I'M RETRO COOL, SWITCH TO STANDARD™

What's old is new again. Our Standard range of switches & sockets is tried, tested, and like acid wash jeans, its hung around long enough to have an edgy coolness about it. Pragmatic, rudimentary, deconstructed, it skirts fabulous old factories, old town halls, school corridors, original Mod Squad style apartments and film sets.

I'M A CLASSIC, SWITCH TO EXCEL®

The 80s brought us shoulder pads, big hair and the best-selling Excel range of switches & sockets. It was the first of its kind with removable snap-on, snap-off coverplates which made painting easier and allowed people to mix and match coverplate colours according to decor. Although the 80s is long gone, Excel has prevailed proving classic design endures.

I'M SLIM-FIT SWITCH TO LINEA®

Streamlining and harmonizing your surroundings is what it's all about. With a slimmer profile at 4.2mm than the traditional switch plate, Linea perfectly blends into walls, making it smooth to the touch and stunning to the eye. The perfect solution for apartments and homes, super-slim and ultra-colourful Linea switch plates are the real deal when it comes to a low profile.

CONTEMPORARY LIGHTING

ADD STYLE, INTRIGUE AND DELIGHT

Beautiful restaurants and hotels are fabulous spaces in which to note great design and lighting tips. Architects and Interior Designers sure know the power of lighting. And here's one of their secrets for adding texture and visual delight: decorative lighting.

FLOODLIGHTS

BEAM IT BRIGHT OUTDOORS FOR GREATER SAFETY

If you're lighting a suburban backyard, it's not usually the size of a football field, so you won't need the power and expense of a commercial floodlight. You need something that's fit for purpose. That's where HPM can help. Check out our range for the best in LED floodlights.
