D809/1 24 Hour Timer with Offset

Product / Packaging Specification

HPM Timers can be used in the home or office to turn appliances on or off at different times of the day. 24 Hour Timers can be used for security purposes with lamps and radios to give the home a lived in look, or for conveniently turning on and off appliances such as heaters and electric blankets.

Key Features & Benefits

- Great value for money
- No pins to lose
- Override switch allows independent control over appliance
- Unique shape – leaves adjacent outlet free for use.
- Convenience – control appliances to turn on and off when required
- Timers can save energy and reduce electricity costs
