

### Wiring Instructions

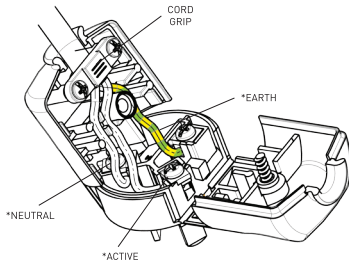

- 1) Strip insulation as illustrated & twist strands
- 2) Insert strands into clamp terminals. Secure tightly
- 3) Place cord under loosened cord grip
- 4) Tighten cord grip. (The cord grip is reversible to accommodate all cord sizes).
- 5) Fold until together and secure with screw.

**Suitable for 15A ordinary and heavy duty.**

**\*2 core and 3 core flexible cable.**

**\*WARNING:** Connect only to the A (ACTIVE) and N (NEUTRAL) terminals when using 2 core cable.

- \* EARTH (E) - Green/yellow (or Green)
- \* ACTIVE (A) - Brown (or Red)
- \* NEUTRAL (N) - Blue (or Black)

### Warning: Wire Correctly
