRICAL AND DIGITAL BUILDING INFRASTRUCTURES

 **legrand**®

WORLD IN PROGRESS

ARTEOR™ IS PART OF IT

Digitalisation and networks are changing everything: how we live, communicate, work and shape our environment. Homes, offices, hotels and public buildings are becoming smarter all the time and ever more amenable to what their occupants want.

Arteor exploits these new opportunities and is also easy to install, configure and use. With its new functions, innovative operating concepts and updated design, Arteor provides universal solutions to the problems encountered by dealers, retailers, installers, systems integrators and planning specialists all over the world – as well as the expectations of their clients.

GLOBAL SOLUTIONS

ARTEOR™ IS TRULY INTERNATIONAL

Across our globalised world, people's needs and expectations are increasingly converging. The same can be said of lifestyles and the desire for greater convenience, security and an efficient use of resources. Although this genuinely global trend is fuelled by technology, barriers do still exist in the form of regional standards. Arteor helps overcome these obstacles and enables planners and developers operating at a global level to implement their projects all over the world. This is achieved by setting the same high standards, regardless of location, in terms of functionality, design, simplicity of installation, configuration and use.

The Arteor range is remarkably modular, enabling the implementation of complex projects of any scale and complexity without having to compromise on the systems used. Arteor also supports integration of technologies from third parties, which is an increasingly important criterion for international projects in general, and hotel projects in particular.

T I M E L E S S H A R M O N Y

NEW NEUTRAL FINISHES

MAGNESIUM

NEW COMBINATIONS

Arteor meets customisation requirements by offering more ways to combine colours. But the more technology shapes our lives, the more we want it to blend in discreetly with our individual environments. This is why clean lines and a pared-down look define the design philosophy of the range.

DARK BRONZE

SOFT ALUMINIUM

WHITE

NEUTRAL FULL COLOUR

This neutral and minimalist collection leaves plenty of room for contemporary design concepts. An extended colour range with new plate and mechanism colours gives designers even greater freedom.

CHAMPAGNE

GRAPHITE

STRONG IMPACT

A WIDER CHOICE OF METALS

REFLECTIVE METAL

A new collection made of metal finishes provides a suitably brilliant solution for more demanding projects. Elegantly discreet despite their mirror finish, these switches blend seamlessly into their environment.

Available in gold and other colours, they give a definite nod to the technology involved.

STAINLESS STEEL

GOLD

BRUSHED METAL

Two further colours have been added to this relatively neutral but prestigious collection of brushed metal finishes. "Pink Champagne" (a warm, reddish brown) and "Black" offer designers a wider choice for high-end applications.

PINK CHAMPAGNE

STAINLESS STEEL

GOLD BRASS

BLACK

OUT OF THE BOX

ARTEOR™ ON TREND

In the Wood collection, nature and technology combine to create an original, appealing finish. The unique texture of Signature Cube turns this extraordinary finish into a sophisticated modern design element and creates a unique combination of look and feel.

CUBE

GREY OAK

Both collections create an impression of discretion and technical sophistication. Chromed metal accents reinforce the image of a prestigious product. A bevelled profile ensures an on-trend slimline look.

KEEP IN TOUCH

NEW ARTEOR™ FUNCTIONS

You have to be connected to get on. This is why options to charge mobile devices, wherever you may be, are so essential these days. Arteor offers chargers in various versions for this very reason, whether you're out and about, at home, in a hotel, or at the office. USB chargers or wireless chargers – they both allow you to keep your mobile devices charged and running, anywhere and any time.

ALWAYS FULL POWER

USB CHARGERS FOR THE HOME

Conveniently placed USB chargers at home allow you to charge your mobile devices easily wherever it's handy: near the entrance, by the bedside or in the kitchen... Arteor has a suitable solution for every kind of mobile device – including, of course for the new generation with USB C-Type connection.

A-TYPE (2.4A output) + C-TYPE (3A output max), 4.8A - 5V d.c.

USB A-TYPE AND C-TYPE CONNECTIVITY

More and more mobile devices are equipped with the new C-Type USB. The new Arteor 10A double powerpoint can be equipped with two different USB charging ports, A-Type and C-Type 4.8A - 5V d.c.

BRING USB CHARGING TO YOUR SOCKET OUTLET

The Arteor Single Powerpoint outlet can be associated to a 1.5A - 5Vd.c. USB A-Type charging port. The socket outlet complies with AS/NZS3112 and is shuttered for child safety.

The USB charger output is sufficient to charge most smartphones at full speed.

USB CHARGER

These modular charging sockets with a C-Type USB charging port comply with IEC 62684-2011-1. Aesthetically pleasing, they can be used to charge any mobile device, both at work and at home.

MODULAR USB A-TYPE + C-TYPE CHARGER 5 V d.c. 3A - 15 W

MODULAR DOUBLE C-TYPE USB CHARGER 5 V d.c. 3A - 15 W

WHEREVER YOU ARE

WIRELESS CHARGERS

Use at work and on the move requires a different set of features, with adaptability and robustness top of the list. With their pleasing aesthetics, Arteor chargers are even more universally suitable.

WIRELESS CHARGER + A-TYPE USB

This Arteor wireless charger features an additional A-Type USB port for simultaneous charging of two devices – a smartphone with a Qi receiver via induction and a tablet via the USB port. To be mounted on the wall, installed in a cable column, or as part of a multi-outlet extension in the office or at home (e.g. in the kitchen).

WEATHERPROOF WIRELESS CHARGER FOR PUBLIC AREAS

IK 08 – IP 66, impact-resistant and weatherproof design, specifically created for public areas such as restaurants, waiting rooms, libraries, passageways or transit areas, and even swimming pools.

QI WIRELESS CHARGER FOR INTEGRATION INTO FURNITURE

The Qi wireless charger comes with an extra-slim design for integration into furniture, e.g. in meeting rooms, offices or public spaces. Also suitable for kitchen worktops at home. Supplied with external 110 – 240 V universal power supply. Plugs comply with European, BS, US, Australian and Chinese standards.

Wireless Power Consortium: 750 members, ensuring interoperability with induction-compatible phones.

Qi: global standard adopted by vehicle manufacturers/café/restaurants/hotels

 Legrand is a member of the Wireless Power Consortium. Legrand wireless chargers conform to the Qi WPC standard.

THE RIGHT M O O D

ARTEOR™ LIGHTING SOLUTIONS

Light creates atmosphere, emphasises room features and helps overcome emergencies. Arteor solutions provide bright prospects for developers and decorators who want to make a very deliberate use of lighting in their projects.

UNIVERSAL PUSH-BUTTON DIMMER FOR ALL TYPES OF LAMPS

With the Universal dimmer for all modern loads including dimmable CFLs and LEDs Arteor makes it easy to create individual lighting moods.

Convenient to use:

33% and 66% luminance are preset, and there is a level memory function too. The night light function with its slow dimming feature is a practical solution for bedrooms or children's rooms.

Easy installation:

Two cables are enough as a neutral wire is not required
– ideal for renovations or installation work carried out at a later time.

ARTEOR™ WITH NETATMO

A TOUCH OF SMARTNESS

ARTEOR™ with NETATMO

THE SMART WIRELESS SOLUTION

Arteor with Netatmo is a radio based solution for the connected home. The intelligent products communicate with each other via radio ZigBee (2.4 GHz waveband). This means there is no need for specific or extensive cabling. Although the range only contains a few products, these can be used to create numerous individual solutions for a more customised feel at home.

SIMPLE, ADAPTABLE, OPEN

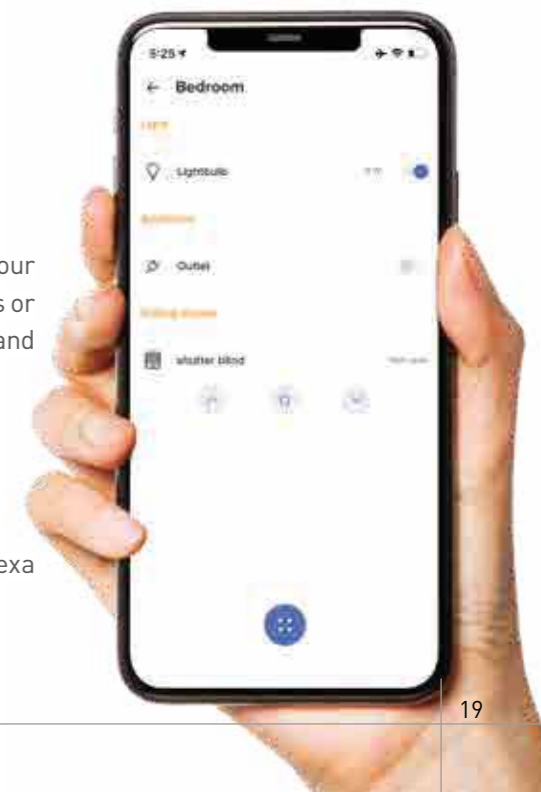

Arteor with Netatmo has been designed and developed as a simple solution to make every home more unique, convenient and secure. Simple for planners, who are able to integrate many functions without complicated cabling. Simple for installers, who are able to install the system without specialist knowledge. Simple for users, who will find it convenient to operate, easy to extend and are able to make changes at any time.

APP CONTROL FOR EASE OF USE

All functions in an Arteor with Netatmo installation can be controlled via your smartphone or tablet: control individual lights, blinds, curtains, electrical appliances or trigger more complex scenarios. Using the app you have everything under control, and stay connected with your home, no matter where you are.

VOICE CONTROL

Just say the word, give simple voice commands to Siri, Google Assistant or Alexa and you can manage your lights and appliances without lifting a finger.

GROWING WITH YOUR NEEDS

ADAPTIVE TO SUIT OUR EVER-CHANGING LIFESTYLE

Its simple installation makes Arteor with Netatmo a smart choice. No complex cabling is needed to adapt the solution to changing circumstances. Putting a switch within reach of children, rearranging the living room, converting a kid's bedroom into an office, adding more functions... - Arteor with Netatmo will change as readily and as quickly as you do!

PUT THEM ANYWHERE

Using wireless switches you can ensure your controls are always exactly where you want them. Lower on the wall to be within easy reach of the children, they can then be repositioned as your children grow or when you decide to rearrange your furniture.

NOTIFICATIONS

No need to worry about a power failure while you are not at home, the app will alert you instantly if there is a power outage.

ENERGY MANAGEMENT

The need to harness energy and reduce our output is increasingly more prevalent, the app will allow you to monitor your usage in real-time and also generate a more long-term analysis.

“LEAVING HOME” SCENARIO

With one touch, instantly turn off lights, appliances, even shutters. Forgot to turn off the iron? No problem, log into the app and turn it off from anywhere.

