CAMERA WITH SIREN

SMART INDOOR  
CAMERA

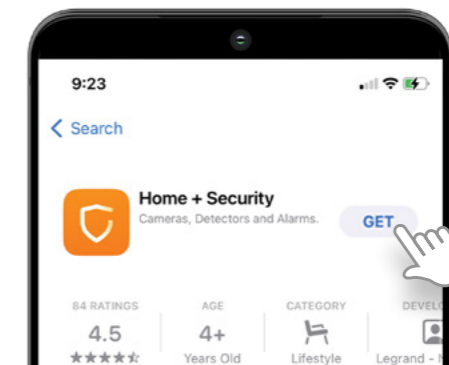

## HOMEOWNER STARTER GUIDE

## LET'S GET STARTED

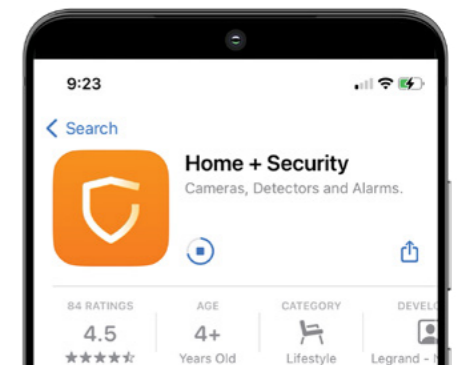

### 1 DOWNLOAD THE HOME + SECURITY APP

1. Go to **App store** or **Google Play store**.

2. Search **"Home+Security"**.

3. Download the app.

Congratulations on your purchase of a Netatmo smart camera!

We are sure this product will make your home more secure.

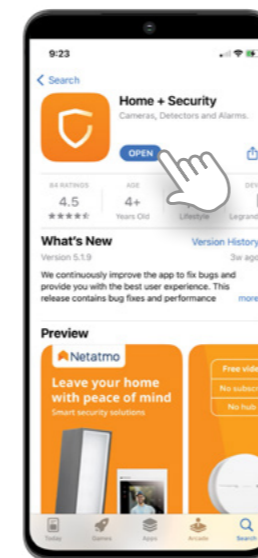

Follow those easy steps to install your new camera.

### 2 CREATE AN ACCOUNT

1. Launch the **Home+Security app**.

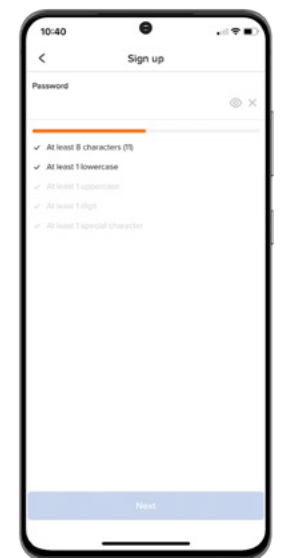

2. Click on **"Sign up"** at the bottom of the screen.

Note: If you already own a Bticino Classe300EOS or Classe100 Wi-Fi intercom, click on **"Log in"**. Enter the same credentials as used in the app for those products.

