[^] Rated average life is 1,500 Hours. Actual life vary in individual circumstances. Frequent switching ON & OFF of the lamp will reduce the rated average life.

[▲] Average kg CO₂ savings over the rated average life of the E-Halogen lamps @ 0.92kgCO₂-e/kwh. Suitable for dimming.

[#] The equivalent incandescent wattage is a guide only.

[†] Savings based on 14c per kilowatt hour over total rated life of lamp compared to a standard GLS lamp of the equivalent incandescent wattage.

^{*} Up to 30% power (energy) saving when replacing a standard 40W incandescent lamp with a 28W E-Halogen lamp.

NOTE: All specifications correct at time of printing. Specifications are subject to change without notice.