“WAKE UP” SCENARIO

Imagine an easy morning wake up with a pre-set scenario which will turn on a soft light and open your blinds - the perfect start to everyday!

MINIMAL COMPONENTS – LOTS OF OPTIONS

The system consists of only a few simple components. The starter kit includes your gateway and will need to be installed first. The gateway offers connected controls, which trigger actions such as activating lights, blinds, electrical appliances and wireless battery controls. You can also manage scenarios, create centralised functions and allow remote control of individual functions.

CONNECTED WIRED PRODUCTS

The wired products are installed in the same way as conventional components and then paired with the wireless switches (which can be positioned anywhere) via the ZigBee 2.4 Ghz waveband. Thanks to the dynamic mesh network, all functions can easily be reconfigured at any time. It is also easy to add extra modules.

WIRELESS CONTROLS

Wireless light and blind switches are used to extend the installation and enable individual, group-based or centralised remote control of lighting and blinds. They are adaptable to take into account evolutions of the installation over time.

Wireless scenario controls are used to activate pre-programmed, more complex scenarios that enhance comfort for when you wake up in the morning or go to bed at night, leave the house or arrive home.

The Home + Control app, which can be used to control the system via smartphone and tablet, is available for devices with Android and iOS. Download it for free from your usual app stores.

HOME + CONTROL app

AS INDIVIDUAL AS YOU ARE

FUNCTIONALITY MEETS DESIGN

Arteor with Netatmo doesn't only offer tailored solutions with its functionality; It also adds a touch of style to the overall look and feel of the house. Arteor finishes blend in perfectly to any living environment.

SCENARIOS

Increase comfort using pre-programmed scenarios, such as Wake up/Sleep or Home/Away.

BLINDS/ SHUTTERS

For convenient individual or central control of shutters/blinds.

CONNECTED SOCKET OUTLETS

Allows you to remotely control electrical appliances, measure instantaneous energy consumption, monitor daily or monthly energy consumption and smart notification alerts, from anywhere.

LIGHT

Conveniently control lights via the app, voice control or add additional wireless switches.

EXISTING SWITCH

REMOVE EXISTING SWITCH FROM THE WALL

INSTALL NEW SMART DIMMER SWITCH ON WALL

NEW SMART DIMMER SWITCH

EASY INSTALLATION

FOR NEW OR EXISTING INSTALLATION

Arteor with Netatmo is a radio solution, requiring no extra wiring as it uses the existing infrastructure. This makes it the ideal choice for upgrading an existing installation into a connected home, but also for new building projects, it offers definite advantages, as its simple installation cuts effort to a minimum.

5 STEPS TO A CONNECTED HOME

1

After installing all wired devices, switch on power and all LED's will light up in red.

2

Press and hold the master switch at centre for 5 seconds.

3

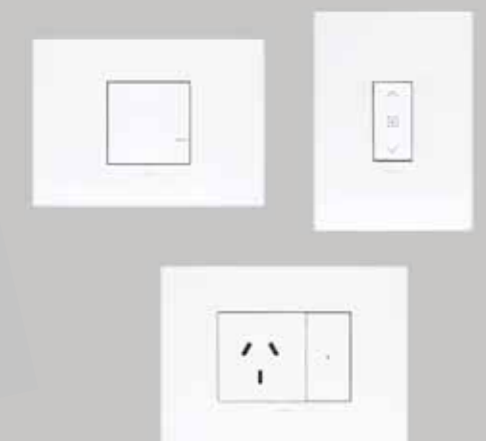

The LEDs now light up in green, showing that your network has been created.

4

To pair them, press on the wireless switch you wish to pair, while tapping it three times onto the wired devices you wish to control. The LED's blue light shows that the pairing was successful.

5

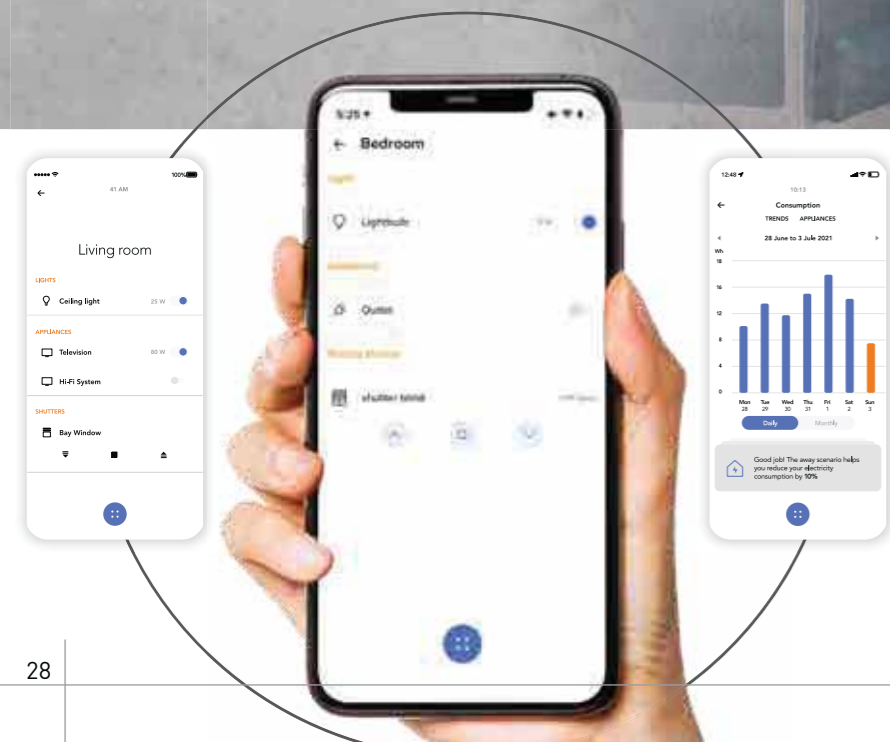

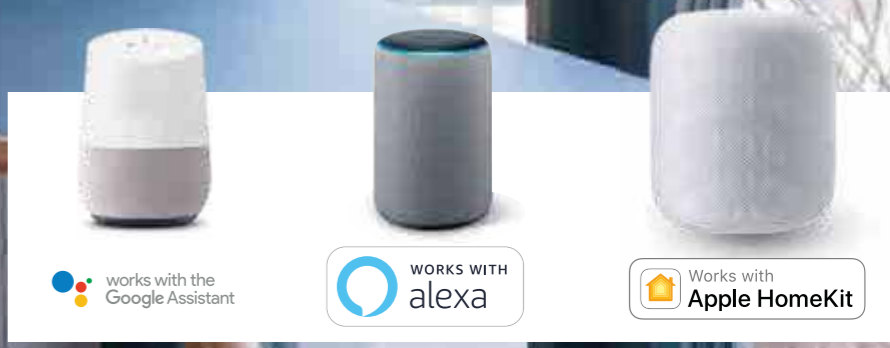

After a short press on the master switch, all the LEDs turn off.

INNOVATIVE OPERATING CONCEPTS

TALK - SWIPE - TOUCH

VOICE CONTROL

Arteor with Netatmo makes it possible to control all connected devices using voice commands via digital assistants, such as Google Home, Amazon Alexa or Apple Siri.

THE HOME + CONTROL APP FOR SMARTPHONE OR TABLET

The Home + Control app allows: monitoring of instantaneous power consumption, remote surveillance of the connected home, and control over various functions when the user is out and about.

LOCAL CONTROL

All functions can still be used in the traditional way via switches on the wall. If furniture needs to be rearranged or small children need to be able to reach a switch, the wireless switches can be repositioned easily at any time.

HOME + CONTROL app

iPhone, iPod and iPad are registered trademarks of Apple Inc, registered in the US and other countries. HomeKit is a trademark of Apple Inc. App Store is a service mark of Apple Inc. Google, Android, Google Play, and the Google Play logo are trademarks of Google LLC. Amazon, Alexa and all related logos are trademarks of Amazon.com, Inc. or its affiliates.

SMARTHOME VIA SMARTPHONE

THE HOME + CONTROL APP

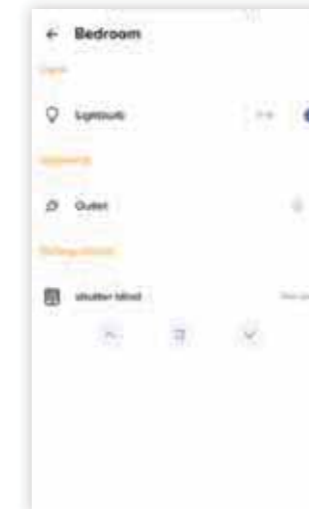

The app used by the installer for configuration purposes is also used to control the entire system. The app displays alarm messages if, for instance, the refrigerator is no longer powered or a light remains on when no one is supposed to be at home. This means you can react accordingly while away, putting you in complete control.

Configuration is based on a set of simple steps

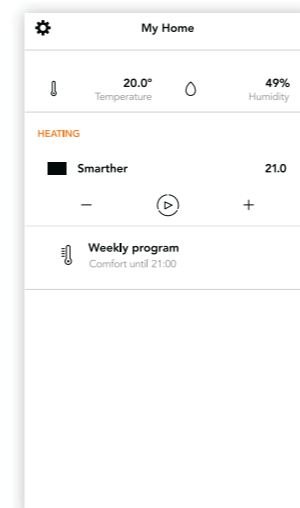

Each room is configured individually

All functions can be set individually

Invite all members of the household

Energy consumption can be queried for individual devices

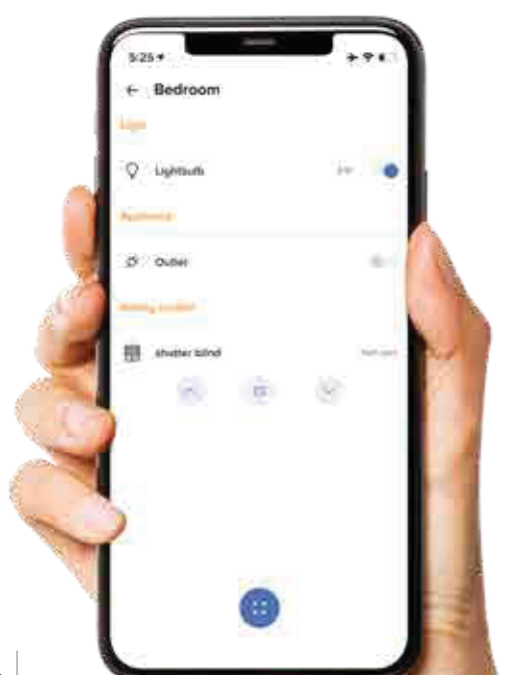

Detailed consumption analysis help to reduce energy consumption

Push notifications reach the user wherever they may be

Enables fast response to faults

The Home + Control app changes everything, not only in terms of control of the smart home but also in terms of its configuration. Use the app to conveniently configure the entire system, based on individual preferences. Create tailored scenarios, remotely control individual devices, monitor energy consumption. It's all possible!