3. Enter your email address.

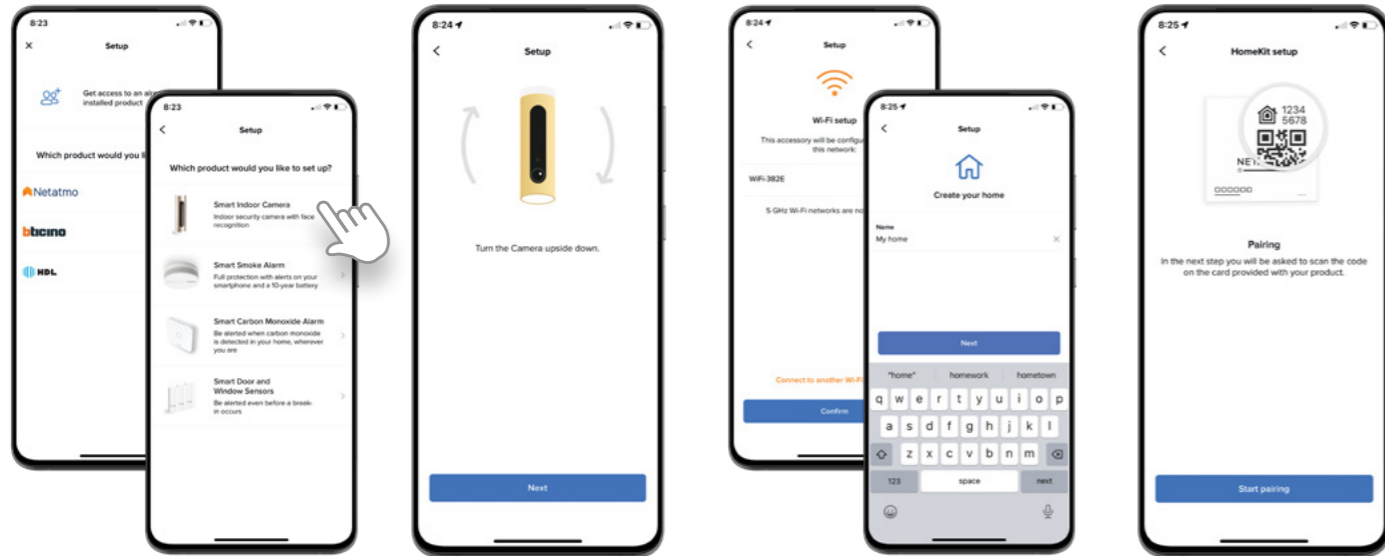

4. Choose a password meeting all criteria listed. Once logged in, press **"Start"**.

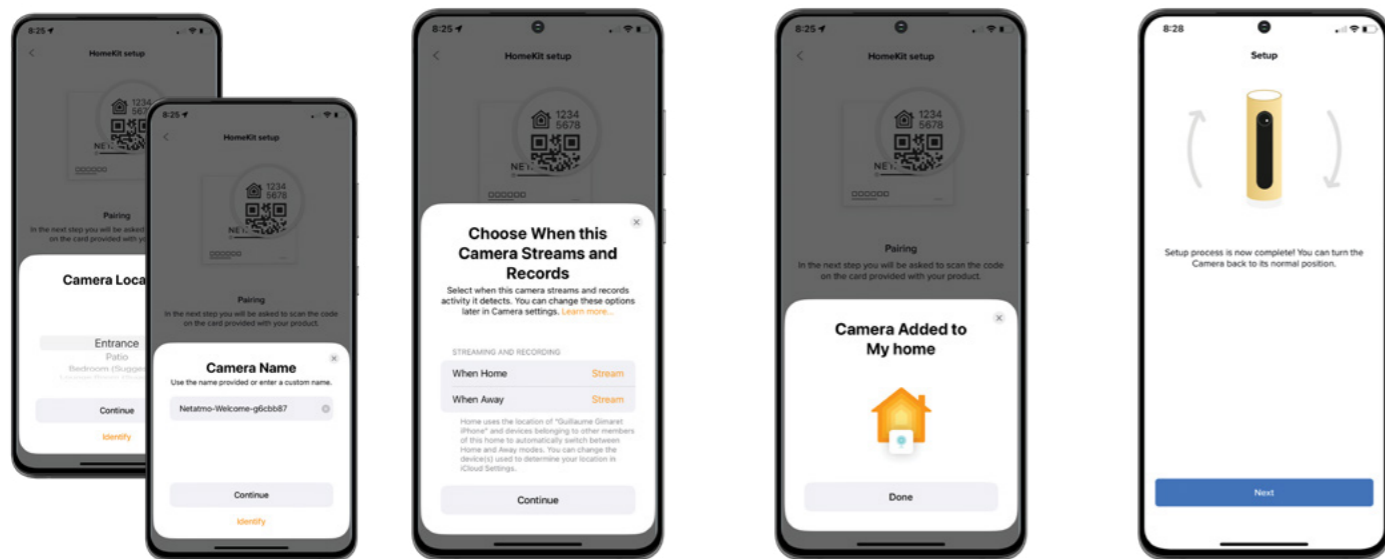

# SMART INDOOR CAMERA

## 1 SETUP OF NETATMO SMART INDOOR CAMERA

1. After installing the Home+Security app and creating your account (refer p.3), Select **"Netatmo"**, then **"Smart Indoor Camera"**.
2. Turn the camera upside down and wait for the light to start flashing green. Press next, the app will show "searching for camera". When done, press **"next"**
3. Select your Wifi network and give a name to your smart home
4. Apple HomeKit / Siri control: Confirm by clicking **"Start pairing"** and scan the Apple QR code at the back of the camera when prompted by the app.

