2 Operation

If the ambient light level is below 2.5 lux and movement is detected within the field of view, the indicator light turns on for 30 seconds and a short sound signal is emitted. The sound feature can be enabled or disabled using the switch located underneath the front cover of the mechanism.

A graphical representation of how the unit operates is shown below.

This product must only be connected to the mains supply by a qualified electrician.

Warranty

HPM Cat XLP940WEWE is warranted as here and after appears, against faulty material and/or workmanship for a period of one year from the day of purchase. The obligation of the manufacturer under this warranty is limited to servicing and replacing defective parts when the unit is returned to the authorised place of purchase. To obtain warranty repair, the purchase receipt should be returned with the product. This warranty becomes void on any unit which has been tampered with or damaged by accident, short circuited, loaded beyond rating or damaged otherwise by improper operation. The warranty is also conditional on the unit being installed by a licensed electrical contractor. All other warranties, whether expressed or implied, and whether arising by operation of law or otherwise are hereby excluded.