HOME + CONTROL app

LOTS OF SCOPE FOR GRAND PLANS

FOR A FULLY CONNECTED HOME

Arteor™ MyHOME_Up

With Arteor MyHOME_Up, electrical systems can be designed and implemented to suit your individual requirements. Almost anything that building owners and residents want is possible with this tried and tested BUS system: customised scenarios, automation of numerous functions, comprehensive temperature management, playing music in every room, energy consumption monitoring and analysis, or load shedding for selected devices.

This means that the entire domestic installation can be integrated into the system. The home's lighting and roller shutters, heating and air conditioning, music and door entry system create a comfortable, secure and individual living environment, which lives up to the highest standards.

YOUR WISH IS OUR COMMAND

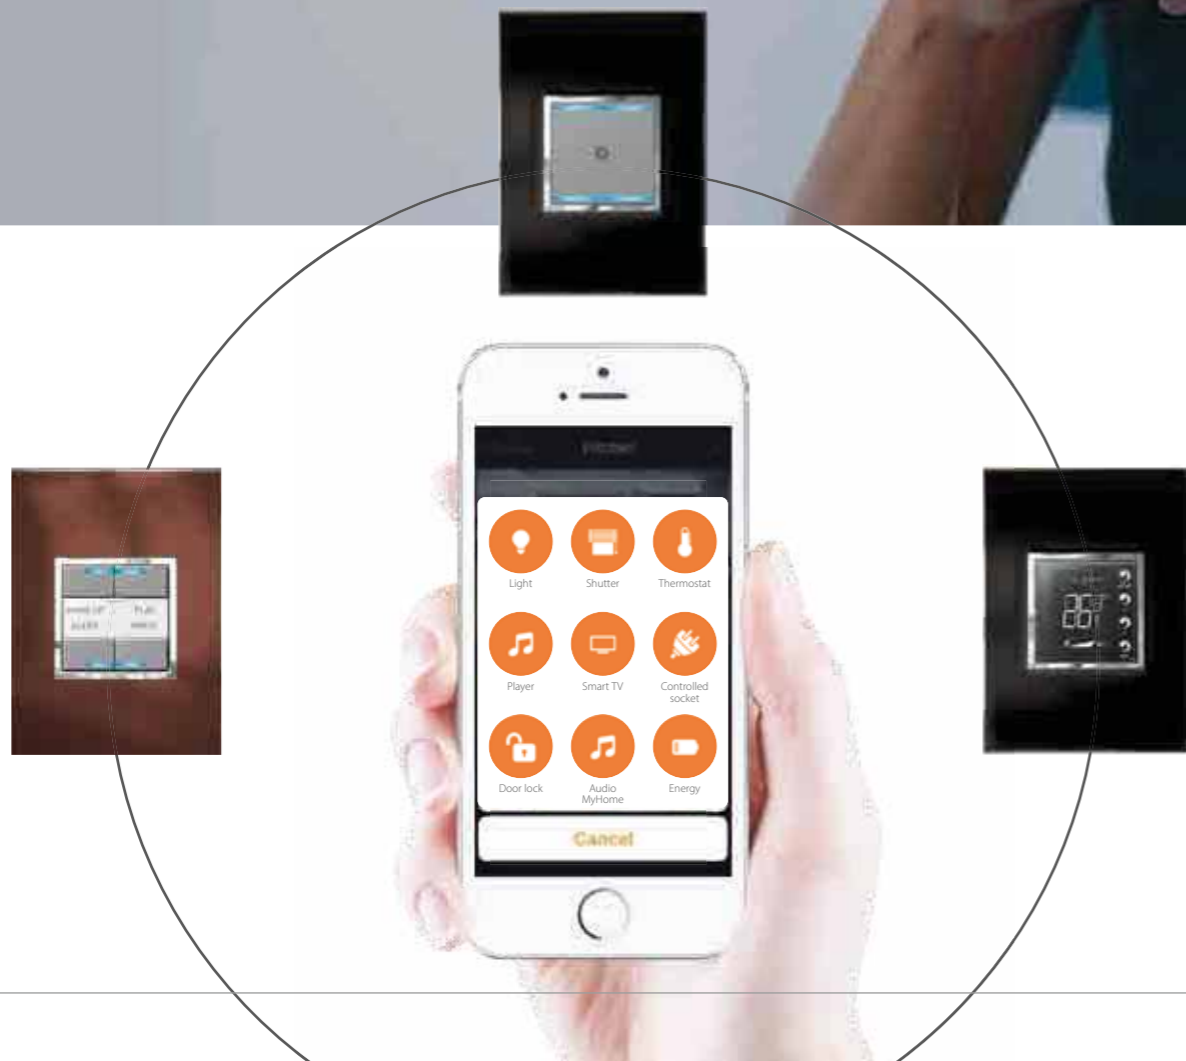

A wide range of control options make even complex solutions easy to use. Residents can choose, at any time, whether they want to control the functions via a wall-mounted monitor or by using conventional switches. Other options include modern touch plates or a dedicated smartphone app, and with a voice assistant, your home even obeys your spoken word.

THE HOME AUTOMATION EVOLUTION

M Y H O M E _ U P

With MyHOME_Up, the tried-and-tested BUS system is now even easier to install and use. The MyHOME_Up App not only makes configuration much simpler but it also takes the idea of user-friendliness to a whole new level.

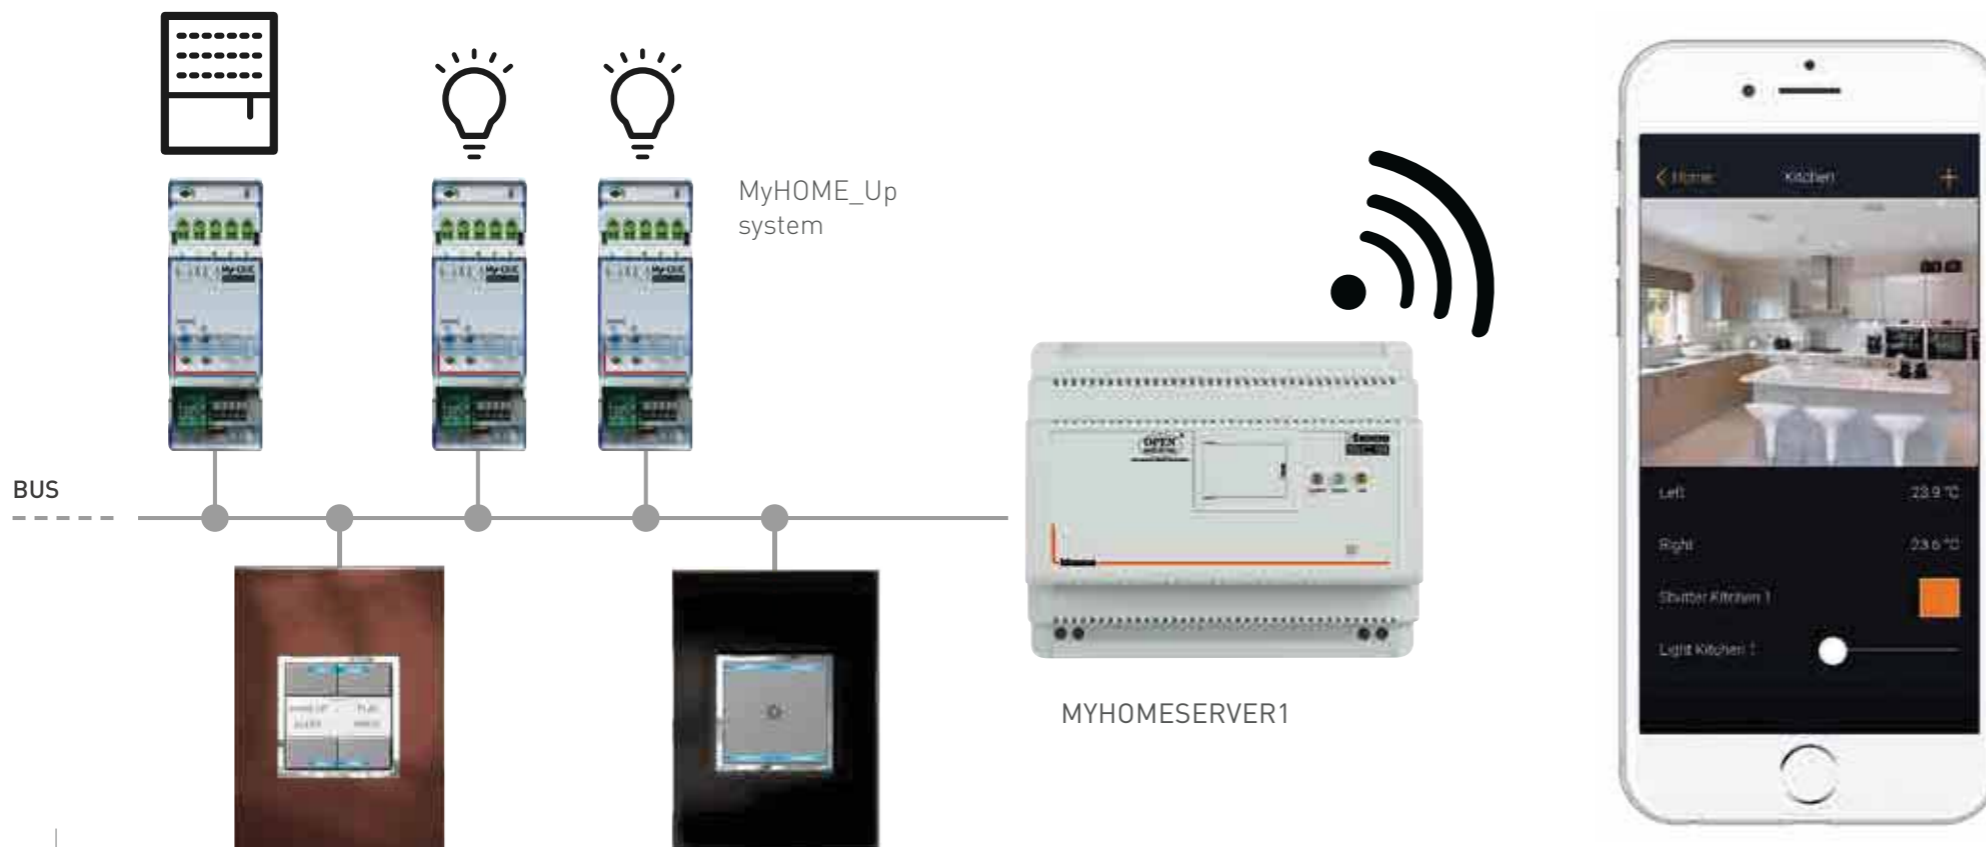

A SINGLE APP FOR BOTH INSTALLERS AND USERS

The new MyHOME_Up App for Android and iOS eliminates the concept of configuration usually associated with the BUS system. This new app is used for both to associate the devices easily and to customise and control the functions of the MyHOME_Up home-automation system. Operation is so easy that minor changes in functionality can now even be made by users themselves – while installers take care of more important tasks.