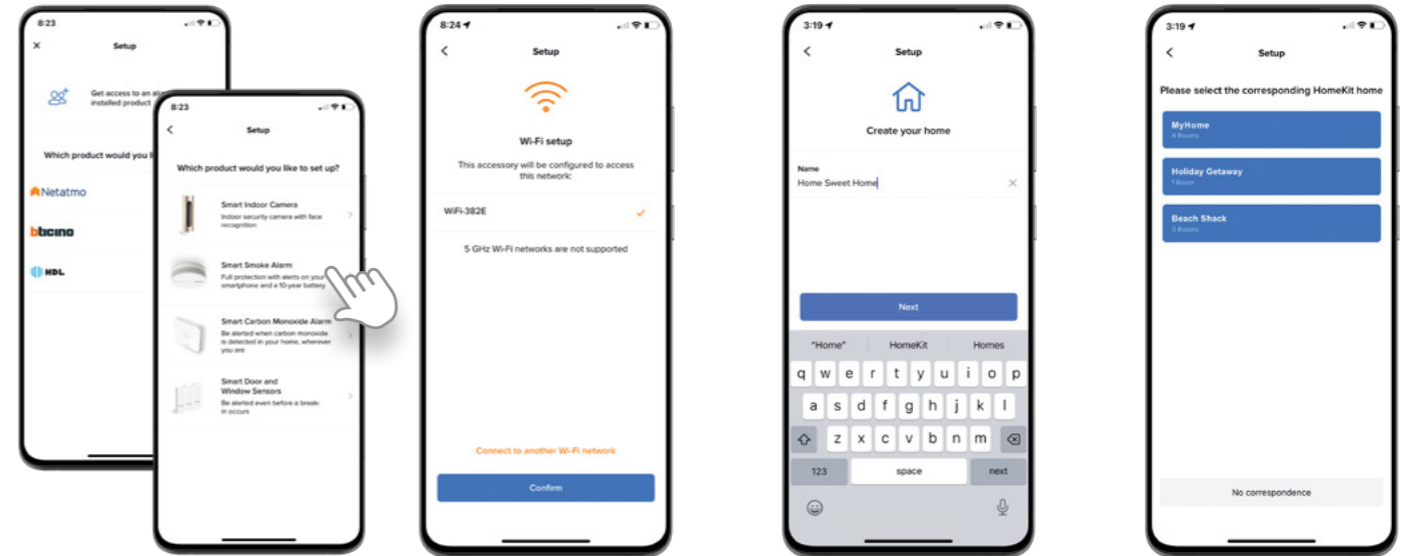

5. Indicate the room where the camera is installed and name the camera.
6. Define the basic camera settings  
Note: These settings can be modified at a later date through the 'settings' menu of the app.
7. Click continue and wait for app to finish the setup (it can take a few minutes).
8. Turn the camera upside down again. You're done!

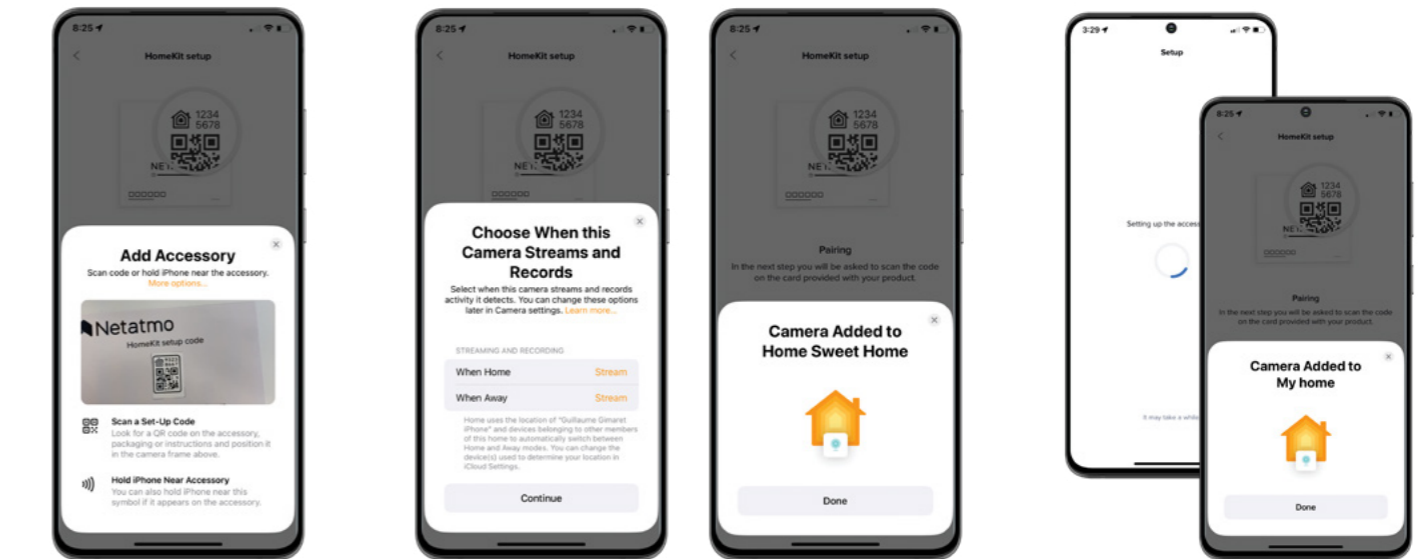

# SMART OUTDOOR CAMERA

## 1 SETUP OF SMART OUTDOOR CAMERA

1. After installing the Home+Security app and creating your account (refer p.3), Select **"Netatmo"**, then **"Smart Outdoor Camera"**.
2. Ensure your Netatmo Outdoor Camera is powered and select your WiFi network.
3. "Click **"Add a new home"** and name your smart installation, or select it from the existing list (if you already have Netatmo smart products in your Home) and confirm.
4. Select the existing installation in Apple HomeKit app, if you already have one, or create a new one

5. When prompted (camera activated on your screen), scan the HomeKit code on the HomeKit setup card provided inside the box. Once found, define its location within the home and give it a name
6. Define the basic recording settings (they can be changed later in the app) and how they will appear in Apple HomeKit. Press **"Done"** when the camera has been added to your home
7. The app will download the latest firmware and confirm setup is complete.
