

Wiring Instructions

- 1) Strip insulation as illustrated & twist strands
- 2) Insert strands into clamp terminals. Secure tightly
- 3) Place cord under loosened cord grip
- 4) Tighten cord grip. (The cord grip is reversible to accommodate all cord sizes).
- 5) Fold until together and secure with screw.

Suitable for 1.0mm² and 1.5mm², ordinary-duty and heavy-duty, 2-core and 3-core flexible cords only.

***WARNING:** Connect only to the (A) ACTIVE and (N) NEUTRAL terminals when using 2 core cable.

- * EARTH (E) - Green/Yellow (or Green)
- * ACTIVE (A) - Brown (or Red)
- * NEUTRAL (N) - Blue (or Black)

LEDUP20AB

Warning: Wire Correctly