ARTEOR™ MYHOME_UP

FULL CONNECTION MADE SO EASY

CREATE A FULLY CONNECTED SYSTEM WITH A FEW, SIMPLE START-UP OPERATIONS

1. Wire all the system components and the server to the BUS system.
2. Free-download the MyHOME_Up App on your tablet or smartphone. Once launched, it will connect to the system and make all components ready for setup.
3. For an easy installation setup, simply follow the app's instructions.
4. Once the installer has terminated the setup, the app can switch to user mode to provide full control over the system.

Download the App

YOUR COMFORT TEMPERATURE AUTOMATICALLY

INDIVIDUAL TEMPERATURE MANAGEMENT

Your smart home automatically adjusts to your personal comfort temperature via Arteor MyHOME_Up. Heating and air conditioning systems from various renowned manufacturers can be incorporated and, as the system only provides heating or cooling when and where it is needed, it not only increases comfort but also reduces energy consumption.

SMART HEATING AND COOLING

It operates with different scenarios depending on the time of day and the room's use, but also responds to departures from the normal daily routine. This way, for example, the heating is turned down when a window is opened or when you leave your home with your smartphone in your pocket. Of course, the system can also be controlled individually via the HOMETOUCH screen, local control units such as a display thermostat or the MyHOME_Up App.

COOLING

HEATING

ZONE MANAGEMENT

DISPLAY THERMOSTAT

MAXIMUM COMFORT, MINIMUM ENERGY CONSUMPTION

For maximum comfort with minimum energy consumption, the system is precisely adjusted to suit users' needs and habits. For example, certain zones within the home can be defined, which – depending on the time of day and use – should be kept at a constant temperature. The required temperature can also be set for each room individually. The system responds immediately to any changes in these temperatures. If a room heats up as the result of strong sunlight, the heating is immediately turned down to save energy. Everything can also be easily controlled remotely via the app.

EVERYDAY LIFE SCENES

ADAPTABLE TO YOUR HABITS

SCHEDULED ROUTINES

At a pre-programmed wake-up time, the kitchen, children's bedrooms and bathroom are already at a comfortable temperature, the roller shutters open and soft music makes it easier to wake up. At night, to help you get to sleep, the "Sleep" scenario is activated: the heating is turned down, the roller shutters close and the lights are dimmed. You can also do this with a simple utterance via voice control!

USING GEOFENCING

Using geolocation via your smartphone, your home knows when its occupants have left. This is when the "Away" scenario starts: all the lights are turned off, the heating or air conditioning are turned down and the roller shutters close. The system recognises from a distance that you are coming home and welcomes you accordingly.

BASED ON EVENTS

Your home takes care of itself: in strong sunlight, the roller shutters close automatically or your awning is rolled out, to delay the activation of air conditioning. If there is a storm or heavy rain, your awning is rolled in and the roller shutters close, to prevent damage. With the smartphone app, users always have everything under control and can intervene remotely, if necessary.

CENTRAL HOME CONTROL

H O M E T O U C H

The MyHOME_Up offer is enhanced by the new 7" touch screen HOMETOUCH. Without configuration, the device recognises MyHOME_Up functions installed on the system and makes them immediately available.

HOME STATUS NOTIFICATION

TEMPERATURE CONTROL

CUSTOMISED FAVOURITES

ONE TOUCH FOR TOTAL HOME CONTROL

A real all-rounder, this new display can be used to activate and control all the various home functions. The touch display also serves as a video intercom, thus enhancing home security.

Arteor™ MyHOME_Up

WHO'S THERE?

H O M E T O U C H

When used as a video intercom, the HOMETOUCH ensures all welcome guests are given the reception they deserve. It also shows uninvited visitors on its display, allowing you to decide whether to open the door to them.

A DEDICATED APP FOR VIEWING YOUR VISITORS

There is a dedicated app for the video door intercom function, and this offers greater security and convenience. This app shows live images of what is happening at the front door and provides an opportunity to react accordingly from a distance. The user can decide, at any time and wherever they may be, who they want to let in and who they prefer to keep out.

Download the App

EASE OF OPERATION JUST AS YOU WISH

MONITORING AND CONTROL

Users can choose from a large range of options for control and monitoring. Arteor MyHOME_Up can be operated centrally or locally from every room, remotely via an app or even by using a voice assistant.

CENTRAL CONTROL WITH THE HOMETOUCH

This large touch-screen display is your home's control centre. It allows all the functions to be activated, set, adjusted and monitored, it also serves as a video door entry system. Installed at the centre of the home, it offers optimum access to the entire system.

FULL CONTROL, WHEREVER YOU ARE

No matter where you are, the MyHOME_Up App lets you steer your entire installation anywhere and at all times. It brings a whole new meaning to the concept of remote control.

INDIVIDUAL ROOM CONTROLS

Elegant control units are available in different designs and ergonomics. Whether classic controls or advanced touch plates: they enable local control of lights, roller blinds and curtains, temperature and preset scenarios, and enhance the overall design of the installation.

VOICE CONTROL

The most convenient way of controlling your Smart Home is provided by voice assistants such as the Google Assistant or Amazon Alexa. Using these, your home listens to its occupants' commands and fulfils almost all their wishes.

MUSIC STREAMING

EASY INTEROPERABILITY FOR EASY LIVING

Arteor MyHOME_Up is an open system that offers many benefits. Devices from other providers can be integrated seamlessly with a view to extending functionality even further. One example is digital streaming of music to create the perfect mood all around the house.

LIGHTING CONTROL

OPEN TO OTHER SYSTEMS

Modern lighting systems can be dimmed to create the desired mood. They also support the use of coloured lighting within rooms to create additional options for an individual environment. Here too, MyHOME_Up is open to other systems.

MANAGE COLOURED LIGHTS

With MyHOME_Up and the corresponding light systems, a mood can be conjured up at the push of a button, or controlled via the app for even greater convenience.

Works with:

JOINING FORCES TO MOVE FORWARD

OPEN TO INTEROPERABILITY

MyHOME_Up and Arteor with Netatmo are part of Legrand's Eliot program for the development of sustainable connected solutions for the home and workplace.

Another major component of Eliot is the implementation of a powerful and reliable electrical infrastructure and the further development of high performance networks. These are the enabling factors of communication among connected devices and therefore essential for the constant extension of the Internet of Things.

The third mainstay of the Eliot program is interoperability. The integration of Legrand solutions with third party systems allows to provide new products and services with additional benefits.

THREE PRINCIPLES OF THE ELIOT PROGRAM

Easy to use, accessible and providing enhanced user benefits.

To enable product communication and help develop the Internet of Things.

Legrand contributes to enhancing innovation and services beyond its own ecosystem by promoting interoperability, as a genuine third party service enabler.

TOGETHER, WE CAN GO A LOT FURTHER

With its Eliot program, Legrand is on the right track, as is evidenced by a series of successful partnerships and third-party integrations.

Partnerships with innovative businesses and renowned brands:

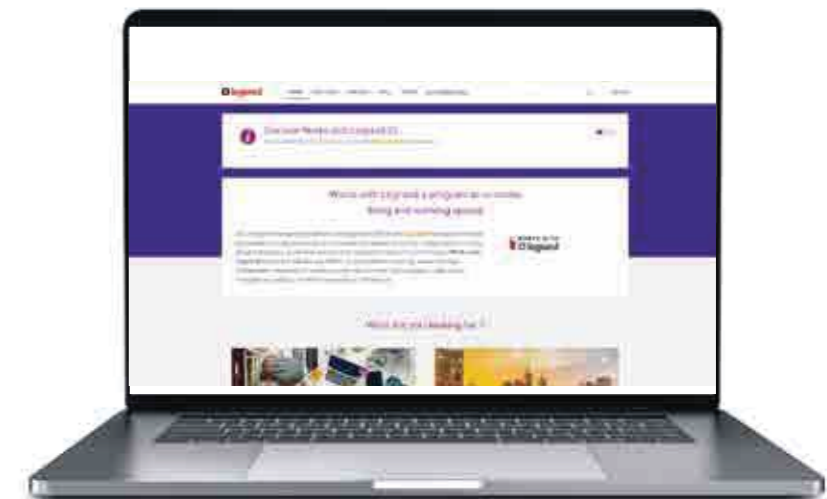

Compatibility with platforms and voice assistants:

FIVE STAR SOLUTIONS

UX FOR UPSCALE HOTELS

Designed specifically for premium level establishments, UX for Upscale Hotels provides top quality solutions with its brand-new touchplates and enhanced functionalities. Operating on an open protocol, the guest room management system can seamlessly integrate with third party building management systems, thus raising hospitality to new heights across the world, in conjunction with Arteor or other Legrand wiring device ranges.

6-GANG TOUCH PLATE

It can be configured on an individual basis as a convenient way of activating various scenarios such as “television”, “work” and many more.

BEDSIDE PANEL

For a convenient way of triggering complex scenarios for a wide range of situations. Temperature control for the hotel room is also integrated, as is a “Do not disturb” function.

KEY CARD READER

The power in the room can be switched on with the hotel card. The “Make up room” and “Do not disturb” signs can also be activated from here.

EXTERNAL READER

For opening the door with the hotel card and to provide a bell function for visitors. It lets staff know the guest doesn't want to be disturbed or that the room can be cleaned. Room number can be added.

FIRST-CLASS SERVICE

THE PERSONAL TOUCH

With global hotel projects, it is absolutely critical to implement the individual corporate design. This is why Arteor is open to clients' design preferences. The range is flexible when it comes to functionality too, so Legrand works closely with architects and planning specialists to come up with the perfect bespoke solution.

Products are made to measure which means that design and technology can be perfectly adapted to the corporate style and the users' preferences. Choose from four different colour options for the touch plates (White, Black, Light Grey and Dark Grey) and even more options for the colour of the frames. Customise your guests' experience by adding the hotel logo or the room number. Welcome guests with preset moods. Give your guests the five star treatment they deserve.

A special configuration tool has been developed for quick and easy implementation of customer requirements.

The configuration tool provides a convenient way of selecting the colour options for touch plates and frames, the icons and other forms of customisation.

Check out the configuration tool:
<https://www.uxforupscalehotel.legrand.com>

Touch plates available in four colours: Black, White, Light Grey and Dark Grey.

Choose between standard surface installation or fully recessed mounting, in-wall or integrated into furniture.

FIND THE ARTEOR RANGE ON POWERPLAN

POWERFUL AND EASY TO USE

POWERPLAN & ARTEOR

PowerPlan has been designed to simplify electrical consultations by creating visual floor plans which can be edited in seconds. Created with the builder in mind, it allows consultants to quickly and easily develop an electrical plan prior and during the customer's appointment, allowing for up-sell opportunities.

- Design electrical plans quickly and easily
- Import and print high quality floor plans
- Directly comment on floor plans
- Manage pricing files
- Add and filter your product database through product categories
- Generate accurate quote in seconds
- User friendly visual tool
- Reliable and secure web application

Arteor™ dimmers

square and round version

5 727 13 5 735 01 5 722 39 5 743 38

Support frame and plate selection charts p. 81 - 83

Mechanisms supplied with rocker plates, to be equipped with support frames (p. 81) and plates (p. 82 - 83)

Pack	Cat.Nos	Leading edge dimmers
1	5 722 13	Without neutral, 2-wire Rotary dimmer - 400 W ○ White - 2 modules ● Magnesium - 2 modules ● Champagne - 2 modules ● Soft Alu - 2 modules
1	5 727 13	
1	5 700 53	
1	5 710 53	
1	5 735 01	Rotary dimmer - 1000 W To be installed alone in a 3 module box (or 1 gang BS) with a 3-module support frame and a 2-module plate For lamps: - 60-1000 W (230 V) - 60-500 W (127 V) for incandescent and halogen lamps - 60-600 VA (230 V) - 60-300 VA (127 V) for halogen lamps with electronic transformer with leading edge behaviour - 60-1000 VA (230 V) - 60-500 VA (127 V) for halogen lamps with ferromagnetic transformers
1	5 737 01	○ White - 2 modules ● Magnesium - 2 modules
		Universal dimmers Without neutral, 2 wires Push-button dimmer for all types of lamps: - Dimmable LEDs: 75 W - Dimmable compact fluorescent lamps: 75 W - Halogen with transformer: 400 VA - Fluorescent tube: 200 VA - Halogen 230 V and incandescent: 400 W Can be associated with one or several push-buttons without neon, for ON/OFF or dimming control Lights come on again at the same lighting level as before they were last switched off
1	5 722 39	○ White - 2 modules
1	5 727 39	● Magnesium - 2 modules
1	5 729 37	● Champagne - 2 modules
1	5 729 36	● Soft Alu - 2 modules
1	5 743 19	○ White - 2 modules
1	5 743 39	● Magnesium - 2 modules
		Dimmers 1-10 V Push-button dimmer for ballasts 1-10 V
1	5 722 38	○ White - 2 modules
1	5 727 38	● Magnesium - 2 modules
1	5 729 39	● Champagne - 2 modules
1	5 729 38	● Soft Alu - 2 modules
		Active power compensator Makes 2-wire electronic lighting control units without neutral compatible with all commercially-available loads (LED, compact fluorescent, ELV halogen with ferromagnetic or electronic ballast, 230 V halogen, fluorescent tube, incandescent) Consumption 0.4 W
1	0 401 49	

Arteor™ dimmers

770 version

AR400TMWE AR400A2PMCHP

To be used with Arteor 770 grids p. 61 and Arteor 770 coverplates p. 81 - 83

Mechanisms supplied with rocker plates, to be equipped with support frames (p. 81) and plates (p. 82 - 83)

Pack	Cat.Nos	Rotary dimmers 400VA - 240V~
10	AR400TMWE	Trailing edge ○ White ● Magnesium ● Champagne ● Soft Alu
10	AR400TMMGN

Arteor™ electronic switches and motion sensors

5 734 55 5 736 55 5 740 05 0 784 59

Support frame and plate selection charts p. 81 - 83
Load selection charts p. 64

Mechanisms supplied with rocker plates, to be equipped with support frames (p. 81) and plates (p. 82 - 83)

Pack	Cat.Nos	Sensitive switches - 100/240 V~
1	5 720 51	For controlling light sources by simply passing the hand in front of the switch (distance 5 mm) Up to 5 sensitive switches can be combined to control the same lighting circuit Supplied with LED indicator light
1	5 734 55	Square version ○ White - 2 modules ● Magnesium - 2 modules
1	5 725 51	Round version ○ White - 2 modules ● Magnesium - 2 modules
1	5 736 55	
		Motion sensors Measurement of luminosity threshold Adjustment of luminosity threshold and time delay Max. lux and min. time delay factory pre-set Recommended fixing height: 1 m IR detection 180° Adjustable luminosity threshold: 5 to 1275 lux Installation in box min. depth 40 mm recommended 2 modules Range 8 m
1	5 740 05	With neutral, 3-wire - 400 W Load selection charts (p. 29) Only 1 motion sensor per lighting circuit No possibility to add a push button to control also the lighting circuit Time delay adjustable from 10 s to 10 min Consumption 0.55 W on standby
1	5 740 55	○ White ● Magnesium
		With neutral, 2-wire - 400 W Operates: - up to 400W incandescent and halogen lamps - up to 400VA ELV halogen lamps with ferromagnetic or electronic transformer
1	0 784 59	○ White
		Configuration tools for motion sensors All sensors are supplied with factory settings: - 300 lux light level threshold for surface and flush mounting sensors - 15-minute time delay and walkthrough function activated The configuration tools are used to adjust these presets and the detection sensitivity. Step programming on preset buttons Digital programming to one decimal place on the digital screen. Instant programming control Used to display the parameters of each sensor Option to store settings in the memory and to apply them to other sensors Standard preset configurations for each room type (office, hallway, etc.) according to EN 12 464
1	0 882 35	
1	0 882 30	
		Active power compensator Makes 2-wire electronic lighting control units without neutral compatible with all commercially-available loads (LED, compact fluorescent, ELV halogen with ferromagnetic or electronic ballast, 230 V halogen, fluorescent tube, incandescent) Consumption 0.4 W

Mechanisms supplied with square rocker plates, to be equipped with support frames (p. 81) and plates (p. 82 - 83)

Pack	Cat.Nos	Smarter connected thermostat
1	0 490 36	Allows you to adjust and monitor the temperature in the rooms precisely and accurately; all the programming and most of the functions are performed simply and intuitively using the dedicated APP. Thanks to its Wi-Fi connection, Smarter can be programmed and controlled remotely; it can also display the temperature and humidity measured in the room. The temperature level can be set locally for manual operation and the Boost mode can be activated. The Boost forces the switching on of the system for a limited time (30, 60 or 90 minutes) independent of the measured and programmed temperature - 100 - 240 V~, 50/60 Hz power supply; - 2 W max absorption - maximum cable section 1 x 1.5 mm ² - temperature measurement 5 - 40 °C - temperature set-point 5 - 40 °C - increase of 0.5 °C - 1-contact output in switching free of potential 5(2)A 2 modules Flush-mounting

Type-C connector characteristics

USB Type-C: new miniaturised version of the traditional USB connector (Type-A)

Reversible: simplified connection. For fast charging of devices and high-speed Data, Audio and Video transfers

USB Type-C standardisation

The European Commission and major manufacturers of multimedia devices (smartphones, tablets and laptops) have signed an M.o.U. (memorandum of understanding) aiming to standardise equipment and use of Type-C connectors.

7 leading manufacturers are signatories to the agreement guaranteeing compatibility of their devices with USB Type-C chargers: Samsung, Apple, LG, Google, Sony, Motorola, Lenovo.

Standardisation:
 - simplifies connection for users
 - optimises charging performance and ensures compatibility
 - restricts the need for multiple mobile chargers

Multipurpose cord

The USB Type-C connector aims to replace several connectors so users have a truly multipurpose cord.

Energy Data	Telephone	Video image	Audio
USB Type-A	Micro USB	HDMI	3.5 Jack
	Lightning	Display Port	
		VGA HD15	

USB Type-C single connector

Why install a USB Type-C charger ?

- Latest generation smartphones and tablets are natively equipped with a Type-C port
- As the Type-C connector becomes the universal port, the Type-C cord will enable a multitude of applications (charging and data transfer)
- Delivers up to 15 W to optimise charging
- Environmentally friendly: standby power consumption of 0.07 W Level VI on the TUV scale (highest level)

Arteor™

wireless power chargers

Wireless power chargers for fast charging of a smartphone with a Qi receiver
 Power supply standby mode consumption < 0.07%
 Conform to the Qi WPC standard (Wireless Power Consortium): certified for professional Qi 1.2.3 projects
 Conform to EN 62479 standard (EMF emissions)
 Conform to ICNIRP specifications (health protection)
 Do not interfere with other wireless signals (Zigbee, TNT, GSM, 4G, etc)

Pack	Cat.Nos	Qi wireless chargers - for integration into furniture
1	0 775 80	Specially designed for mounting horizontally on furniture. For meeting rooms, offices, public areas, etc 80 mm drilling diameter, Aluminium colour Extra-slim with thickness < 1.5 mm Supplied with identification sticker diameter 85/110 mm, 2.5 m cord, fixing base and cable ties 110-240 V universal power supply Plugs conforming to European, BS, US, Australian/Chinese standards To be installed using a hole saw diameter 80 mm (Cat.No 0 885 08) 5 W - IP 44 / IK 08 charger

Pack	Cat.Nos	Flush-mounted wireless chargers - for public areas
1	0 775 99	1 A - 5 V/5 W wireless charger. Specially designed for public buildings, passageways or transit areas, swimming pools, etc. IK 08 - IP 66 - Class II SELV Comes with 2 induction antennae for fast smartphone charging. Recognition area: 50 x 80 mm Plate at an angle of 10° with non-slip coating to hold the terminal safely in place during charging Screws onto flush-mounting box with 60 mm fixing centres, min. depth 40 mm, French, German or British standard. Can also be fixed in at 4 points. Can be mounted on rectangular boxes and outdoors 110/230 VA Phase + Neutral power supply Mechanism supplied with cover plate, attached with 2 Torx screws at the side Aluminium colour Dimensions: 141 x 95 x 51 mm 2 x 2.5 mm ² terminals

Pack	Cat.Nos	Wireless charger + Type-A USB - Arteor version
1	5 720 76	1 A - 5 V/5 W charger with one 2.4 A/12 W USB port to power a second device Specially designed for work areas For installation in flush-mounting box, surface mounting box, workstation kit, column module, multi-outlet extension for offices, etc To be fitted with a support and a plate depending on the selection of the wiring accessories ranges Comes with 2 induction antennae for fast intuitive smartphone charging. Recognition area: 50 x 80 mm Plate at an angle of 10° with non-slip coating to hold the terminal safely in place during charging Dimensions: 136.5 x 70 x 56.5 mm Anti-theft lock function Suitable for horizontal multi-gang mounting Metallic finishing plate 2 x 2.5 mm ² terminals

Arteor™

wireless power chargers

Wireless power charging

A Legrand innovation for easy charging

Using wireless energy transfer
 No need for cords and connectors

An open international standard: Qi

Wireless Power Consortium: 750 members, ensuring interoperability with induction-compatible phones
 Qi: global standard adopted by vehicle manufacturers and cafés/hotels/restaurants
 Products certified for professional Qi 1.2.3 projects

Ergonomically designed to suit different environments

Horizontal charging on furniture

Insertion in an 80 mm diameter cut-out / Fixed into furniture
 External power supply with 2.5 m cord

Vertical charging on a wall in public areas (semi-flush-mounted)

Ideal for indoor or outdoor locations

Excellent resistance to impacts (IK 08) and adverse weather conditions (IP 66)
 Can be fixed directly on the flush-mounting box or for extra strength drilled with anchor bolts

Charging in Arteor environment

With induction and 2.4 A / 12 W USB Type-A socket

Arteor™

Connected home

starter kit

Must be ordered for any connected installation

Step 1: Starter kit for a connected home

AWNSKITWE

Used to control your home remotely (lighting and electrical appliances) using a smartphone via the Home + Control App and/or voice control (via a voice assistant). Must be ordered for any connected installation. The connected extension kit or individual connected products can be added to the starter kit. 2.4 GHz Wi-Fi connection required.

Pack	Cat.Nos	Starter Kit
1	AWNSKITWE	Used to create a connected installation Includes: - 1 Gateway 240V a.c. Wi-Fi 2.4GHz 802.11 b/g/n Zigbee 2.4GHz to 2.4835GHz. Supplied with support frame, coverplate and paint cover - 1 Vertical Smart switch 1 gang 240V a.c. 3 wire min. load 5W Max. load 100W. Compatible with most traditional and LED Lighting loads. Zigbee 2.4GHz to 2.4835GHz. Supplied with load stabilising capacitor, support frame, coverplate and paint cover - 1 Smart Single Powerpoint (protected against overloads) 240V a.c. 10A. Compatible with any electrical appliance or large Household appliance. Measures instantaneous Power and monitors daily and monthly consumption, Plus sends configurable notifications (fault, consumption, etc). Supplied with support frame, coverplate and paint cover. Zigbee 2.4GHz to 2.4835GHz - 1 Wireless master switch with preset scenarios which can be customised in the Home + Control App. Supplied with CR2032 3V battery for power supply and 4 removable stickers for fixing the control on any walls. LED function for low battery indication. Supplied with support frame and coverplate. Zigbee 2.4GHz to 2.4835GHz

Connected home

240V a.c. products (continued)

Step 2: Connected products

AWNHGPOWE

AWNVBLIWE

Used to complete your connected installation, requires prior installation of a Starter or Basic kit

Pack	Cat.Nos	Smart Single Powerpoint
1	AWNHGPOWE	○ White
1	AWNHGPOMGN	● Magnesium
1	AWNHGPOALU	● Aluminium
1	AWNHGPOCHP	● Champagne

Used to control electrical appliances remotely
Can be paired with one or more wireless switch to create a controlled socket
10A 240V a.c.
Compatible with any electrical appliance or large household appliance
Measures instantaneous power and monitors daily and monthly consumption, plus sends configurable notifications (fault, consumption, etc)
Supplied with support frame, coverplate and paint cover
Zigbee 2.4GHz to 2.4835GHz

Pack	Cat.Nos	Connected roller shutter switch
1	AWNVBLIWE	○ White
1	AWNVBIMGN	● Magnesium
1	AWNVBIALU	● Aluminium
1	AWNVBlichp	● Champagne

For local and remote control of a 240V a.c. shutter/blind (raise/lower/stop functions, compatible with shutter/blind with mechanical and electronic stop, not compatible with radio-controlled shutter/blind)
Can be paired with one or more shutter/blind wireless switches.
Can be installed in place of an existing shutter/blind switch
Supplied with support frame, coverplate and paint cover
Zigbee 2.4GHz to 2.4835GHz

Connected home

connected products (continued)

Step 2: Connected products

AWNWMSWE

AWNWSMGN

AWNWDCHP

AWNWBLIWE

Used to complete your connected installation, require prior installation of a starter kit for connected installation

Pack	Cat.Nos	Wireless master switch
1	AWNWMSWE	○ White
1	AWNWSMGN	● Magnesium
1	AWNWSALU	● Aluminium
1	AWNWSCHP	● Champagne

Used to add an extra Wireless master switch in a connected installation with multiple entrances
Works in the same way as the Wireless master switch included in the starter kit or basic kit
Home/Away scenarios can be customised in the Home + Control App
Supplied with CR2032 3 V battery for power supply and 4 removable stickers for fixing the control unit on any walls
LED function for low battery indication
Supplied with support frame, and coverplate paint cover
Zigbee 2.4GHz to 2.4835GHz

Pack	Cat.Nos	Night/Day Wireless switch
1	AWNNDWE	○ White
1	AWNNDMGN	● Magnesium
1	AWNNDALU	● Aluminium
1	AWNNDCHP	● Champagne

Used to add 2 extra scenarios to a connected installation
Preset Wake up/Sleep scenarios which can be customised in the Home + Control App
Supplied with CR2032 3 V battery for power supply and 4 removable stickers for fixing the control unit on any walls. LED function for low battery indication
Supplied with support frame, and coverplate.
Zigbee 2.4GHz to 2.4835GHz

Pack	Cat.Nos	Wireless Switch
1	AWNWS1WE	○ White
1	AWNWS1MGN	● Magnesium
1	AWNWS1ALU	● Aluminium
1	AWNWS1CHP	● Champagne
1	AWNWS2WE	○ White
1	AWNWS2MGN	● Magnesium
1	AWNWS2ALU	● Aluminium
1	AWNWS2CHP	● Champagne

Supplied with CR2032 3V battery and 4 stickers to mount on walls. Zigbee 2.4GHz to 2.4835GHz
Supplied complete with support frame and coverplate

Pack	Cat.Nos	Wireless shutter/blind switch
1	AWNWBLIWE	○ White
1	AWNWBIMGN	● Magnesium
1	AWNWBIALU	● Aluminium
1	AWNWBlichp	● Champagne

Used to control one or more wired shutter/blind switches
Pair by tapping on the selected shutter/blind switch(es)
Supplied with CR2032 3 V battery for power supply and 4 removable stickers for fixing the control unit on any walls
LED function for low battery indication
Zigbee 2.4GHz to 2.4835GHz

Connected home

connected gateway pack

Must be ordered for any connected installation

Step 1: Gateway pack for a connected home

5 742 09

Used to create the radio network and the Wi-Fi connection of the connected installation
Enables remote control of your home (lighting, roller blinds and electrical appliances) using a smartphone via the Home + Control App and/or voice control with a voice assistant
Must be ordered to start any connected installation
To be completed by adding individual connected products
2.4 GHz Wi-Fi connection required

Connected gateway pack Arteor with Netatmo

Pack	Cat.Nos	Description
1	5 742 09	Used to create the radio network and the Wi-Fi connection Composition: - 1 flush-mounted ZigBee/Wi-Fi gateway Mechanisms supplied with cover plates, to be equipped with support frames (p. 81) and plates (p. 82 - 83) Allows the connection of the installation to the Wi-Fi network and enables control through the Home + Control App and voice assistants (Google Assistant, Amazon Alexa, Apple Siri)* Enables Home + Control service on IFTTT Can be installed in place of an existing product Suitable for flush-mounting box min. depth 35mm - 1 Home/Away wireless master switch with preset life scenes Supplied with support frame To be equipped with plates (p. 82 - 83) Used to create the radio network and to control life scenes Life scenes can be customised in the Home + Control App Supplied with CR2032 3 V long-life battery for power supply and 4 removable stickers for fixing the control unit on any substrate LED function for low battery indication
1	5 742 27	○ White
1	5 742 36	● Magnesium
1	5 742 18	● Champagne
1	5 742 18	● Soft Alu

* Availability of voice assistants to be checked in your country

Connected home

connected light switches

Step 2: Connected products

5 742 01

5 743 41

5 742 43

Used to create your connected installation, require prior installation of a gateway pack for connected installation

Pack	Cat.Nos	Description
1	5 742 01	Connected light switches Arteor with Netatmo Switch with neutral 100 W, wired, 1 module Mechanisms to be equipped with support frames (p. 81) and plates (p. 82 - 83) For local or remote control of lighting Can be controlled by one or more wireless light switches or mechanical 2-way switches Compatible with all loads Can be installed in place of an existing switch in a flush-mounting box 35 mm deep Locator and indicator LED function ○ White ● Magnesium ● Champagne ● Soft Alu
1	5 742 20	
1	5 742 29	
1	5 742 11	
1	5 743 40	Dimmer with Neutral 150W, wired, 1 module Mechanisms to be equipped with support frames (p. 81) and plates (p. 82 - 83) For local or remote control of lighting Can be controlled by one or more wireless light switches Compatible with all loads (dimnable LEDs strongly recommended) Dimmer mode can be activated from the Home + Control App. Can be installed in place of an existing switch in a flush-mounting box 35 mm deep Locator and indicator LED function ○ White ● Magnesium ● Champagne ● Soft Alu
1	5 743 42	
1	5 743 43	
1	5 743 41	
1	5 742 43	Micromodule switch with neutral, 300 W Used to connect lights with a ceiling box installation Can be controlled by one or more wireless light switches or mechanical push-buttons Paired by tapping the wireless control on the micromodule

Connected home

connected outlets

Step 2: Connected products

5 742 00

4 120 15

Used to complete your connected installation, require prior installation of a gateway pack for connected installation

Pack	Cat.Nos	Description
1	5 742 00	Connected socket outlet module Arteor with Netatmo - 16A - 230V~ - 3680 W, 1 module Mechanisms to be equipped with support frames (p. 81) and plates (p. 82 - 83) Allows to create a connected socket outlet for integration into the connected installation To be wired to a traditional socket outlet The connected socket outlet can be paired with one or more wireless light switches Connected socket outlets allow to - remotely control electrical appliances - measure instantaneous power - monitor daily and monthly consumption - send notifications in case of abnormal use (overconsumption etc.) Can be installed in place of an existing socket outlet in a flush-mounting box 40 mm min. depth Indicator LED function ○ White ● Magnesium ● Champagne ● Soft Alu
1	5 742 28	
1	5 742 37	
1	5 742 19	
1	4 120 15	Energy module for rail mounting Measures the instantaneous and cumulative global electrical consumption of a single phase installation (63A maxi) Sends a notification in case of reaching a configurable limit in the Home + Control App. Delivered with 1 coil 1 module

Connected home

connected curtain/roller blind switches

Step 2: Connected products

5 742 04

Used to complete your connected installation, require prior installation of a gateway pack for connected installation

Pack	Cat.Nos	Description
1	5 742 04	Connected curtain/roller blind switch Arteor with Netatmo Mechanisms to be equipped with support frames (p. 81) and plates (p. 82 - 83) For local and remote control of a 230 V~ roller blind (raise/lower/stop functions and level management) Compatible with roller blinds with mechanical or electronic stop, not compatible with radio-controlled roller blinds Can be paired with one or more roller blind wireless switches Can be installed in place of an existing roller blind switch in a flush-mounting box 35 mm deep 1 module - with neutral ○ White ● Magnesium ● Champagne ● Soft Alu
1	5 742 22	
1	5 742 31	
1	5 742 13	
1	0 676 97	Connected curtain/roller blind micromodule For local and remote control of a 230 V~ roller blind (raise/lower/stop functions and level management) Compatible with roller blinds with mechanical or electronic stop, not compatible with radio-controlled roller blinds Can be paired with one or more roller blind wireless switches To be installed in the ceiling box or roller blind box to connect a new or existing roller blind

Connected home

connected wireless controls

Step 2: Connected products

5 742 05

5 742 47

5 742 52

067694

Used to complete your connected installation. Require a prior connected installation including a gateway pack

Pack	Cat.Nos	Wireless light switch - 1-gang Arteor with Netatmo
1	5 742 05	<p>Supplied with support frame To be equipped with plates (p. 82 - 83) Used to add an extra lighting control Easy pairing by tapping the wired product Controls up to 20 wired products: switches, micromodules, socket outlets Supplied with CR2032 3 V long-life battery for power supply and 4 removable stickers for fixing the control unit on any substrate. LED function for low battery indication</p> <p>○ White ● Magnesium ● Champagne ● Soft Alu</p>
1	5 742 23	
1	5 742 32	
1	5 742 14	

Pack	Cat.Nos	Wireless light switches - 2-gang
1	5 742 44	<p>Supplied with support frame To be equipped with plates (p. 82 - 83) Used to add an extra lighting control Easy pairing by tapping the wired product Controls up to 2 x 20 wired products: switches, micromodules, socket outlets Supplied with CR2032 3 V long-life battery for power supply and 4 removable stickers for fixing the control unit on any substrate LED function for low battery indication</p> <p>○ White ● Magnesium ● Champagne ● Soft Alu</p>
1	5 742 46	
1	5 742 47	
1	5 742 45	

Pack	Cat.Nos	Wireless motion sensor
1	5 742 52	<p>Allows to control up to 20 wired switches, micromodules and socket outlets Easy pairing by tapping the wired products Supplied with 2 x AA battery For indoor and outdoor use Recommended distance between 2 sensors: 6 m Recommended installation height: 2.5 m Time delay adjustable from 1 to 30 min Range: 8 m Detection angle: 140° Sensor range adjustable from 2 m to 8 m Light level threshold adjustable from 1 to 1000 lux</p>

Pack	Cat.Nos	Wireless switch on/off module
1	0 676 94	<p>Allows to transform a mechanical 2-way switch into a wireless on/off switch. Small size for easy integration into the wall box To be paired with one connected switch, micro-module, socket outlet Supplied with CR2032 3V long-life battery for power supply</p>

Connected home

connected wireless scene switches

Step 2: Connected products

5 742 15

5 742 08

5 742 25

Pack	Cat.Nos	Home/Away wireless master switch Arteor with Netatmo
1	5 742 06	<p>Supplied with support frame To be equipped with plates (p. 82 - -83) Used to add an extra Home/Away wireless master switch Works in the same way as the Home/Away wireless master switch included in the gateway pack Home/Away life scenes can be customised in the Home + Control App. Supplied with CR2032 3 V long-life battery for power supply and 4 removable stickers for fixing the control unit on any substrate LED function for low battery indication</p> <p>○ White ● Magnesium ● Champagne ● Soft Alu</p>
1	5 742 24	
1	5 742 33	
1	5 742 15	

Pack	Cat.Nos	Wake up/Sleep wireless switch Arteor with Netatmo
1	5 742 08	<p>Supplied with support frame To be equipped with plates (p. 82 - -83) Used to add 2 extra scenes to a connected installation Preset Wake up/Sleep life scenes which can be customised in the Home + Control App. Supplied with CR2032 3 V long-life battery for power supply and 4 removable stickers for fixing the control unit on any substrate LED function for low battery indication</p> <p>○ White ● Magnesium ● Champagne ● Soft Alu</p>
1	5 742 26	
1	5 742 35	
1	5 742 17	

Pack	Cat.Nos	Curtain/roller blind wireless switch Arteor with Netatmo
1	5 742 07	<p>Supplied with support frame To be equipped with plates (p. 82 - 83) Used for remote control or centralization of up to 20 wired roller blind switches Pair by tapping on the selected roller blind switch(es) Supplied with CR2032 3 V long-life battery for power supply and 4 removable stickers for fixing the control unit on any substrate LED function for low battery indication 2 modules</p> <p>○ White ● Magnesium ● Champagne ● Soft Alu</p>

Key covers selection charts p. 96 - 97

Pack	Cat.Nos	For lighting and shutter control
1	675 52	For controlling a controller (eg: lighting, shutters or lighting + shutters) depending on the selected configuration Used to manage groups of functions and centralize them (scenario switch type) To be installed in flush-mounting boxes For controlling 1 or 2 controllers 2 modules To be equipped with key covers (p. 96 - 97) support frames (p. 81) and plates (p. 82 - 83) For controlling up to 3 controllers 3 modules To be equipped with key covers (p. 96 - 97) support frames (p. 81) and plates (p. 82 - 83)
1	675 53	For multi-functions control For controlling 1 or 2 controllers (eg: ON/OFF, shutters, scenario control) door release control, dimming: gradual switching on or off depending on the selected configuration To be installed in flush-mounting boxes For controlling up to 4 scenarios 2 modules To be equipped with key covers (p. 96 - 97) support frames (p. 81) and plates (p. 82 - 83) For advanced shutter Point-point, room, group, and general control of the motor controlled rolling shutters, to be used in conjunction with actuators or 0 675 57. Stop, up, down function. Possibility of blade angle adjustment Recall of a previously saved opening/closing position. Recording of the opening/closing position on the control using self-learning procedure 2 modules To be equipped with key covers (p. 96 - 97): shutter STOP marking and up/down symbol, support frames (p. 81) and plates (p. 82 - 83)
1	675 58	

Pack	Cat.Nos	Flush-mounting controller with built-in control for lighting and shutter
1	067561	Actuator with 2 independent relays and 3 wires (with neutral) with built-in controls For single or double loads Used to connect a motor or 2 lighting circuits: 6 A incandescent/halogen lamps 2 A for motors, 2 A for ferromagnetic transformers and electronic transformer Compact fluorescent and LED: 1 A Logic relay interlocking by configuration The device can also be configured to manage a remote actuator, present on the BUS 2 modules To be equipped with key covers (p. 96 - 97) support frames (p. 81) and plates (p. 82 - 83)
1	067557	Flush-mounting controller with built-in control for advanced shutter Max. motor power: 460 W, 230 V~ Motors controlled by interlocking relays or by sending pulses Position status feedback: closed, open, intermediate position Controlled according to different commands: up, down or % opening Logic relay interlocking. Stop, up, down function Possibility of blade angle adjustment Recall of a previously saved opening/closing position. Recording of the opening/closing position on the control using self-learning procedure 2 modules To be equipped with key covers (p. 96 - 97): shutter STOP marking and up/down symbol, support frames (p. 81) and plates (p. 82 - 83)

BUS modular equipment for lighting control automation and shutter control

F411U2 F411/4

Pack	Cat.Nos	Multi-application DIN controllers
1 1	F411U2 F411/4	NO contact For lighting and motors 2 DIN modules 17.5 mm 2 outputs 10 A with neutral connection 4 output 6 A - common phase
1	F418U2	DIN controllers for dimming For use in conjunction with loads and control mechanisms (p. 21) for dimming control For dimmable LEDs and CFL (Compact Fluorescent Lamps) incandescent, halogen lamps and electronic transformers 2 outputs - loads with separate channels: 1-300 VA / 230 V or 1-150 VA / 110 V - loads with parallelized channels: 2-600 VA / 230 V or 2-300 VA / 110 V
1	F413N	For 1-10 V ballasts 500 VA maximum 2 DIN modules 17.5 mm
1	026 31	For DALI protocol Enables communication between the BUS/SCS installation and the lighting appliances controlled by DALI protocol 6 DIN modules 17.5 mm

Pack	Cat.Nos	RJ adaptor
10	488 72	For connecting Cat.Nos BMSW1003, BMSW1005, F46IU1, BMDI1002 to the BUS Male connector
1 1	F428 3477	Contact interfaces Allow the connection between traditional wiring devices such as switches, time delay switches or external sensors 2 independent contacts 2 DIN modules 17.5 mm Basic modularity to be installed in flush-mounting box

BUS energy management

Pack	Cat.Nos	Consumption indicators
1	3522N	Pulse counter interface <p>Used to store data from a pulse counter (water, colorimetry, heat or gas) In countries subject to the ATEX Directive it's mandatory to use a zener barrier/galvanic insulation barrier between the pulse counter interface and the gas meter The barrier must comply with the ATEX directive and must be installed outside the ATEX zone Install one pulse counter interface per meter to measure the consumption individually Consumption data stored hour by hour, and kept for several years (12 years) Display can be in the form of histograms or statistical data</p>
1	F520	Consumption indicator for 3 circuits <p>For single phase installations Supplied with a toroid and its link Each toroid can monitor one circuit The consumption indicator can take up to 3 toroids, for monitoring 3 separate circuits Several consumption indicators can be installed to monitor more than 3 circuits on the installation. Instantaneous and cumulative display of the consumption for each circuit and display of consumption on touch screens Display can be in the form of histograms or statistical data Consumption data can be stored for 1 year, hour by hour, 2 years day by day or 12 years month by month</p>
1	3523	Additional toroid <p>Operates with consumption indicator Cat.No 0 035 55 Also operates with controller Cat.No F522 for load diagnostics 90 A max. Cable cross-section 25 mm² max.</p>
10	3508BUS	Connectors Spare parts for consumption indicator Cat.No F520 and controllers Cat.Nos F521, F523 and F522 BUS connector, depth 3.81 mm
10	3508U3	

Pack	Cat.Nos	Load and load shedding management
1	F521	Central control unit <p>Used to define an energy threshold and manage load shedding priorities set on controllers to avoid unwanted interruptions as a result of exceeding the energy contract Manages up to 63 controllers The max. authorised power threshold can be defined The settings can be activated/deactivated from the touch screen Instantaneous and cumulative display of circuit consumption on the touch screen Integrated memory module For installation in the consumer unit 1 DIN module 17.5 mm</p>
1	F523	16 A controller <p>Used to define a priority level for a circuit in the context of a load shedding function For installation in the consumer unit 1 DIN module 17.5 mm Can be used as an electronic control box controller and/or an energy management controller</p>
1	F522	16 A controller with consumption measurement <p>Used to define a priority level for a circuit in the context of a load shedding function For installation in the consumer unit 1 DIN module 17.5 mm Can be used as an electronic control box controller and/or an energy management controller Measures the consumption of the load being controlled and displays instantaneous and cumulative consumption with separate reset Diagnostics of the load being controlled with use of toroid Cat.No 3523</p>

BUS temperature control

Pack	Cat.Nos	Arteor display thermostats
1	0 674 59	<p>Flush mounting thermostat with backlit display Can be used to control the temperature of an individual zone Features a temperature probe and an input for connecting a contact line (e.g. window contact) Can be used to manage different types of systems, and to adjust the fan speed when fan coils are used Possibility of automatic operation (summer/winter), with compatible systems 2 modules To be equipped with support frames (p. 81) and plates (p. 82 - 83)</p>
1	BT3454	Temperature probe <p>Temperature interface with input for external sensors. Can work as master and slave probe Compatible with external temperature sensors Cat.No BT3457 and Vantage VT-FLUSHSENSOR</p>
1	F430/2	DIN rail actuators 100/240 V~ - 50/60 Hz Actuator with 2 independent relays For single and double loads: 6 A resistive, 3 A motorised valves and pumps 2 DIN modules 17.5 mm
1	F430/4	Actuator with 4 independent relays For single, double or mixed loads: 6 A resistive, 3 A motorised valves, pumps and fan-coils 2 DIN modules 17.5 mm
1	F430R8	DIN actuators for the control of ON/OFF valves, motorised valves, pumps and fan coils with 0-10V proportional valves <p>Actuator with 8 independent relays for the control of on-off valves, motorised valves (open-close and three-point valves), pumps and fan coils with 2 and 4 tubes 4 A resistive, 1 A motorised valves, pumps and fan coils 4 DIN modules 17.5 mm</p>
1	F430R3V10	<p>Actuator with 3 independent relays and 2 x 0-10 Volt outputs for the control of fan coils with 2 and 4 tubes with 0-10 Volt proportional valves 4 A resistive, 1 A fan coils 4 DIN modules 17.5 mm</p>
1	F430V10	<p>Actuator with 2 x 0-10 Volt outputs for the control of 0-10 V proportional valves 2 DIN modules 17.5 mm</p>

1	3501K/1	Kit with: AUX, GEN, GR, AMB, ON, OFF, O/I, PUL, SLA, CEN, ↑, ↓, ↑M (10 pieces of each figure)
1	3501K	Kit with «0 to 9» jumpers (10 of each number)
1	3502	Plier Plier for plug-in jumpers

Pack	Cat.Nos	Local management
1	5 739 58	MyHOME screen 3.5" 3.5" colour touch screen for the management of light functions, automation, burglar alarm, temperature control, sound system, scenarios and energy management Equipped with front panel USB connector for setup and ready for Open Webnet programming language To be installed in flush-mounting box Cat.Nos 0 892 79 or 0 893 79 Equipped with surround, to be equipped with special plates (p. 82 - 83)
1	0 672 19	MyHOME screen 10" 10" LCD capacitive touch screen used for: - management of MyHOME, Nuvo and video door entry system - management of multimedia contents (Ethernet, USB, SD card) - management of customised profiles Navigation by rooms Possibility of customizing background images Wall-mounting installation Supplied complete with plates Requires power supply unit Cat.No 3 460 20
1	0 672 28	○ White ● Black

1	F454	Remote management Web server gateway TCP-IP Audio/video web server for the remote and local control of the system using web pages or specific software programs and apps. The device can operate as a gateway for the use of the MyHOME_Suite software 6 DIN modules
1	F455	MyHOME gateway Gateway device for remote and local management of the MyHOME system using specific software programs and apps Can also be used as gateway for virtual configuration of devices using MyHOME_Suite 1 DIN module

1	MH202	Other devices Scenario programmer Device for the execution of scenarios programmed using MyHOME_Suite software. The scenario may be combined with times and dates, manual activations, events generated by the systems

Guest room management system

ENTRANCE AREA	LIVING AREA		SLEEPING AREA
<p>EXTERNAL INDICATOR WITH ACCESS CONTROL READER, KEY CARD HOLDER AND DND-MUR CONTROL</p>			

Thanks to the Legrand Guest Room Management System, different scenes can be set in each guest room for a new and unique experience.

The objective is to consistently satisfy guests' needs and expectations in their rooms. They will appreciate the ability to control the lighting, the curtains, the temperature and the fan control unit easily through the user friendly interfaces. Using Legrand multimedia connectivity solutions, your guests will be able to connect and use their high-tech equipment in their rooms.

Arteor™ BUS

Support frame and plate selection charts p. 81 - 83

Pack	Cat.Nos	Touch control scenario controllers
1 1	5 740 89 5 745 89	4-scene touch control - 4 scenarios "wake up / sleep / TV / relax" scenarios - 2 modules Touch control plates, supplied complete, to be installed in BS flush-mounting boxes ○ White ● Black
1	0 675 92	Scenario controller 8 push-buttons control for lighting, automation, sound diffusion and scenario functions For controlling a number of controllers and managing 4 scenarios 8 scenarios 2 modules Equipped with cover plates Supplied complete with scenario identification label To be equipped with support frame and plates (p. 81-83)
1 1	0 675 96 0 675 95	Accessories A5 sheets For the customisation of the symbols of Cat.No 0 675 92 ○ White ● Magnesium

Pack	Cat.Nos	Multi-functions touch control mechanisms
1 1	5 739 04 5 739 05	For controlling 1 or 2 controllers (eg: ON/OFF, shutters, scenario control) sound system, door release control, dimming: gradual switching on or off depending on the selected configuration Supplied complete, equipped with white or black touch plates To be installed in flush-mounting boxes Up to 4 scenarios - 2 modules ○ White - for BS flush-mounting boxes ● Black - for BS flush-mounting boxes
1 1	5 739 12 5 739 13	Up to 6 scenarios - 3 modules For installation in BS, Italian or US flush-mounting boxes ○ White ● Black
1	0 674 59	Display thermostat Flush mounted thermostat with backlit display. To be equipped with Arteor support frames (p. 81) and plates (p. 82 - 83) Can be used to control the temperature of an individual zone, both if a temperature central unit is and is not present. Features a temperature probe and an input for the connection of a contact line (e.g. window contact). Can be used for the management of different types of systems, and the adjustment of the fan speed when fan coils are used Possibility of automatic operation (summer/winter), with compatible systems 2 modules

Pack	Cat.Nos	Room Controller Units
1	0 484 08	Power modules equipped with output contacts for controlling: - different types of ON/OFF load (lighting, roller shutters, contactors, motors, etc.) - a DALI dimming output for 64 ballasts max. Loads are managed by the controls to which they are linked: either by BUS/KNX controls, or by wired connection input terminals (switches, push-buttons, volt-free contacts). Multiphase connection and consumption measurement. 8 inputs - 10 outputs 8 DIN modules 17.5 mm
1	0 484 12	16 inputs - 16 outputs 12 DIN modules 17.5 mm
1	0 674 64	Arteor temperature control 1,6' backlight display with 4 push-buttons and embedded a temperature probe Used to manage different types of heating/cooling system (FCU, heating/cooling valve, fan, electric load, ...) in combination through KNX with dedicated HVAC controller (for details see dedicated KNX brochure) - monitoring the ambient temperature with desired unit - adjustment of the temperature set-point and/or fan speed - selection of operating mode (comfort, protection) To be installed in flush-mounting boxes 2 modules To be equipped with support frames (p. 81) and plates (p. 82 - 83)

Pack	Cat.Nos	MediaHub
1	5 722 69	Allows the user to: - watch films from a PC or camcorder on TV: HDMI socket - watch the content of a USB stick on TV: 1 A USB Data socket - charge devices: USB socket (total power 3 A) - listen to music from a smartphone, tablet, etc on TV: Bluetooth function Inputs: 2 USB chargers including 1 USB Data, HDMI, Bluetooth audio Output: HDMI and USB Data Power supply with transformer provided 2 modules To be equipped with British Standard square plates 2 Modules: 575210 (White), 571302 (Soft Alu.), 575214 (Mirror White) ○ White ● Soft Alu
1	5 727 69	
1	5 722 30	Mechanical key card switches For energizing a circuit by inserting a key fob Cat.No 5 722 59 or a smart card (access card for a hotel room) Example of use: hotel room power supply only when guest is present Time-delay of approx. 30 sec. after card removal To be equipped with single pole latching relay Cat.Nos 5 722 27 or 5 727 27 2 modules Key card switches 230 V ○ White ● Magnesium ● Champagne ● Soft Alu
1	5 727 30	
1	5 700 55	
1	5 710 55	
1	5 722 53	Key card switches RFID For energizing a circuit for example meeting room, office, hotel room... Works only with ISO type contactless key card Cat.Nos 0 767 11/12/13 or other ISO type 13.56 MHz key card Time-delay of approx. 30 sec. after card removal Low capacity contact 230 V - 30 VA Lighting of the slot by LED To be equipped with support frames (p. 81) and plates (p. 82 - 83) 2 modules ○ White ● Magnesium
1	5 727 53	

Pack	Cat.Nos	Key card switches
10	5 722 59	For mechanical key card switches Enable use of key fob switches in hotels with key locks Supplied complete with a label holder for individual hotel identification ○ White ● Magnesium
10	5 727 59	
10	767 11	For RFID key card switches MIFARE contactless badge card ISO format (50 x 80 mm) Chip: 13.56 MHz Standard 1 KB memory
1	5 721 55	Shaver sockets Conform to BS EN 61558-2-5. IP 24 For use with European, British, American, Australian 2-pin plugs. Screwless live and neutral terminals Double wound isolating transformer Automatic self-resetting overload feature Plug insertion operates micro-switch which energises transformer To be equipped with BS 2 gang - 3-module plates: 575070 (White), 575072 (Graphite), 571305 (Soft Alu.), 575073 (Mirror Black), 575074 (Mirror White) For flush-mounting boxes, use BS 2 gang box depth 48 mm, US type, Italian type boxes depth 48 mm or Cat.No 0 801 55 Power supply: 230 V - 50/60 Hz 3 modules 230 V / 120-230 V ○ White ● Magnesium
1	5 726 55	
1	5 721 53	○ White - with earth connector ● Magnesium - with earth connector ● Champagne - with earth connector ● Soft Alu - with earth connector
